Our Many Faces:

Map of the Soul – Persona Murray Stein, 2019-05-16 There is a lot of interest in today's culture about the idea of Persona and the psychological mapping of one's inner world. In fact, the interest is so strong that the superstar Korean Pop band BTS has taken Dr. Murray Stein's concepts and woven them into the title and lyrics of their latest album *Map of the Soul: Persona*. What is our persona and how does it affect our life's journey? What masks do we wear as we engage those around us? Our persona is ultimately how we relate to the world. Combined with our ego, shadow, anima, and other intra-psychic elements, it creates an internal map of the soul. T. S. Eliot, one of the most famous English poets of the 20th Century, wrote that every cat has three names: the name that everybody knows, the name that only the cat's intimate friends and family know, and the name that only the cat knows. As humans, we also have three names: the name that everybody knows, which is the public persona; the name of that only your close friends and family know, which is your private persona; and the name that only you know, which refers to your deepest self. Many people know the first name, and some people know the second. Do you know your secret name, your individual, singular, unique name? This is a name that was given to you before you were named by your family and by your society. This name is the one that you should never lose or forget. Do you know it? *Many Faces* Terrie Starr, 2008-06-26 Through a collection of short stories, this Southern female author shows her life in snapshots of time. These literary snapshots tell the story of her journey toward living in harmony with Parkinson's disease, an uninvited guest in her life for over 25 years. You can almost hear the Southern drawl as she tries to convey to the reader through humor her desire not to be defined by her disease. *Many Faces, One Church* Peter C. Phan, Diana L. Hayes, 2005 *Many Faces, One Church* Cultural Diversity and the American Catholic Experience both captures and facilitates a seismic shift in the who, what, where, when, why, and how of Catholic theology today. Along with a diverse group of theologians who represent the many faces of the church, editors Peter C. Phan and Diana Hayes recast the story of the church in America by including immigrant groups either forgotten or ignored and, in light of these new and not-so-new voices, retooling the theological framework of Catholicism itself. That the American Catholic Church is an immigrant church is not news. What is news, however, is how diverse the immigrant church really is and how much work there is to be done to include their voices in theological discourse and training. Beyond the German and Irish immigrants, what of other European immigrant groups such as the Italians, Poles, Lithuanians, Czechs, Slovaks, and Eastern Rite Catholics? Where are the stories of the older presence of native Mexican, Native American, and African American Catholics in this country? And more recently, of Asian American Catholics, especially the Chinese, the Japanese, and the Filipinos of the nineteenth and early twentieth century? And more recently still, Catholic immigrants have come from El Salvador, Guatemala, Vietnam, Cambodia, Korea, India, and the Pacific Islands. What impact are these immigrants having on American society and religious groups? *Many Faces, One Church* is a profound attempt to address these key questions and their implications for the Catholic way of being, church worshipping, and practicing theology. The result of three

years of conferences sponsored by Elms College exploring the new faces of the American Catholic Church this thoughtful collection highlights opportunities and challenges lying ahead as the American Church tries to respond to the continuing presence of new immigrants in its midst Many Faces One Church is a beginning of a long but exciting journey in which the strangers welcome
