Hegel and Canada Susan M. Dodd, Neil G. Robertson, 2018-01-01 Hegel and Canada is a collection of essays that analyses the real but under recognized role Hegel has played in the intellectual and political development of Canada The volume focuses on the generation of Canadian scholars who emerged after World War Two James Doull Emil Fackenheim George Grant Henry S Harris and Charles Taylor **In Quest of a Creed**, 1876 **Philosophy of Mind/Philosophie de l'esprit** Guttorm Fløistad, 2012-12-06 This publication is a continuation of two earlier series of chronicles Philosophy in the Mid Century Firenze 1958 59 and Contemporary Philosophy Firenze 1968 edited by Raymond Klibansky Like the other series these chronicles provide a survey of important trends in contemporary philosophical discussion from 1966 to 1980 The need for

such surveys has I believe increased rather than decreased over the last years The philosophical scene appears for various reasons more complex than ever before The continuing process of specialization in most branches the emergence of new schools of thought particularly in philosophical logic and the philosophy of language the convergence of interest though not necessarily of opinion of different traditions upon certain problems and the increasing attention being paid to the history of philosophy in discussions of contemporary problems are the most important contributory factors Surveys of the present kind are a valuable source of knowledge of this complexity and may as such be an assistance in renewing the understanding of one's own philosophical problems The surveys it is to be hoped may also help to strengthen the Socratic element of modern philosophy the dialogue or Kommunikationsgemeinschaft So far four volumes have been prepared for the new series The present chronicles in the Philosophy of Mind Vol 4 follow upon chronicles in the Philosophy of Language and Philosophical Logic Vol 1 and chronicles in the Philosophy of Science Vol 2 and chronicles in the Philosophy of Action Vol 4
