

The Paradox of Our Age

We have bigger houses but smaller families;
more conveniences, but less time.

We have more degrees but less sense;
more knowledge but less judgment;
more experts, but more problems;
more medicines but less healthiness.

We've been all the way to the moon and back,
but have trouble in crossing the street to meet our new neighbor.

We built more computers to hold more copies than ever,
but have less real communication;
We have become long on quantity,
but short on quality.

These are times of fast foods but slow digestion;

Tall men but short characters;

Steep profits but shallow relationships.

It's a time when there is much in the window but nothing in the room.

Our Age:

The Choices and Consequences of Our Age Dean Gualco, 2012-03 There are winners and losers in a capitalistic society but capitalism does not choose who is a winner and who is a loser The winners are those who have the right idea sacrifice their time and money take risks work hard and have a little luck and help along the way The losers are those who rarely dream of the impossible waste their time spend their money foolishly lack the courage to take risks and fail to dedicate themselves to achieving the rewards of their efforts Winners should receive the greatest returns for their investments and the greatest of rewards for their endeavors While wealth may be distributed unequally it results more from an unequal dedication to acquire this wealth That is not only right but it is fair At the heart of capitalism is choice one of success or failure saving or spending and work or recreation Capitalism is a system that allows a person to choose whether he or she wants to be a winner or a loser Today too many have chosen the latter and display the unbecoming traits of greed jealousy and envy toward those who have chosen the former While insecurity and instability may pervade this country's economic political and societal institutions success can still be achieved by those who look forward rather than backward who avoid the disadvantages of the past to take advantage of the future In *The Choices and Consequences of Our Age* you'll learn that it's still possible to achieve success through hard work sacrifice and self reliance *The Measure of Our Age* M.T.

Connolly, 2023-07-18 An expert on elder justice maps the challenges of aging how things go wrong and presents powerful tools we can use to forge better long lives for ourselves our families and our communities As tens of millions of Americans are living longer lives longevity is creating challenges that cut across race class and gender Caregivers help older relatives for free but with high costs to themselves in time money jobs and health Scammers target countless seniors The institutions built to protect older people like nursing homes and guardianship too often harm them instead And epidemics of isolation and loneliness make older people vulnerable to all sorts of harm In *The Measure of Our Age* elder justice expert and MacArthur genius grant recipient M T Connolly investigates the systems we count on to protect us as we age Weaving first person accounts her own experience and shocking investigative reporting she exposes a reality that has long been hidden and sometimes actively covered up But her investigation also reveals reasons for hope within everyone's grasp Connolly's strategies and action plans for navigating the many challenges of aging will appeal to a wide range of readers adult children caring for aging parents policymakers trying to do the right thing and should we be so lucky as to live to old age all of us This book transforms how we think about aging ***The Living Age***, 1883 *Littell's Living Age*, 1859 *Littell's Living Age* Eliakim Littell, Robert S. translation is accompanied by a facing Latin Greek text based on H B Swete s 1880 1882 critical edition of these early fifth century commentaries As a prime example of Antiochene exegesis and theology they are of considerable interest providing valuable evidence for Theodore s exegetical principles and practice his Christology and doctrines of grace and free will and his understanding of crucial developments in Christian ministry and church polity from the time of Paul to his own day
