*Disabled Literature* Miles Beauchamp, Wendy Chung, Alijandra Mogilner, 2015 This book by Beauchamp Chung Mogilner and Svetlana Zakinova examines how authors have used characters with disabilities to elicit emotional reactions in readers additionally how writers use disabilities to present individuals as the other rather than simply as people Finally the book discusses how literature has changed or is changing with regards to its presentation of those with a disability

*The Philosophy of Childing* Christopher Phillips, 2016-05-17 Weaving together philosophy social science and neuroscience research personal anecdotes and dialogues The Philosophy of Childing takes a radically different approach to the traditional boundaries between childhood and adulthood to reveal how rather than lapse into adulthood we can achieve what the Greeks arete all around excellence when we look to children and youth as a lodestar for our development Childhood is our primary launching pad a time of life when learning is more intense than at any other when we gain the critical knowledge and skills that can help ensure that we remain adaptable This book weaves together the thinking of philosophers from across the ages who make the unsettling assertion that with the passage of time we are apt to shrink mentally emotionally and cognitively If we follow what has become an all too common course we denature our original nature which brims with curiosity empathy reason wonder and a will to experiment and understand and we regress our sense of who we are will become fuzzier and everyone in our orbit will pay a price Mounting evidence shows that we begin our lives with a moral intellectual and creative bang and in this groundbreaking heavily researched and highly engaging volume Christopher Phillips makes the provocative case that childhood isn't merely a state of becoming while adulthood is one of being as if we've arrived and reached the summit His life changing proposition is that if we embrace the defining qualities of youth we're not destined to become frail dispirited or unhinged we'll grow in a way defined by wonder curiosity imaginativeness playfulness and compassion in essence unlimited potential

**A Measure of Intelligence** Pepper Stetler, 2024-08-20 In a

quest to advocate for her daughter Pepper Stetler uncovers the dark history of the IQ test leading her to question what exactly we are measuring when we measure intelligence When Pepper Stetler learned that her daughter Louisa who has Down Syndrome would be required to take periodic IQ tests to secure support in school she asked a simple question Why The hunt for an answer set Stetler on a winding often dark investigation into how the IQ came to be the irrefutable standard for measuring intelligence Blending a mother s love and dedication to her daughter with incisive historical and cultural analysis *A Measure of Intelligence* investigates the origins of the IQ test and its influence on our oppressive culture of high stakes testing As she unravels the history of the IQ exposing its roots in eugenics racism xenophobia and ableism Stetler realizes that the desire to quantify intelligence is closely tied to the desire to segregate society *A Measure of Intelligence* is at once a mother s determined quest a demand for a fundamental reevaluation of how we understand an individual s perceived potential and a recognition of what we miss when we judge one another by this warped scale      **My Journey with Jake**

Miriam Edelson, 2000-04-01 Jake is celebrating his tenth birthday That s a remarkable feat because at birth he was given only three years to live Miriam Edelson is his mother a dedicated fighter for Jake and families in similar situations Edelson poses some tough questions How do parents cope with a child who has special needs Are we failing as a society to care for children with disabilities Whatever happened to the federal government s promise of a Children s Agenda *My Journey with Jake* works on two levels It s a poignant memoir by a devoted mother and a hard hitting well researched look at health care for Canada s children      *Everybody Belongs* Arthur Shapiro, 2003-09 The evil prosthesis of Captain Hook the comical speech of Porky Pig and the bumbling antics of Mr Magoo are all examples of images in our culture which can become the basis of negative attitudes and subliminal prejudice towards persons with disabilities These attitudes influence and underlie discriminatory acts resulting in negative treatment and segregation A teacher s ability to recognize and counter such images may well determine the success of inclusion and mainstreaming programs in our schools and society Well researched and well written this book offers practical guidance as grounded in solid research to schools that are wrestling with how to mainstream children with disabilities      **We are Many, We are One** Colleen McDonald, 1996
