The 9 Insights Jeff Miller, 2006-06 A Woman's Relationship Survival Guide was written to assist women in learning how to better understand their behaviors and swirling emotions when under the influence of a relationship The guide examines issues surrounding personal responsibility for choices we make and trails we take Each chapter exposes several paths of opportunity and supports the strengthening and building of the inner self Though life can become busy and relationships can be turbulent we must stop at times to rethink just who we are where we're headed and what's really right for us as individuals Besides it's unfair to claim that our partner doesn't know or understand us if we don't really know or understand ourselves The guide is not written to encourage role reversals We should not mimic behaviors that we dislike the most in our partner while claiming to be a better person The guide is not written to cheerlead the leaving of your partner at the rise of the slightest problem Instead the guide promotes healthy self respect self reliance and a reciprocal partnership Happiness contentment stimulation and security are signs of relationship stability Daydreams of pepper spraying your partner to the point of satisfaction or frequent desires to slap the crap out of him are signs that you need to read deeper into this book if he's worth it

Persian Words of Wisdom Bahman

Solati,2015-10-05 What is the secret of happiness What is the nature of love What makes us good hosts or good guests What traits should we seek out in friends and seek to embody as friends ourselves How should we approach the sensual beauties of this world when do they induce us to error and when are they signs of God The poets and bards of many traditions have long sought answers to such questions but perhaps no culture has taken up this challenge with more passionate urgency than that of Persia from the ninth century AD to modern day Iran These eleven centuries of poetic tradition include poets who have become well known in the West such as Umar Khayyam Rumi and Hafiz as well as many others whom Westerners have yet to discover In Iran these poems remain part of everyday popular culture with people of all classes and levels of education able to recite them from memory even if they may not always be sure who the poets were where they came from or what precisely was the spiritual intent behind the verse In Persian Words of Wisdom the US based Iranian scholar Bahman Solati has compiled hundreds of examples reflecting his country's religious and spiritual traditions especially the Shia branch of Islam and Islamic Sufism but also the Zoroastrian faith This bilingual edition with his own English translations further illuminates the sometimes enigmatic poems with parallel Western proverbs as well as comparison quotations from Christian Jewish and Buddhist scripture and secular sources ranging from Mark Twain to Dale Carnegie One of Solati's goals in this anthology is to build a cultural bridge through poetry between the West and Iran making these treasures of Persian culture more available both to Westerners generally and most specifically to young people of Iranian descent who have grown up in the English speaking world perhaps without fully understanding the wealth of their heritage For them and all readers this will be a book of discovery
