Our Living Constitution Then And Now:

Our Living Constitution Jerry Aten,2002 Designed to teach the Constitution of the United States to students in an easier and more meaningful language than it is written **Jurisprudence in the Mirror** Luka Burazin,2024-08-30 There is something quite puzzling about the global conversation on jurisprudence On the one hand jurisprudence is supposed to deal with abstract questions concerning the nature structure and distinctive features of the law These questions are not tightly associated with or dependent on the particular legal practices in one jurisdiction or another But on the other hand it seems that jurisprudents are tacitly affected by their background institutional context there is an evident divide between theorizing about the law in the civil law world and in the common law world *Jurisprudence in the Mirror* The Common Law World Meets the Civil Law World systematically presents the major achievements of contemporary civil law jurisprudence to the common law world and bridges the gap in analytic jurisprudence as it is currently practiced in the two traditions The volume seeks to bring different voices to the table and overcome the cultural and linguistic divides that have created barriers in philosophical exchanges The book s structure is dialogical it includes twelve essays written by prominent and influential jurisprudents from the civil law world each followed by a response by a jurisprudent from the common law world This approach highlights what the two worlds share where they part ways and why The varied contributions reveal how their respective legal traditions shape fundamental legal concepts and jurisprudential debates and will be invaluable to readers from both the civil and common law worlds Distinctive Curriculum Materials in K-6 Social Studies Jere E.
