Pilgrims And Sultans:

Pilgrims and Sultans Suraiya Faruqi, 1994-03-15 *Pilgrims and Sultans* makes a unique contribution to the social and political history of the Middle East. *Pilgrims & Sultans* Suraiya Faruqi, The pilgrimage to Mecca the hajj is a major aspect of the Islamic religion yet little has been written about its history or of the conditions under which thousands of pilgrims from far flung regions of the Islamic world traveled to the heart of the Arabian peninsula. This pioneering book concentrates on the pilgrimage in the sixteenth and seventeenth centuries when Mecca was ruled by the Ottoman sultans. At a time when for the majority of the faithful the journey was long arduous and fraught with danger the provision of food water shelter and protection for pilgrims presented a major challenge to the provincial governors of the vast Ottoman Empire. Drawing on rich documentation left by Ottoman administrators and on the accounts of contemporary pilgrims Suraiya Faruqi here sheds new light on the trials and experiences of everyday life for those undertaking the hajj. back cover

Vagabond Princess Ruby Lal, 2024-02-27 A captivating biography of one of the world's greatest adventurers the itinerant Mughal Princess Gulbadan based on her long forgotten memoir. Finally a serious consideration of Gulbadan's achievement. Kirkus Reviews. Situated in the early decades of the magnificent Mughal Empire this first ever biography of Princess Gulbadan offers an enthralling portrait of a charismatic adventurer and unique pictures of the multicultural society in which she lived. Following a migratory childhood that spanned Kabul and north India Gulbadan spent her middle years in a walled harem established by her nephew Akbar to showcase his authority as the Great Emperor. Gulbadan longed for the exuberant itinerant lifestyle she'd known. With Akbar's blessing she led an unprecedented sailing and overland voyage and guided harem women on an extended pilgrimage in Arabia. Amid increasing political tensions the women's un-Islamic behavior forced their return. Lengthened by a dramatic shipwreck in the Red Sea Gulbadan wrote a book upon her return the only extant work of prose by a woman of the age. A portion of it is missing either lost to history or redacted by officials who did not want the princess to have her say. *Vagabond Princess* contemplates the story of the missing pages and breathes new life into a daring historical figure. It offers a portal to a richly complex world rife with movement and migration where women's conviviality adventure and autonomies shine through. *Intellectual Life in the Hijāz before Wahhabism* Naser Dumairieh, 2021-12-13 In *Intellectual Life in the Hijāz before Wahhabism* Naser Dumairieh argues that as a result of changing global conditions facilitating the movement of scholars and texts the seventeenth century Hijāz was one of the most important intellectual centers of the Islamic world acting as a hub between its different parts. Positioning Ibrahim al-Kuraybi (1101-1690) as representative of the intellectual activities of the pre-Wahhabism Hijāz Dumairieh argues that his coherent philosophical system represents a synthesis of several major post-classical traditions of Islamic thought namely kalām and Akbarian appropriations of Avicennian metaphysics. Al-Kuraybi's work is the culmination of the philosophized Akbarian tradition with his reconciliation of Ibn Arabi's ideas with Ash'ari theology. Ibn Arabi's ideas became Islamic theology. **Modernity and**

archaeologists engendering exciting new perspectives on urban life in the pre modern Islamic world Its objective is to move beyond the long standing debate on whether an Islamic city existed in the pre modern era and focus instead upon the ways in which religion may or may not have influenced the physical structure of cities and the daily lives of their inhabitants It approaches this topic from three different but inter related perspectives the genesis of Islamic cities in fact and fiction the impact of Muslim rulers upon urban planning and development and the degree to which a religious ethos affected the provision of public services Chronologically and geographically wide ranging the volume examines thought provoking case studies from seventh century Syria to seventeenth century Mughal India by established and new scholars in the field in addition to chapters on urban sites in Spain Morocco Egypt and Central Asia Cities in the Pre Modern Islamic World will be of considerable interest to academics and students working on the archaeology history and urbanism of the Middle East as well as those with more general interests in urban archaeology and urbanism *Russian Hajj* Eileen Kane,2015-11-02 No detailed description available for Russian Hajj

Travel and Artisans in the Ottoman Empire Suraiya Faruqi,2014-01-30 It has often been assumed that the subjects of the Ottoman sultans were unable to travel beyond their localities since peasants needed the permission of their local administrators before they could leave their villages According to this view only soldiers and members of the governing elite would have been free to travel However Suraiya Faruqi s extensive archival research shows that this was not the case pious men from all walks of life went on pilgrimage to Mecca slaves fled from their masters and craftspeople travelled in search of work Most travellers in the Ottoman era headed for Istanbul in search of better prospects and even in peacetime the Ottoman administration recruited artisans to repair fortresses and sent them far away from their home towns In this book Suraiya Faruqi provides a revisionist study of those artisans who chose or were obliged to travel and those who stayed predominantly in their home localities She considers the occasions and conditions which triggered travel among the artisans and the knowledge that they had of the capital as a spatial entity She shows that even those craftsmen who did not travel extensively had some level of mobility and that the Ottoman sultans and viziers who spent so much effort in attempting to control the movements of their subjects could often only do so within very narrow limits Challenging existing historiography and providing an important new revisionist perspective this book will be essential reading for students and scholars of Ottoman history **The Ottoman Age of**

Exploration Giancarlo Casale,2010-02-25 In 1517 the Ottoman Sultan Selim the Grim conquered Egypt and brought his empire for the first time in history into direct contact with the trading world of the Indian Ocean During the decades that followed the Ottomans became progressively more engaged in the affairs of this vast and previously unfamiliar region eventually to the point of launching a systematic ideological military and commercial challenge to the Portuguese Empire their main rival for control of the lucrative trade routes of maritime Asia The Ottoman Age of Exploration is the first comprehensive historical account of this century long struggle for global dominance a struggle that raged from the shores of

the Mediterranean to the Straits of Malacca and from the interior of Africa to the steppes of Central Asia Based on extensive research in the archives of Turkey and Portugal as well as materials written on three continents and in a half dozen languages it presents an unprecedented picture of the global reach of the Ottoman state during the sixteenth century It does so through a dramatic recounting of the lives of sultans and viziers spies corsairs soldiers of fortune and women from the imperial harem Challenging traditional narratives of Western dominance it argues that the Ottomans were not only active participants in the Age of Exploration but ultimately bested the Portuguese in the game of global politics by using sea power dynastic prestige and commercial savoir faire to create their own imperial dominion throughout the Indian Ocean

Legitimizing the Order Hakan T. Karateke, Maurus Reinkowski, 2005-07-01 A dynasty that ruled for more than six centuries certainly developed many strategies to confront legitimacy crises and undertook various endeavors to legitimize their rule After the introduction that establishes a theoretical framework for examining the Ottoman state's legitimacy the present volume deploys into three sections The Well Founded Order deals with the question of how the Ottomans imagined the order of their polity and how they tried to live up to this self representation Religiosity and Orthodoxy turns to the question of religiosity and orthodoxy as defined by Ottoman political theory and how these concepts related to the issue of legitimacy The last section discusses how the Ottoman notions of legitimacy were exposed to criticism discussion or simply to transformations in situations of crisis especially in the 18th and 19th centuries

The Politics of Iconoclasm James Noyes, 2013-09-10 From false idols and graven images to the tombs of kings and the shrines of capitalism the targeted destruction of cities sacred sites and artefacts for religious political or nationalistic reasons is central to our cultural legacy This book examines the different traditions of image breaking in Christianity and Islam as well as their development into nominally secular movements and paints a vivid scholarly picture of a culture of destruction encompassing Protestantism Wahhabism and Nationalism Beginning with a comparative account of Calvinist Geneva and Wahhabi Mecca The Politics of Iconoclasm explores the religious and political agendas behind acts of image breaking and their relation to nationhood and state building From sixteenth century Geneva to urban developments in Mecca today The Politics of Iconoclasm explores the history of image breaking the culture of violence and its paradoxical roots in the desire for renewal Examining these dynamics of nationhood technology destruction and memory a historical journey is described in which the temple is razed and replaced by the machine

The Ottoman and Mughal Empires Suraiya Faruqi, 2019-08-08 For many years Ottomanist historians have been accustomed to study the Ottoman Empire and or its constituent regions as entities insulated from the outside world except when it came to campaigns and conquests on the one hand and incorporation into the European dominated world economy on the other However now many scholars have come to accept that the Ottoman Empire was one of the not very numerous long lived world empires that have emerged in history This comparative social history compares the Ottoman to another of the great world empires that of the Mughals in the Indian subcontinent exploring source

Catholics and Sultans Charles A. Frazee, 2006-06-22 This book surveys the relations between Catholics outside and inside the Ottoman Empire from 1453 to 1923 After the fall of Constantinople the only large Latin Catholic group to be incorporated into the sultan's domain were the Genoese who lived in Galata across the Golden Horn from the Byzantine capital Over the next few decades Turkish armies pushed into the Balkans overrunning the Catholic population of Albania Bosnia and Hungary In the Orient the sixteenth century saw the Maronites of Lebanon the Latins of Palestine and most of the Greek islands which once held Latin Catholic communities come under Turkish rule Papal response to the loss of these communities was initially a call to the crusade but response from West European monarchs was disappointing Their concerns were closer to home French interest however lay in an alliance with the Turks against the Habsburgs As a bonus the Catholics of the Ottoman world received a protector at the Porte in the person of the French ambassador The book traces the subsequent history of the Latin Catholics and each of the Eastern Catholic churches in the Ottoman Empire until its dissolution in 1923

Transnational Networks and Cross-Religious Exchange in the Seventeenth-Century Mediterranean and Atlantic Worlds Brandon Marriott, 2016-03-09 In 1644 the news that Antonio de Montezinos claimed to have discovered the Lost Tribes of Israel in the jungles of South America spread across Europe fuelling an already febrile atmosphere of messianic and millenarian expectation By tracing the process in which one set of apocalyptic ideas was transmitted across the Christian and Islamic worlds this book provides fresh insight into the origin and transmission of eschatological constructs and the resulting beliefs that blurred traditional religious boundaries and identities Beginning with an investigation of the impact of Montezinos's narrative the next chapter follows the story to England examining how the Quaker messiah James Nayler was viewed in Europe The third chapter presents the history of the widely reported but wholly fictitious story of the sack of Mecca a rumour that was spread alongside news of Sabbatai Sevi The final chapter looks at Christian responses to the Sabbatian movement providing a detailed discussion of the cross religious and international representations of the messiah The conclusion brings these case studies together arguing that the evolving beliefs in the messiah and the Lost Tribes between 1648 and 1666 can only be

properly understood by taking into account the multitude of narrative threads that moved between networks of Jews Conversos Catholics and Protestants from one side of the Atlantic to the far side of the Mediterranean and back again By situating this transmission in a broader historical context the book reveals the importance of early modern crises diasporas and newsgathering networks in generating the eschatological constructs disseminating them on an international scale and transforming them through this process of intercultural dissemination into complex new hybrid religious conceptions expectations and identities

Migrations in Medieval and Early Colonial India Vijaya Ramaswamy, 2017-07-05 This book looks at movements of communities which formed the lower and middle rungs of society in medieval and early colonial India It presents migration mobility and memories from a specifically Indian perspective breaking away from previous Eurocentric studies The essays in the volume focus on labour peasant and craft migrations and in fleshing out the causes and trajectories taken by these communities they speak to each other by addressing similar issues as well as documenting varying responses to analogous situations A fascinating history of migrations of people from below the volume adopts a trans disciplinary approach and uses inscriptions official records and literary texts along with community narratives and folk tradition This will be of great interest to scholars and students of migration and diaspora studies medieval and modern South Asian history social anthropology and subaltern studies
