The Political Economy of Uneven Rural Development Sudarshana Bordoloi, 2020-07-10 The book shows how class relations develop and is a consequence of capitalist development of the rural non agricultural non farm sector RNFS seen as the dialectical relation between the forces and relations of production as mediated by the state which produces uneven social and spatial outcomes Central to the framework for this book are four inter related conceptual building blocks or themes social relations of production productive forces role of the state and concrete development outcomes of capitalist production in RNFS in the context of class and non class relations of oppressions These four conceptual themes follow a logical sequence where each concept evolve in specific contexts within the RNFS while connected to each other in a dialectical manner and come together to form the central argument of the book

The Political Economy of Southeast Asia Toby Carroll, Shahar Hameiri, Lee Jones, 2020-03-03 This is not only the best collection of essays on the political economy of Southeast Asia but also as a singular achievement of the Murdoch School one of the rarest of books that demonstrates how knowledge production travels across generations institutions and time periods thereby continually enriching itself No course on Southeast Asia can afford to miss it as its core text

Professor Amitav Acharya American University USA This book the fourth in a path breaking series demonstrates why a critical political economy approach is more crucial than ever for understanding Southeast Asia s transformation Across a wide range of topics the book explains how capitalist development and globalisation are reshaping the societies economies and politics of a diverse group of countries casting light on the deep sources of economic and social power in the region This is a book that every student of Southeast Asia needs to read

Professor Edward Aspinall Australian National University Australia This book does what a work on political economy should do challenge existing paradigms in order to gain a deeper understanding of the processes of social transformation This volume is distinctive in three ways First it eschews methodological nationalism and focuses on how the interaction of national regional and global forces are shaping and reshaping systems of governance mass politics economies labor capital relations migration and gender relations across the region Second it is a bold effort to show how the

Murdoch School which focuses on the dynamic synergy of internal class relations and global capitalism provides a better explanatory framework for understanding social change in Southeast Asia than the rival developmental state and historical institutionalist approaches Third alongside established luminaries in the field it showcases the younger generation of political economists doing pathbreaking work on different dimensions of the political economy of the region Walden Bello State University of New York at Binghamton USA and Former Member of the Philippines House of Representatives This very timely fourth edition explores Southeast Asia's political economy within the context of hyperglobalisation and China's pronounced social structural impacts on international politics finance and economics over the past decade and a half The volume successfully adopts a cross cutting thematic approach while also conveying the diversity and divergences among the Southeast Asian states and economies This will be an important resource for scholars of International Relations and Comparative Politics who need to take an interest in a dynamic and increasingly significant part of Asia Professor Evelyn Goh Australian National University Australia This ambitious collection takes a consistent theoretical approach and applies it to a thematic comparative analysis across Southeast Asia The yield is impressive the social political and economic forces constituting the current conjuncture are not simply invoked they are thoroughly identified and explained By posing the deceptively simple questions of what is happening and why the authors demonstrate the reciprocal relation between theory building and empirical inquiry providing a model of engaged scholarship with global resonance Bravo Professor Tania Li University of Toronto Canada Counteracting the spaceless and flattened geography of much literature on uneven development this book delivers a forensic examination of the unevenness of geographical development in Southeast Asia and the relations of force shaping capital state nature and civil society This is the most compelling theoretical and empirical political economy book available on Southeast Asia Professor Adam David Morton University of Sydney Australia A vital book for all scholars students and practitioners concerned with political economy and development this volume combines cutting edge theory with rich and wide ranging empirical analysis It is terrific to see the continued success of this book with this fully revised fourth edition Professor Nicola Philips Kings College London UK The Political Economy of Southeast Asia has become a leading reference for students of the region With its breadth of geographic scope timely themes clarity of prose and rigour of analysis Carroll Hameiri and Jones have ensured that with this fourth edition the volume will continue its landmark status The book which brings together prominent experts in the field will not only be of immense interest to scholars studying Southeast Asia but also those seeking to understand the multifaceted nature of the political economy of uneven development in contemporary capitalism Professor Susanne Soederberg Queen's University Canada The Asia Research Centre at Murdoch University has long produced leading analyses of the social economic and political developments in Southeast Asia This volume carries on that wonderful tradition It brings together top class scholars to challenge our assumptions about one of the most dynamic parts of the world This collection is a crucial read for anyone interested in understanding trends in Southeast

Asia's development today and into the future Professor Richard Stubbs McMaster University Canada This fourth volume in a distinguished series provides a welcome and timely update of the Murdoch School's distinctive approach to understanding the evolving political economy of Southeast Asia Its theoretical depth and wide empirical scope will be of great value to scholars students and practitioners seeking a systematic understanding of the political economy dynamics in the Asian region and more broadly of states and regions embedded in a complex unstable global political economy Professor Andrew Walter University of Melbourne This all new fourth edition of *The Political Economy of Southeast Asia* constitutes a state of the art comprehensive analysis of the political economic social and ecological development of one of the world's most dynamic regions With contributions from world leading experts the volume is unified by a single theoretical approach the Murdoch School of political economy which foregrounds struggles over power and resources and the evolving global context of hyperglobalisation Themes considered include gender populism the transformation of the state regional governance aid and the environment The volume will be of interest to scholars and students across multiple disciplines including political economy development studies international relations and area studies The findings of contributors will also be of value to civil society policymakers and anyone interested in Southeast Asia and its development *The World Economy Since the*

War E. A. Brett, 1985 ***Inequality and Uneven Development in the Post-Crisis World*** Sebastiano Fadda, Pasquale Tridico, 2017-07-14 In the years following the financial crash two issues have become central to the debate in economics inequality and the uneven nature of sustainable development These two issues are at the core of this book which aims to explain three key questions why inequality has increased so much in the last three decades why most advanced economies are stagnating or are experiencing moderate economic growth and why even where economic growth is occurring the quality of that growth is questioned *Inequality and Uneven Development in the Post Crisis World* is divided into three parts The first part concerns the theoretical aspects of inequality and ethical issues regarding economics and equality The second part explores empirical evidence and policy suggestions drawing on the uneven levels of development and unprecedented levels of inequality experienced among advanced economies in the context of global financial capitalism The third part focuses on sustainable development issues such as full employment social costs of global trade liberalization environmental sustainability and ecological issues Along with inequality these issues are central for capitalism and for economic development This volume is of interest to those who study political economy sustainable development and social inequality

Growth, Distribution and Uneven Development Amitava Krishna Dutt, 1990-07-27 This book presents an international study of economic growth and income distribution with a focus on North South differences The text discusses the topic from a purely theoretical perspective comparing the relations between economies by using formal mathematical models Four well known approaches are discussed neoclassical neo Marxian neo Keynesian and Kalecki Steindl Models are developed to highlight and contrast the basic features of these approaches Subsequent chapters systematically introduce inflation

technological change sectoral issues and international trade building upon these simple one sector models This book will be of value to anyone with an interest in areas such as developmental economics growth trade and political economy

Theories Of Comparative Political Economy Ronald H Chilcote,2018-02-05 Professor Chilcote has written an extraordinary comprehensive comparison of mainstream liberal views and alternative radical views of history development class government and democracy This book will be extremely valuable to both students and scholars Howard Sherman University of California Riverside Theories of Comparative Political Economy builds on the proposition that the study of politics and economics has evolved into political economy in a number of significant ways and that the new issues and ideas that became prominent in the 1980s and 1990s will carry on into the new millennium This book is a sequel to Chilcote's Theories of Comparative Politics Westview 1981 which was substantially revised and published in a second edition in 1994

Revolution and State in Modern Mexico Adam David Morton,2013 Now in an updated edition this groundbreaking study develops a new approach to understanding the formation of the postrevolutionary state in Mexico Adam David Morton links the rise and demise of the modern Mexican state to ongoing forms of class struggle that have shaped and restructured state and civil society He thus sheds valuable interdisciplinary light on debates on state formation by recovering radical tools of analysis such as uneven development and class struggle for the wider study of past and present politics in Mexico and more broadly Latin America A substantive new epilogue engages the main theoretical debates that have emerged since the book was first published while also exploring the dominant geographies of power and resistance that are shaping state space in Mexico in the twenty first century The Political Economy of International Relations Robert G. Gilpin,2016-03-30 After the end of World War II the United States by far the dominant economic and military power at that time joined with the surviving capitalist democracies to create an unprecedented institutional framework By the 1980s many contended that these institutions the General Agreement on Tariffs and Trade now the World Trade Organization the World Bank and the International Monetary Fund were threatened by growing economic nationalism in the United States as demonstrated by increased trade protection and growing budget deficits In this book Robert Gilpin argues that American power had been essential for establishing these institutions and waning American support threatened the basis of postwar cooperation and the great prosperity of the period For Gilpin a great power such as the United States is essential to fostering international cooperation Exploring the relationship between politics and economics first highlighted by Adam Smith Karl Marx and other thinkers of the eighteenth and nineteenth centuries Gilpin demonstrated the close ties between politics and economics in international relations outlining the key role played by the creative use of power in the support of an institutional framework that created a world economy Gilpin's exposition of the influence of politics on the international economy was a model of clarity making the book the centerpiece of many courses in international political economy At the beginning of the twenty first century when American support for international cooperation is once again in question Gilpin's warnings about the risks
