Public Opinion in European Socialist Systems Walter D. Connor, Zvi Y. Gitelman, 1977 **Public Opinion in European Socialist Systems** Walter D. Connor, Zvi Y. Gitelman, 1977 **Beyond Eurocentrism** Peter Gran, 2021-02-01 Eurocentrism influences virtually all established historical writing With the rise of Prussia and by extension Europe eurocentrism became the dominant paradigm for world history Employing the approaches of Gramsci and Foucault Peter Gran proposes a reconceptualization of world history He challenges the traditional convention of relying on totalitarian or democratic functions of a particular state to explain and understand relationships of authority and resistance in a number of national contexts Gran maintains that there is no single developmental model but diverse forms of hegemony that emerged out of the political crisis following the penetration of capitalism into each nation In making comparisons between seemingly disparate and distinctive nations and by questioning established canons of comparative inquiry Gran encourages people to recognize the similarities between the West and non West nations **Public Opinion in Postcommunist Russia** Matthew Wyman, 1996-12-03 This book is a comprehensive account of trends in Russian public opinion over the period 1988-94 Analysing data from Russian polling organizations it covers the development of a professional polling industry and looks at changing popular moods the depth of democratic values attitudes towards political institutions the attempt to introduce a free market economy and views about the loss of empire Concluding sections consider attitudinal differences between social groups and the impact of public opinion on postcommunist politics **Survey Research and Public Attitudes in Eastern Europe and the Soviet Union** William A. Welsh, 2013-10-22 Survey Research and Public Attitudes in Eastern Europe and the Soviet Union is a collection of research studies the survey s the opinions of demographics from Eastern Europe on socialist systems The title analyzes the development of survey research in the socialist systems of Eastern Europe to provide an overview of the nature of socialist countries The territories covered in the selection are Soviet Union Yugoslavia Bulgaria Czechoslovakia Germany Democratic Republic Hungary Poland and Romania The book will be of great interest to sociologists political scientists economists and behavioral scientists **The Polish Road from Socialism: The Economics, Sociology and Politics of Transition** Walter D. Connor, Piotr Ploszajski, 2019-07-26 What the contributors to this volume offer is neither a romantic version of the course of Polish history nor a jubilant account of the recovery of national independence and political choice Rather they offer a variety of tough minded analytic perspectives on what comes when the party s over not just the PSPR but the celebration marking its downfall They focus on Poland s movement toward an internationally competitive market economy a political democracy in which plural interests compete and the constitution of a civil society that both tolerates and ameliorates conflict The multidisciplinary contributors include Jan Muzel Keith Crane Benjamin Slay Kazimierz Poznanski Jan Bossak Wojciech Bienkowski Wlodzimierz Wesolowski Edmund Wnuk Lipinski Adam Sarapata Andrzej Sicinski Piotr Lukasiewicz Krzysztof Nowak David S Mason Andrzej Rychard Krzysztof Jasiewicz Jack Bielasiak Janusz

Reykowski Stanislaw Gebethner Miroslawa Marody Edmund Mokrzycki and Michael D Kennedy *Public Opinion* William A. Blade, 2002 Twenty four news networks a plethora of newspapers and magazines vibrant news talk radio and the ubiquitous Internet highlight our society as information driven With such a steady stream of hard facts mixed with publicised opinions the mainstream population has an opinion on everything Most anyone seems itching to argue their side of an issue making once private beliefs fodder for general consumption A staple of any medium s content is a regular public opinion poll on whatever hot topic strikes the editor s fancy From the significant to the mundane public opinion permeates society Accordingly politicians have taken note of these opinions and adopted stands and values that put them in tune with public sentiment An understanding of the nature of public opinion therefore is paramount in today s world This book assembles and presents a carefully chosen bibliography on public opinion in its many forms The collection of references makes for a valuable resource in studying and researching the critical issue of public opinion Easy access to these pieces of literature are then provided with author title and subject indexes *Elite-Mass Relations in Communist Systems* Daniel N. Nelson, 1988-06-18 [Public Opinion and Internationalized Governance](#) Oskar Niedermayer, Richard Sinnott, 1998 New agencies of international government are among the most innovative and experimental aspects of late 20th century politics This study examines the European Union its structure powers operations and legitimacy and its relationship to the United Nations and NATO **Politics, Paradigms, and Intelligence Failures** Ofira Seliktar, 2015-05-20 Washington s failure to foresee the collapse of its superpower rival ranks high in the pantheon of predictive failures The question of who got what right or wrong has been intertwined with the deeper issue of who won the Cold War Like the disputes over who lost China and Iran this debate has been fought out along ideological and partisan lines with conservatives claiming credit for the Evil Empire s demise and liberals arguing that the causes were internal to the Soviet Union The intelligence community has come in for harsh criticism for overestimating Soviet strength and overlooking the symptoms of crisis the discipline of Sovietology has dissolved into acrimonious irrelevance Drawing on declassified documents interviews and careful analysis of contemporaneous literature this book offers the first systematic analysis of this predictive failure at the paradigmatic foreign policy and intelligence levels Although it is focused on the Soviet case it offers lessons that are both timely and necessary
