Public Policies And Household Saving:

Public Policies and Household Saving James M. Poterba, 2007-12-01 The declining U S national saving rate has prompted economists and policymakers to ask should the federal government encourage household saving and if so through which policies In order to better understand saving programs this volume provides a systematic and detailed description of saving policies in the G 7 industrialized nations the United States Canada France Germany Italy Japan and the United Kingdom Each of the seven chapters focuses on one country and addresses a core set of topics types of accumulated household savings and debt tax policies toward capital income saving in the form of public and private pensions including Social Security and similar programs saving programs that receive special tax treatment and saving through insurance This detailed summary of the saving incentives of the G 7 nations will be an invaluable reference for policymakers and academics interested in personal saving behavior

Handbook of Public Economics Martin Feldstein, A.J. Auerbach, 2002-01-25 The Field of Public Economics has been changing rapidly in recent years and the sixteen chapters contained in this Handbook survey many of the new developments As a field Public Economics is defined by its objectives rather than its techniques and much of what is new is the application of modern methods of economic theory and econometrics to problems that have been addressed by economists for over two hundred years More generally the discussion of public finance issues also involves elements of political science finance and philosophy These connections are evidence in several of the chapters that follow Public Economics is the positive and normative study of government s effect on the economy We attempt to explain why government behaves as it does how its behavior influences

the behavior of private firms and households and what the welfare effects of such changes in behavior are Following Musgrave 1959 one may imagine three purposes for government intervention in the economy allocation when market failure causes the private outcome to be Pareto inefficient distribution when the private market outcome leaves some individuals with unacceptably low shares in the fruits of the economy and stabilization when the private market outcome leaves some of the economy's resources underutilized The recent trend in economic research has tended to emphasize the character of stabilization problems as problems of allocation in the labor market The effects that government intervention can have on the allocation and distribution of an economy's resources are described in terms of efficiency and incidence effects These are the primary measures used to evaluate the welfare effects of government policy

International Comparisons of Household Saving James M. Public Policies and Saving in Developing Countries Vittorio Corbo, Klaus Schmidt-Hebbel, 1991 Developing countries can increase their national saving rate best by increasing government saving The most effective way to increase national saving is through permanent tax hike a cut in current public spending and a macroeconomic framework in which inflation is low and incentives are predictable

Hadjimichael, 1995-02-01 This paper assesses empirically the role of public policies in stimulating private savings and investment in sub Saharan African countries based on data for the period 1986-92 The main findings of the analysis are as follows i policies effective in stimulating private savings and investment include those that keep the rate of inflation low reduce macroeconomic uncertainty promote financial deepening and lower the external debt burden ii measures that promote structural reforms and reduce the budget deficit without lowering government investment help to raise private investment and iii declines in government savings are only partially offset by increases in private savings
