Public Testimony Poems:

Contemporary American Poetry Lloyd M. Davis, 1985 Lists over 5 200 titles of books published by American poets between 1973 and 1983

The Testimonies of Russian and American Postmodern Poetry Albena Lutzkanova-Vassileva, 2016-06-30 This book challenges the belief in the purely linguistic nature of contemporary poetry and offers an interpretation of late twentieth century Russian poetry as a testimony to the unforeseen annulment of communist reality and its overnight displacement by a completely unfathomable post totalitarian order Albena Lutzkanova Vassileva argues that because of the sudden invalidation of a reality that had been largely seen as unattained and everlasting this shift remained secluded from the mind and totally resistant to cognition thus causing a collectively traumatic psychological experience The book proceeds by inquiring into a school of contemporary American poetry that has been likewise read as cut off from reality Executing a comparative analysis Vassileva advances a new understanding of this poetry as a testimony to the overwhelming and traumatic impact of contemporary media which have assailed the mind with far more signals than it can register digest and furnish with semantic weight

The Palgrave Handbook of Testimony and Culture Sara Jones, Roger Woods, 2023-04-19 This Palgrave Handbook examines the ways in which researchers and practitioners theorise analyse produce and make use of testimony It explores the full range of testimony in the public sphere including perpetrator testimony testimony presented through social media and virtual reality A growing body of research shows how complex and multi layered testimony can be how much this complexity adds to our understanding of our past and how creators and users of testimony have their own complex purposes These advances indicate that many of our existing assumptions about testimony and models for working with it need to be revisited The purpose of this Palgrave Handbook is to do just that by bringing together a wide range of disciplinary theoretical methodological and practice based perspectives

Poetry as Testimony Antony Rowland, 2014-03-26 This book analyzes Holocaust poetry war poetry working class poetry and 9 11 poetry as forms of testimony Rowland argues that testamentary poetry requires a different approach to traditional ways of dealing with poems due to the pressure of the metatext the original traumatic events the poems demands for the hyper attentiveness of the reader and a paradox of identification that often draws the reader towards identifying with the poet s experience but then reminds them of its sublimity He engages with the work of a diverse range of twentieth century authors and across the literature of several countries even uncovering new archival material The study ends with an analysis of the poetry of 9 11 engaging with the idea that it typifies a new era of testimony where global secondary witnesses react to a proliferation of media images This book ranges across the literature of several countries cultures and historical events in order to stress the large variety of contexts in which poetry has functioned productively as a form of testimony and to note the importance of the availability of translations to the formation of literary canons
