Public Theology and Political Economy Max L. Stackhouse, 1987 This well known Christian ethicist ably bridges the gap between theology and political economy proposing a theologically informed view of modern economic life He traces the emergence of modern Protestant and Catholic views of the economic order from anti slavery movements to contemporary Ecumenical themes He delineates the failures of socialist liberationist and laissez faire systems and retrieves the neglected contributions of such figures as Shailer Mathews and Walter Rauschenbusch while showing the continued relevance of Max Weber s view of economy and society for Christian ethics He concludes that Christian stewardship must cultivate and articulate a new public theology that will shape the structures and policies of public life Originally published in 1987 by Wm B Eerdmans Publishing Co
