Hollywood's Cold War Tony Shaw, 2007 Published at a time when American filmmakers are deeply involved in the War on Terror this authoritative and timely book offers the first comprehensive account of Hollywood's propaganda role during the defining ideological conflict of the 20th century the Cold War

Pulp Virilities and Post-War American Culture Arthur Redding, 2022-09-10 This book interrogates the repertoire of masculine performance in popular crime fiction and cinema from the 1940s 50s and 60s This critical survey of the back alleys of pulp culture reveals American masculinities to be unsettled contentious crisis ridden racially fraught and sexually anxious Libertarian in their sensibilities self aggrandizing in their sentiments resistant to the lures of upper mobility scornful of white collar and corporate culture the protagonists of these popular and populist works viewed themselves as working class heroes cast adrift Pulp Virilities explores the enduring traditions of hard boiled and noir literature casting a critical eye on its depictions of urban life and representations of gender crime labor and race Demonstrating how anxieties and possibilities of American masculinity are hammered out in works of popular culture Pulp Virilities provides a rich cultural genealogy of contemporary American social life

Turncoats, Traitors, and Fellow Travelers Arthur F. Redding, 2008 The Cold War was unique in the way films books television shows colleges and universities and practices of everyday life were enlisted to create American political consensus This coercion fostered a seemingly hegemonic nationally unified perspective devoted to spreading a capitalist socially conservative notion of freedom throughout the world to fight Communism This book traces the historical contours of this manufactured consent by considering the ways in which authors playwrights and directors participated in responded to and resisted the construction of Cold War discourses

Cold War Literature Andrew Hammond, 2006-11-22 The Cold War was the longest conflict in a century defined by the scale and brutality of its conflicts In the battle between the democratic West and the communist East there was barely a year in which the West was not organising fighting or financing some foreign war It was an engagement that resulted in Korea Guatemala Nicaragua and elsewhere in some twenty million dead This collection of essays analyses the literary response to the coups insurgencies and invasions that took place around the

globe and explores the various thematic and stylistic trends that Cold War hostilities engendered in world writing. Drawing together scholars of various cultural backgrounds, the volume focuses upon such themes as representation, nationalism, political resistance, globalisation and ideological scepticism. Eschewing the typical focus in Cold War scholarship on Western authors and genres, there is an emphasis on the literary voices that emerged from what are often considered the peripheral regions of Cold War geopolitics. Ranging in focus from American postmodernism to Vietnamese poetry, from Cuban autobiography to Maoist theatre and from African fiction to Soviet propaganda, this book will be of real interest to all those working in twentieth-century literary studies, cultural studies, history and politics.

Criminal Femmes Fatales in American Hardboiled Crime Fiction Maysaa Husam Jaber, 2016-02-02. This book fills a gap in both literary and feminist scholarship by offering the first major study of femme fatales in hardboiled crime fiction. Maysaa Jaber shows that the criminal literary figures in the genre open up powerful spaces for imagining female agency in direct opposition to the constraining forces of patriarchy and misogyny.

Building the Cold War Annabel Jane Wharton, 2001. In postwar Europe and the Middle East, Hilton hotels were quite literally little Americas. For American businessmen and tourists, a Hilton Hotel with the comfortable familiarity of an English-speaking staff, a restaurant that served cheeseburgers and milkshakes, transatlantic telephone lines and most important, air-conditioned modernity, offered a respite from the disturbingly alien. For impoverished local populations, these same features lent the Hilton a utopian aura. The Hilton was a space of luxury and desire, a space that realized permanently and prominently the new and powerful presence of the United States. *Building the Cold War* examines the architectural means by which the Hilton was written into the urban topographies of the major cities of Europe and the Middle East as an effective representation of the United States. Between 1953 and 1966, Hilton International built sixteen luxury hotels abroad. Often the Hilton was the first significant modern structure in the host city as well as its finest hotel. The Hiltons introduced a striking visual contrast to the traditional architectural forms of such cities as Istanbul, Cairo, Athens and Jerusalem, where the impact of its new architecture was amplified by the hotel's unprecedented siting and scale. Even in cities familiar with the Modern, the new Hilton often dominated the urban landscape with its height, changing the look of the city. The London Hilton on Park Lane, for example, was the first structure in London that was higher than St Paul's cathedral. In his autobiography, Conrad N. Hilton claimed that these hotels were constructed for profit and for political impact: an integral part of my dream was to show the countries most exposed to Communism the other side of the coin, the fruits of the free world. Exploring everything the carefully drafted contracts for the buildings to the remarkable visual and social impact on their host cities, Wharton offers a theoretically sophisticated critique of one of the Cold War's first international businesses and demonstrates that the Hilton's role in the struggle against Communism was as Conrad Hilton declared significant, though in ways that he could not have imagined. Many of these postwar Hiltons still flourish. Those who stay in them will learn a great deal about their experience from this new assessment of hotel space.

Inspecting Jews Laurence Roth, 2004 In this book Laurence Roth argues that the popular genre of Jewish detective stories offers new insights into the construction of ethnic and religious identity Roth frames his study with the concept of kosher hybridity to look at the complex process of mediation between Jewish and American culture in which Jewish writers voice the desire to be both different from and yet the same as other Americans He argues that the detective story located at the intersection of narrative and popular culture in modern America examines the need for order in a disorderly society and thus offers a window into the negotiation of Jewish identity differing from that of literary fiction The writers of these popular cultural texts which are informed by contradiction and which thrive on intended and unintended ironies formulate idioms for American Jewish identities that intentionally and unintentionally create social ethnic and religious syntheses in American Jewish life Roth examines stories about American Jewish detectives including Harry Kemelman's Rabbi Small Faye Kellerman's Peter Decker and Rina Lazarus Stuart Kaminsky's Abe Lieberman and Rochelle Krich's Jessica Drake not only as a genre of literature but also as a reflection of contemporary acculturation in the American Jewish popular arts
