Punishment The Supposed Justifications:

Punishment Ted Honderich, 2005-11-20 Ted Honderich's *Punishment* is the best known book on the justifications put forward for state punishment. This enlarged and developed edition brings his writing to a new audience. With new chapters on determinism and responsibility plus a new conclusion, the book also remains true to its original realism about almost all talk of retribution and proportionality. Honderich investigates all the commonsensical notions of why and when punishment is morally necessary, engaging with the language of public debate by politicians and other public figures. Honderich then puts forward his own argument that punishment is legitimate when it is in accord with the principle of humanity. Written in a clear sharp style and seasoned with a dry wit, this is the most important work on the reasoning behind our penal systems. It is a pleasure to read for philosophers and non philosophers alike. Ted Honderich is Grote Professor Emeritus at University College London and author of numerous books on philosophy including *After the Terror* (Edinburgh University Press 2002), *How Free Are You* (Oxford University Press 2001), *Terrorism for Humanity* (Pluto Press 2003) and *Conservatism* (Pluto Press 2005). He is also the editor of the *Oxford Companion to Philosophy*.

Central Issues in

Criminal Theory William Wilson, 2002-11-12 This book questions whether one of the tasks of criminal theory is to set goals and identify deficiencies in order to improve rules and procedures Facing the Limits of the Law Erik Claes, Wouter Devroe, Bert Keirsbilck, 2009-04-21 Many legal experts no longer share an unbounded trust in the potential of law to govern society efficiently and responsibly They often experience the limits of the law as they are confronted with striking inadequacies in their legal toolbox with inner inconsistencies of the law with problems of enforcement and obedience and with undesired side effects and so on The contributors to this book engage in the challenging task of making sense of this experience Against the background of broader cultural transformations such as globalisation new technologies individualism and cultural diversity they revisit a wide range of areas of the law and map different types of limits in relation to some basic functions and characteristics of the law Additionally they offer a set of strategies to manage justifiably law's limits such as dramatising law's limits conceptual refinement constructivism striking the right balance between different functions of the law seeking for complementarity between law and other social practices *Punishment and Retribution* Leo Zaibert, 2016-04-15 Discussions of punishment typically assume that punishment is criminal punishment carried out by the State Punishment is however a richer phenomenon and it occurs in many contexts This book contains a general account of punishment which overcomes the difficulties of competing accounts Recognizing punishment's manifoldness is valuable not merely in contributing to conceptual clarity but in that this recognition sheds light on the complicated problem of punishment's justification Insofar as they narrowly presuppose that punishment is criminal punishment most apparent solutions to the tension between consequentialism and retributivism are rather unenlightening if we attempt to apply them in other contexts Moreover this presupposition has given rise to an unwieldy variety of accounts of retributivism which are less helpful in contexts other than criminal punishment Treating punishment comprehensibly helps us to better understand how it differs from similar phenomena and to carry on the discussion of its justification fruitfully *The Use of Punishment* Sean McConville, 2013-01-10 In recent decades there has been a vast increase in the use of imprisonment and penal supervision and to many this development appears to be qualitatively as well as quantitatively different The causes of this development its consequences and future course form the main point of departure for the contributors to this volume who consider the changes that have contributed to these apparently fundamental shifts in the use of punishment In this major new book contributors from a range of disciplines provide an integrated approach to a range of questions surrounding the use of punishment In what ways have broader social institutions and processes contributed to penal expansion This book is the principal outcome of the Guggenheim Punishment Project which aimed for a truly interdisciplinary account of thinking about punishment and an outcome which was general and reflective rather than specific and policy oriented and accessible to the generalist as well as those with a specialist interest in the field *Punishment, Places and Perpetrators* Gerben Bruinsma, Henk Elffers, Jan De Keijser, 2012-12-06 This book brings together an influential group of academics and

researchers to review key areas of research theory and methodology within criminology and criminal justice and to identify the most important new challenges facing the discipline The contributors focus on the three central themes of punishment and criminal justice location and mobility and perpetrators and criminal careers on which much cutting edge research within criminology has been taking place A particular strength of the book is its multidisciplinary and international approach with contributors drawn from Europe the UK and the United States *Why Punish? How Much?* Michael H. Tonry, 2011

Punishment like all complex human institutions tends to change as ways of thinking go in and out of fashion Normative political social psychological and legal ideas concerning punishment have changed drastically over time and especially in recent decades *Why Punish How Much* collects essays from classical philosophers and contemporary theorists to examine these shifts Michael Tonry has gathered a comprehensive set of readings ranging from Kant Hegel and Bentham to recent writings on developments in the behavioral and medical sciences Together they cover foundations of punishment theory such as consequentialism retributivism and functionalism new approaches like restorative communitarian and therapeutic justice and mixed approaches that attempt to link theory and policy This volume includes an accessible introduction that chronicles the development of punishment systems and theorizing over the course of the last two centuries *Why Punish How Much* provides a fresh and comprehensive approach to thinking about punishment and sentencing for a broad range of law sociology philosophy and criminology courses *Punishment And Culture* María José Falcón y Tella, Fernando Falcón y Tella, 2006 This volume critically explores the basis and the goal of punishment from the standpoint of the right to punish The work reviews the main doctrines that have dealt with the theme of punishment from Antiquity to the present not limiting itself to the legal philosophical sphere but also analyzing the contributions from other social sciences It then explores how these are reflected in the sphere of Positive Law
