Aleksandr Podrabinek

Punitive Medicine:

Punitive Medicine Aleksandr Podrabinek, 1980 In the decade since the American Psychiatric Association condemned the use of psychiatric institutions for the suppression of political dissent the practice has continued to spread in the Union of Soviet Socialist Republics Alexander Podrabinek wrote this account after working as a medical assistant and pursued his research while undergoing police harrassment He has since been arrested and is in exile in Russia The manuscript was smuggled out translated and published in this country Podrabinek recounts the historical absence of a civil liberties tradition in Russia asserting that compulsory psychiatric treatment was not needed in Czarist or early Communist times as liquidation was more efficient Nonetheless shortly after the revolution of 1917 punitive hospitalizations began and a network of special psychiatric hospitals developed to confine thousands of dissidents and socially dangerous individuals Punitive Medicine contains many quotations from former inmates or patient prisoners photographs of hospitals and ex inmates and also pictures

Man-made Medicine Kary L. Moss, 1996 If not for the reproductive functions of women would there be anything called women's health care A review of medical literature practice and policy in this country would suggest that the answer is no Offering a startling view of the current state of health care for women in the United States and laying the foundation for a new widely defined women's medicine Man Made Medicine makes an urgent statement about gender bias in the medical establishment and its pernicious effects on the well being of women and the care they receive These essays by physicians lawyers activists and scholars present a rare interdisciplinary approach to a complex set of issues Gender stereotyping and bias in the collection analysis and reporting of scientific data and in the ways health related news is covered by the media are examined The exclusion of women from the health care policy making process and the effect such exclusion has on the determination of priorities among potential areas of research are also explored With discussions of the plight of specific populations of women whose health care needs are not being sufficiently met for example immigrants prisoners the mentally

ill or women with HIV AIDS disabilities or reproductive health problems this book considers matters of race and class within the parameters of gender as it builds a fundamental challenge to the existing health care system A range of current reform proposals are also evaluated in terms of their potential impact on women Suggesting no less than a radical rethinking of women s medicine *Man Made Medicine* gives essential direction to the discussions that will shape the future of health care in this country It will be of great interest to a wide audience including health care advocates policymakers scholars and readers generally concerned with women s health issues Contributors Ellen Barry Laurie Beck Joan Bertin Janet Calvo Wendy Chavkin Kay Dickersin Abigail English Elizabeth Fee Carol Gill Nancy Krieger Joyce McConnell Judy Norsigian Ann Scales Susan Stefan Lauren Schnaper Catherine Teare *Bioethics, Medicine and the Criminal Law* Amel Alghrani, Danielle Griffiths, Rebecca Bennett, Andrew Sanders, Suzanne Ost, 2013-01-31 Griffiths and Sanders present a fresh and wide ranging analysis of the impact of the criminal process on medical practice *Faith & Wellness* R. J. Rushdoony, 2016-12-27 Abortion Euthanasia Socialized Healthcare Statist regulations Quackery Addiction These are the modern symptoms of a disease that has infected Western medicine for thousands of years the disease of humanism In a series of thirteen Medical Reports R J Rushdoony traced the Christian and pagan roots of Western medicine in history and demonstrated how humanist thought has produced vicious fruit in both modern medical practices and in the expectations of patients How do we heal the medical profession Rushdoony understood that finger pointing will not solve our problems Because the plague of humanism will inevitably lead to death and no wellness it is the responsibility of the Church and the Christian medical professionals with her to develop a thoroughly Biblical theology of medicine and to teach it Rushdoony lays foundations for this by explaining the connection between salvation and healing establishing the vital importance of treating the whole man body and spirit and renewing the vision for doctors to embrace their priestly callings This is an essential read for anyone who wants to reform health care This paperback book includes all the Medical Reports once part of the *Roots of Reconstruction* Torture and Democracy Darius Rejali, 2009-06-08 This is the most comprehensive and most comprehensively chilling study of modern torture yet written Darius Rejali one of the world s leading experts on torture takes the reader from the late nineteenth century to the aftermath of Abu Ghraib from slavery and the electric chair to electrocution in American inner cities and from French and British colonial prison cells and the Spanish American War to the fields of Vietnam the wars of the Middle East and the new democracies of Latin America and Europe As Rejali traces the development and application of one torture technique after another in these settings he reaches startling conclusions As the twentieth century progressed he argues democracies not only tortured but set the international pace for torture Dictatorships may have tortured more and more indiscriminately but the United States Britain and France pioneered and exported techniques that have become the lingua franca of modern torture methods that leave no marks Under the watchful eyes of reporters and human rights activists low level authorities in the world s oldest democracies were the first to learn that to scar a victim was to advertise iniquity and

invite scandal Long before the CIA even existed police and soldiers turned instead to clean techniques such as torture by electricity ice water noise drugs and stress positions As democracy and human rights spread after World War II so too did these methods Rejali makes this troubling case in fluid arresting prose and on the basis of unprecedented research conducted in multiple languages and on several continents begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib The author of a major study of Iranian torture Rejali also tackles the controversial question of whether torture really works answering the new apologists for torture point by point A brave and disturbing book this is the benchmark against which all future studies of modern torture will be measured **"Punitive Medicine"** Aleksandr Podrabinek,1977

Drugs and Thugs Russell Crandall,2020-10-27 A sweeping and highly readable work on the evolution of America s domestic and global drug war How can the United States chart a path forward in the war on drugs In **Drugs and Thugs** Russell Crandall uncovers the full history of this war that has lasted more than a century As a scholar and a high level national security advisor to both the George W Bush and Obama administrations he provides an essential view of the economic political and human impacts of U S drug policies Backed by extensive research lucid and unbiased analysis of policy and his own personal experiences Crandall takes readers from Afghanistan to Colombia to Peru and Mexico to Miami International Airport and the border crossing between El Paso and Juarez to trace the complex social networks that make up the drug trade and drug consumption Through historically driven stories Crandall reveals how the war on drugs has evolved to address mass incarceration the opioid epidemic the legalization and medical use of marijuana and America s shifting foreign policy
