Purchasing For Health A Multidisciplinary Introduction To The Theory And Practice Of Health Purchasing:

Public Ends, Private Means Alexander S. Preker, 2007-01-01 Great progress has been made in recent years in securing better access and financial protection against the cost of illness through collective financing of health care Managing scarce resources effectively and efficiently is an important part of this story Experience has shown that without strategic policies and focused spending the poor are likely to get left out The use of purchasing to enhance public sector performance is well documented in other sectors Extension to the health sector of lessons from this experience is now successfully implemented in many developing countries Public *Purchasing for Health* John Øvretveit, 1995-01 This text contributes to the theory and practice of the new management discipline of health purchasing and to an understanding of health purchasing organizations both public and private It examines the purpose and methods of health purchasing as a service industry in a rapidly changing market

EBOOK: Healthcare Management Kieran Walshe, Judith Smith, 2017-10-27 This popular book is written by leading experts in the field and covers all the key aspects of healthcare management Written with healthcare managers professionals and students in mind it provides an accessible and evidence based guide to healthcare systems services organizations and management Key areas covered include Structure and delivery of healthcare services in the international context including mental health acute care primary care chronic disease and integrated care Allocating resources for healthcare setting and managing priorities Health technologies research and innovation Global health policy governing health systems across borders Patient and public involvement in healthcare Healthcare governance and performance This third edition has been significantly rewritten with 10 new contributors and a new chapter structure designed to better support learning practical application and further study In addition there is a more international focus and each chapter includes new case studies giving global examples of health systems and services new and updated learning activities to encourage application to your own organization and a range of links to useful online resources Healthcare Management is essential research based reading for students teachers and healthcare professionals involved in management research and health policy making Walshe and Smith have assembled an invaluable introduction to healthcare management and health systems With their fellow authors they provide a comprehensive review of a range of issues related to the funding and provision of care and how services are organised and managed Now in its third edition Healthcare Management has been updated and revised to meet the needs of teachers and students alike Professor Chris Ham Chief Executive The King's Fund UK This book covers the main areas of knowledge which managers need and gives tools for thinking and empirical examples relevant to current challenges Evidence based management might not always be possible but this book gives a way for a manager to become research informed and therefore more effective This third edition of the book is even more relevant internationally and improved to help readers apply the ideas to their situation Professor John Øvretveit Director of Research LIME MMC The Karolinska Institute Sweden No one learns to be a manager in a classroom or from a book but books that

take this disclaimer as their starting point are indispensable Walshe and Smith and their fellow authors invite their audience healthcare managers healthcare policy makers and postgraduate students taking courses in healthcare management to critically combine experiential learning with academic learning and to acquire knowledge from both practice and theory By doing so they have found the third way between the advocates of evidence based management and their critics Dr Jan Kees Helderman Associate Professor in Public Administration Institute for Management Research Radboud University Nijmegen the Netherlands *EBOOK: Managing Mental Health Services* Amanda Reynolds, Graham Thornicroft, 1999-06-16 What are the key tasks that a mental health manager needs to fulfil What are the six key steps needed to develop manageable mental health services How can managers not just survive but creatively improve mental health services This is a practical no nonsense book designed to help managers of mental health services cope survive and constructively fulfil their role It has been written to help managers to function in an increasingly complex mental health service arena In clear jargon free language it aims to demystify key managerial terms to provide an understandable summary of the relevant policy and legal framework and to provide signposts to assist managers in making their way through the maze of service planning and service development options *Managing Mental Health Services* will be a leading practical handbook in its field a point of reference for hands on managers and a source of stimulating advice tips and guidance in mental health service management

EBOOK: Comparative Health Policy in the Asia Pacific Robin Gauld, 2004-12-16 Dr Gauld's collection of case studies is informative and accessible I would recommend it as a central text for a course in comparative health systems Political Studies Review Based upon research from eight countries in the Asia Pacific Australia China Hong Kong Japan New Zealand Singapore South Korea Taiwan this book analyses and compares their differing health policies Key issues the book probes include The ways that health care is financed and delivered across the region The historical and institutional arrangements that impact upon health policy and health care How the health systems differ between the countries under study How policymakers and service providers deal with unlimited demand and limited funding and issues such as service coverage and quality How pharmaceuticals and population health strategies are managed What the roles of the state and various other players such as the private sector and professional associations are in the making of health policy and delivery of health care The challenges that lie ahead for health care and health policy in the region *Comparative Health Policy in the Asia Pacific* is key reading for students researchers and policy makers with an interest in health policy It is relevant to those studying medicine and health studies anthropology history sociology public policy politics and Asian studies *Healthcare Management* Kieran Walshe, Judith Smith, 2011-09-01 A comprehensive research based introduction to healthcare management covering healthcare systems services organisations and management **EBOOK: The New Primary Care** Bernard Dowling, Caroline Glendinning, 2003-10-16 The modernization of the NHS is at the heart of the UK government's policies for public sector services This modernization programme represents the most radical and ambitious restructuring of

the NHS since its inception in 1948 The new Primary Care Groups and Trusts PCG Ts are the main organizational mechanism for delivering the modernization agenda and are therefore key to the success or otherwise of these reforms To date there has been no comprehensive evaluation of how PCG Ts have been performing in implementing the modernization programme this book fills that important gap in knowledge It provides a strong text of first evidence about the performance of PCG Ts to date this forms the basis for discussions about future success and a benchmark for future research The New Primary Care will be an essential resource for all advanced students of health care as well as academics researchers and policy makers

Purchasing for Health John Øvretveit,1995 Purchasing for health is more than contracting the best value for money services Contracting is one means to the end of improving health and preventing illness Public purchasing is a new task and an emerging health management discipline This book gives an introduction to the theory and practice of the subject describes key issues and outlines concepts and practical approaches to purchasing for health It judges different approaches to purchasing against a view of the purpose of NHS commissioning and of commissioning organizations as service businesses The book is mainly for UK health purchasing managers working for health authorities and for primary care physicians or centres with a purchasing fund The book also makes available some of the experience of seven UK NHS integrated health purchasers commissioning agencies in forming and performing joint district health authority DHA and family health services authority FHSA commissioning Parts of the book draw on a purchaser development programme for these agencies and this accounts for the emphasis on practical problems and solutions in the later chapters

The New Primary Care Dowling, Bernard,Glendinning, Caroline,2003-10-01 The modernization of the NHS is at the heart of the UK government s policies for public sector services This modernization programme represents the most radical and ambitious restructuring of the NHS since its inception in 1948 The new Primary Care Groups and Trusts PCG Ts are the main organizational mechanism for delivering the modernization agenda and are therefore key to the success or otherwise of these reforms

Evidence-Based Practice in the Field of Substance Abuse Katherine van Wormer,Bruce A. Thyer,2010 Evidence Based Practice in Substance Abuse Treatment is a reader on evidence based practices in substance abuse treatment The book is built around a core of treatment interventions that were published in several well known journals on substance abuse treatment and research in social work practice The purpose of the reader is to collect and comment on various forms of treatment that have proven effectiveness and to demonstrate how they have been applied in practice In addition the editors will provide a bridge analysis across chapters and sections connecting key themes across chapters and they will provide a discussion in each chapter that describes why the intervention was chosen its significance and why it is believed to be noteworthy In addition each chapter will contain critical thinking questions and the book will contain a glossary of key terms
