Purchasing Power Elizabeth M. Liew Siew Chin, What does it mean to be young poor and black in our consumer culture Are black children brand crazed consumer addicts willing to kill each other over a pair of the latest Nike Air Jordans or Barbie backpack In this first in depth account of the consumer lives of poor and working class black children Elizabeth Chin enters the world of children living in hardship in order to understand the ways they learn to manage living poor in a wealthy society To move beyond the stereotypical images of black children obsessed with status symbols Chin spent two years interviewing poor children in New Haven Connecticut about where and how they spend their money An alternate image of the children emerges one that puts practicality ahead of status in their purchasing decisions On a twenty dollar shopping spree with Chin one boy has to choose between a walkie talkie set and an X Men figure In one of the most painful moments of her research Chin watches as Davy struggles with his decision He finally takes the walkie talkie set a toy that might be shared with his younger brother Through personal anecdotes and compelling stories ranging from topics such as Christmas and birthday gifts shopping malls Toys R Us neighborhood convenience shops school lunches ethnically correct toys and school supplies Chin critically examines consumption as a medium through which social inequalities most notably of race class and gender are formed experienced imposed and resisted Along the way she acknowledges the profound constraints under which the poor and working class must struggle in their daily lives *Children and Consumer Culture in American Society* Lisa Jacobson, 2007-12-30 Children play a crucial role in today s economy According to some estimates children spend or influence the spending of up to 500 billion annually Journalists sociologists and media reformers often present mass marketing toward children as a recent fall from grace but the roots of children s consumerism and the anxieties over it date back more than a century Throughout the twentieth century a wide variety of groups including advertisers retailers parents social reformers child experts public schools and children themselves helped to socialize children as consumers and struggled to define the proper boundaries of the market The essays and documents in this volume illuminate the historical circumstances and cultural conflicts that helped to produce shape and legitimize children s consumerism Focusing primarily on the period from the Gilded Age through the twentieth century this book examines how and why children and adolescents acquired new economic roles as consumers and how these new roles both reflected and produced dynamic changes in family life and the culture of capitalism This volume also reveals how children and adolescents have used consumer goods to define personal identities and peer relationships sometimes in opposition to marketers expectations and parental intentions **The Wiley Blackwell Encyclopedia of Consumption and Consumer Studies** Daniel Thomas Cook, J. Even as they see their wages go down and their buying power decrease many parents are still putting their kids material desires first These parents struggle with how to handle children s consumer wants which continue unabated despite the economic downturn And indeed parents and other adults continue to spend billions of dollars on children every year Why do children seem to desire so much so often so soon and why do parents capitulate so readily To determine what forces lie behind the onslaught of Nintendo Wiis and Bratz dolls Allison J Pugh spent three years observing and interviewing children and their families In *Longing and Belonging* Parents Children and Consumer Culture Pugh teases out the complex factors that contribute to how we buy from lunchroom conversations about Game Boys to the stark inequalities facing American children Pugh finds that children s desires stem less from striving for status or falling victim to advertising than from their yearning to join the conversation at school or in the neighborhood Most parents respond to children s need to belong by buying the particular goods and experiences that act as passports in children s social worlds because they sympathize with their children s fear of being different from their peers Even under financial constraints families prioritize children feeling normal Pugh masterfully illuminates the surprising similarities in the fears and hopes of parents and children from vastly different social contexts showing that while corporate marketing and materialism play a part in the commodification of childhood at the heart of the matter is the desire to belong pub desc *Consumption Norms and Everyday Ethics* L.

Introducing Sociology Using the Stuff of Everyday Life Josee Johnston, Kate Cairns, Shyon Baumann, 2017-01-06 The challenges of teaching a successful introductory sociology course today demand materials from a publisher very different from the norm Texts that are organized the way the discipline structures itself intellectually no longer connect with the majority of student learners This is not an issue of pandering to students or otherwise seeking the lowest common denominator On the contrary it is a question of again making the practice of sociological thinking meaningful rigorous and relevant to today s world of undergraduates This comparatively concise highly visual and affordable book offers a refreshingly new way forward to reach students using one of the most powerful tools in a sociologist s teaching arsenal the familiar stuff in students everyday lives throughout the world the jeans they wear to class the coffee they drink each morning or the phones their professors tell them to put away during lectures A focus on consumer culture seeing the strange in the familiar is not only interesting for students it is also the authors suggest pedagogically superior to more traditional approaches By engaging students through their stuff this book moves beyond teaching about sociology to helping instructors teach the practice of sociological thinking It moves beyond describing what sociology is so that students can practice what sociological thinking can do This pedagogy also posits a relationship between teacher and learner that is bi directional Many students feel a sense of authority in various areas of consumer culture and they often enjoy sharing their knowledge with fellow students and with their instructor Opening up the sociology classroom to discussion of these topics validates students expertise on their own life worlds Teachers in turn gain insight from the goods services and cultural expectations that shape students lives While innovative the book has been carefully crafted to make it as useful and flexible as possible for instructors aiming to build core sociological foundations in a single semester A map on pages ii iii identifies core sociological concepts covered so that a traditional syllabus as well as individual lectures can easily be maintained Theory method and active

learning exercises in every chapter constantly encourage the sociological imagination as well as the doing of sociology
