Lundblad,2005-10-14 Largely driven by major improvements in the analytical capability of mass spectrometry proteomics is being applied to broader areas of experimental biology ranging from oncology research to plant biology to environmental health However while it has already eclipsed solution protein chemistry as a discipline it is still essentially an extension *Application of Solution Protein Chemistry to Biotechnology* Roger L. Lundblad,2009-05-12 Reflecting the versatility of the author s science and the depth of his experience Application of Solution Protein Chemistry to Biotechnology explores key contributions that protein scientists can make in the development of products that are both important and commercially viable and provides them with tools and information required for successfu
