Purity And Provocation:

Purity and Provocation Mette Hjort, Scott MacKenzie, 2003 No Marketing Blurb Purity and Provocation: Dogma 95 Mette Hjort, Scott Mackenzie, 2005-03-01 **Cinephilia** Marijke de Valck, Malte Hagener, 2005 They obsess over the nuances of a Douglas Sirk or Ingmar Bergman film they revel in books such as François Truffaut's Hitchcock they happily subscribe to the Sundance Channel they are the rare breed known as cinephiles Though much has been made of the classic era of cinephilia from the 1950s to the 1970s Cinephilia documents the latest generation of cinephiles and their use of new technologies With the advent of home theaters digital recording devices online film communities cinephiles today pursue their dedication to film outside of institutional settings A radical new history of film culture Cinephilia breaks new ground for students and scholars alike **Traditions in World Cinema** Linda Badley, R. Barton Palmer, Steven Jay Schneider, 2006 The core volume in the Traditions in World Cinema series this book brings together a colourful and wide ranging collection of world cinematic traditions national regional and global all of which are in need of introduction investigation and in some cases critical reassessment Topics include German expressionism Italian neorealism French New Wave British new wave Czech new wave Danish Dogma post Communist cinema Brazilian post Cinema Novo new Argentine cinema pre revolutionary African traditions Israeli persecution films new Iranian cinema Hindi film songs Chinese wenyi *Transnational Cinema in a Global North* Andrew K. Nestingen, Trevor Glen Elkington, 2005 The first scholarly work to address the globalization of film in the Nordic region covering major films directors and trends in the region's five countries Danish Mothers On-Screen Djuna Hallsworth, 2021-11-19 This book combines content analysis of film and television cases the examination of policy documents and first hand interview material with Danish industry professionals tracing the pivotal moments in media and welfare state history to unite these two overlapping spheres welfare state social policy and media imagery In doing so it addresses a gap in existing academic and policy documents to demonstrate how motherhood and femininity are presented in contemporary state supported Danish screen fiction As an industry premised on state funding and public service values Danish screen fiction plays a cogent role in shaping and communicating cultural norms and provides a space for the cultivation of belonging and a sense of a shared identity For this reason it is vital to identify and examine representational trends and patterns in popular media formats This book argues that the political narrative of gender equality democracy and universal social support that permeates Danish state policy is undermined in screen fiction wherein working mother characters are problematised and the welfare system's integrity is challenged This book asserts that the framing of femininity motherhood and citizenship in many contemporary Danish films and television dramas indicates a cultural concern about the welfare state's institutionalisation of caregiving and presents absent mothers as an indirect cause of crime trauma or social unrest *Cinematic Appeals* Ariel Rogers, 2013-10-22 Cinematic Appeals follows the effect of technological innovation on the cinema experience specifically the introduction of widescreen and stereoscopic 3D systems in the 1950s

the rise of digital cinema in the 1990s and the transition to digital 3D since 2005 Widescreen films drew the spectator into the world of the screen enabling larger than life close ups of already larger than life actors The technology fostered the illusion of physically entering a film enhancing the semblance of realism Alternatively the digital era was less concerned with manipulating the viewer's physical response and more with generating information flow awe disorientation and the disintegration of spatial boundaries This study ultimately shows how cinematic technology and the human experience shape and respond to each other over time Films discussed include Elia Kazan's *East of Eden* 1955 *Star Wars The Phantom Menace* 1999 *The Matrix* 1999 and Thomas Vinterberg's Dogme film *The Celebration* 1998 *Lars von Trier* Linda

Badley, 2011-02-24 Scandinavia's foremost living auteur and the catalyst of the Dogme95 movement Lars von Trier is arguably world cinema's most confrontational and polarizing figure Willfully devastating audiences he takes risks few filmmakers would conceive mounting projects that somehow transcend the grand follies they narrowly miss becoming Challenging conventional limitations and imposing his own rules he restlessly reinvents the film language The Danish director has therefore cultivated an insistently transnational cinema taking inspiration from sources that range from the European avant garde to American genre films This volume provides a stimulating overview of Trier's career while focusing on the more recent work including his controversial *Gold Heart Trilogy* *Breaking the Waves* *The Idiots* and *Dancer in the Dark* the as yet unfinished *USA Trilogy* *Dogville* and *Manderlay* and individual projects such as the comedy *The Boss of It All* and the incendiary horror psychodrama *Antichrist* Closely analyzing the films and their contexts Linda Badley draws on a range of cultural references and critical approaches including genre gender and cultural studies performance theory and trauma culture Two revealing interviews that Trier granted during crucial stages of *Antichrist*'s development are also included *Abyss of Reason* Daniel Cottom, 1991 A study from the American perspective of modern spiritualism which flourished in the mid 19th century and of surrealism a movement that produced a major following between the two World Wars **Shakespeare, Film Studies, and the Visual Cultures of Modernity** A. Guneratne, 2016-04-30 This book is the first in depth cultural history of cinema's polyvalent and often contradictory appropriations of Shakespearean drama and performance traditions The author argues that these adaptations have helped shape multiple aspects of film from cinematic style to genre and narrative construction
