Purposeful Jettison Of Petroleum Cargo:

Purposeful Jettison of Petroleum Cargo National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Committee on Marine Salvage Issues, 1994-02-01 This book addresses the problem of deliberate discharge of petroleum cargo during salvage operations It assesses the implications for shipping and marine environmental protection documents the need to clarify U S law concerning intentional discharges of petroleum cargoes to save ships and prevent the loss of larger amounts of cargo considers the implications of advances in oil spill contingency planning environmental data acquisition and spill trajectory forecasting and makes recommendations concerning the feasibility of developing guidelines for deciding whether to discharge oil intentionally

Reassessment of the Marine Salvage Posture of the United States National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Committee on Marine Salvage Issues, 1994-02-01 Prompt and effective response to time critical ship casualties and emergencies for example by refloating stranded ships can prevent marine pollution and economic disruption of ports and waterways The marine salvage industry which conducts this work has undergone significant changes in the past two decades This book evaluates these changes and assesses the adequacy of marine salvage in the United States Among the issues addressed are conditions in the salvage industry emergency response time national salvage policy workforce needs salvage techniques and the contribution of the Navy to the national salvage capability

Marine Pollution - Monitoring, Management and Mitigation Amanda Reichelt-Brushett, 2023-05-11 The study of marine environments inevitably involves considering the problem of marine pollution which includes questions that focus on the essential need to ensure the long term health of these exceptional ecosystems and the lives and livelihoods they support The open access textbook *Marine Pollution monitoring management and mitigation approaches* these questions in a practical and highly readable format It gives newcomers to the field background and perspective through the first comprehensive multidisciplinary exploration of the topic The topic is indeed complex requiring the integration of the natural sciences and chemistry with management policymakers industry and all of us who are users of the marine environment The textbook was written by leading experts to especially prepare graduates for a career in marine pollution studies At the same time it is relevant for anyone invested in the marine environment with a will to reduce their impacts The chapters can easily be used independently and are also connected through the cross referencing of related content The introductory chapter provides a historical account of marine pollution and explores the fundamental physicochemical conditions of seawater Two full chapters cover the requisite resources for ensuring success in field and laboratory studies Then chapter by chapter the book dives into to the various types of marine pollutants In closing it discusses the challenges of understanding multiple stressors and presents mitigation and restoration practices along with a global overview of marine pollution legislation We envisioned this textbook as being open access for the very reason we created it this topic calls for global contributions and champions

and financial restraints should not limit access to this knowledge **Marine Pollution** Mr. Rohit Manglik, 2024-07-22

EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels Places of Refuge for Ships Aldo E. Chircop, Olof Lindén, 2006 Written by scholars and practitioners this work consists of 20 multidisciplinary chapters addressing the law policy and management aspects of the problem of places of refuge for ships in need of assistance Specific chapters focus on the experiences and approaches of Australia Belgium Canada Denmark Germany United Kingdom and United States *Civil Liability for Bunker Oil Pollution Damage* Dan Malika Gunasekera, 2010 This book deals with the liability conventions brought into existence by the International Maritime Organization and concentrates on the newly adopted instrument dealing with bunker oil pollution as an area of great concern for every stakeholder involved in shipping business The work covers a wide spectrum ranging from the Convention itself to its scope of application liable and aggrieved parties jurisdiction requirements of liability and admissibility of claims defences and exoneration from liability It addresses many areas of interest and of importance to international and national legal advisors lawyers law students and anyone interested in the relevant field such as shipowners charterers shipbrokers ship personnel and associated contractors and sub contractors **The Professional Salvor's Liability in the Law of Negligence and the Doctrine of Affirmative Damages** Miso Mudric, 2013 The research in this book examines the issue of professional salvor's liability for damage caused due to negligent performance of salvage services Analysis is focused on the relevant international law 1989 Salvage Convention 1976 LLMC Convention and the 1992 CLC Convention the professional liability provisions of the chosen number of jurisdictions England Wales Germany France and the US the standard salvage contract forms the standard of care the relevant salvage case law the sanctions for poor or non performance and the methods of calculating the limitation of liability Series Writings on Maritime and Port Law Schriften zum See und Hafenrecht Vol 20 **Marine Board Annual Report ...** National Research Council (U.S.).
