Mutter,2015-08-11 Natural disasters don't matter for the reasons we think they do They generally don't kill a huge number of people Most years more people kill themselves than are killed by Nature's tantrums And using standard measures like Gross Domestic Product GDP it is difficult to show that disasters significantly interrupt the economy It's what happens after the disasters that really matters when the media has lost interest and the last volunteer has handed out a final blanket and people are left to repair their lives What happens is a stark expression of how unjustly unequal our world has become The elite make out well whether they belong to an open market capitalist democracy or a closed authoritarian socialist state In Myanmar a country ruled by a xenophobic military junta the generals and their cronies declared areas where rice farms were destroyed by Cyclone Nargis as blighted and simply took the land In New Orleans the city was re-shaped and gentrified post Katrina making it almost impossible for many of its poorest mostly black citizens to return In *The Disaster Profiteers* John Mutter argues that when no one is looking disasters become a means by which the elite prosper at the expense of the poor As the specter of increasingly frequent and destructive natural disasters looms in our future this book will ignite an essential conversation about what we can do now to create a safer more just world for us all **The people's edition of Thomas Carlyle's works. 37 vols. Wanting vol. 33-35** Thomas Carlyle,1893 **A Bibliographic History of the Book** Joseph Rosenblum,1995 skillfully compiled should be useful to anyone interested in placing his or her studies in the context of printed and bound literature ENGLISH LITERATURE IN TRANSITION 1880-1920 *Current Literature*,1900 **Current Opinion** Edward Jewitt Wheeler, Frank Crane,1900 [The Rise of the Modernist Bookshop](#) Huw Osborne,2016-03-09 The trade in books has always been and remains an ambiguous commercial activity associated as it is with literature and the exchange of ideas This collection is concerned with the cultural and economic roles of independent bookstores and it considers how eight shops founded during the modernist era provided distinctive spaces of literary production that exceeded and yet never escaped their commercial functions As the contributors show these booksellers were essential institutional players in literary networks When the eight shops examined first opened their doors their relevance to literary and commercial life was taken for granted In our current context of box stores online shopping and ebooks we no longer encounter the book as we did as recently as twenty years ago By contributing to our understanding of bookshops as unique social spaces on the thresholds of commerce and culture this volume helps to lay the groundwork for comprehending how our relationship to books and literature has been and will be affected by the physical changes to the reading experience taking place in the twenty first century **The People's**
