Kitzmiller, 2021-12-03 The Roots of Educational Inequality chronicles the transformation of one American high school over the course of the twentieth century to explore the larger political economic and social factors that have contributed to the escalation of educational inequality in modern America In 1914 when Germantown High School officially opened Martin G Brumbaugh the superintendent of the School District of Philadelphia

told residents that they had one of the finest high schools in the nation Located in a suburban neighborhood in Philadelphia s northwest corner the school provided Germantown youth with a first rate education and the necessary credentials to secure a prosperous future In 2013 almost a century later William Hite the city s superintendent announced that Germantown High was one of thirty seven schools slated for closure due to low academic achievement How is it that the school like so many others that serve low income students of color transformed in this way Erika M Kitzmiller links the saga of a single high school to the history of its local community its city and the nation Through a fresh longitudinal examination that combines deep archival research and spatial analysis Kitzmiller challenges conventional declension narratives that suggest American high schools have moved steadily from pillars of success to institutions of failures Instead this work demonstrates that educational inequality has been embedded in our nation s urban high schools since their founding The book argues that urban schools were never funded adequately Since the beginning of the twentieth century urban school districts lacked the tax revenues needed to operate their schools Rather than raising taxes these school districts relied on private philanthropy from families and communities to subsidize a lack of government aid Over time this philanthropy disappeared leaving urban schools with inadequate funds and exacerbating the level of educational inequality [The Black Diamond](#) ,1924 [The Invisible Sale](#) Tom Martin,2013-09-24 Build a High Impact Low Hassle Digital Sales Prospecting System That Works Hate cold calling Stop doing it Build a supercharged highly automated digital sales prospecting system that attracts more qualified leads shortens sales cycles and increases conversion rates painlessly In [The Invisible Sale](#) Tom Martin reveals techniques he s used to drive consistent double digit growth through good times and bad with no cold calling Martin s simple repeatable process helps you laser target all your marketing activities sales messages and sales calls based on what your prospects are actually telling you Martin boils complex ideas down to simple straightforward language real life case studies easy to understand templates and actionable solutions Discover the invisible funnel where self educated buyers are making decisions before you know they exist Leverage Funnel Optimized website design to identify your prospects key challenges before you ever speak to them Integrate social media content and email to optimize the entire prospecting process Make every sales call count with behaviorally targeted email prospecting Leverage Twitter Facebook and LinkedIn to efficiently prospect at scale Use the science of propinquity to choose outposts strategize social networking and drive offline campaigns Save money by rightsizing production quality to each marketing requirement Rapidly create keyword rich text content and use it widely to promote self qualification Create webinars and tutorials more easily and painlessly than you ever thought possible Choose low cost devices apps software and accessories for quickly creating high quality DIY media content Learn how to apply Aikido Selling Techniques to close self educated buyers [New York Magazine](#) ,1985-05-27 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to
