Magical Realism and the History of the Emotions in Latin America Jerónimo Arellano, 2015-05-21 Iconoclastic in spirit *Magical Realism and the History of the Emotions in Latin America* is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as *One Hundred Years of Solitude* Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought *Magical Realism and the History of the Emotions* draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture

Surrealist Ghostliness Katharine Conley, 2020-04-01 In this study of surrealism and ghostliness Katharine Conley provides a new unifying theory of surrealist art and thought based on history and the paradigm of puns and anamorphosis In *Surrealist Ghostliness* Conley discusses surrealism as a movement haunted by the experience of World War I and the repressed ghost of spiritualism From the perspective of surrealist automatism this double haunting produced a unifying paradigm of textual and visual puns that both pervades surrealist thought and art and commemorates the surrealists response to the Freudian unconscious Extending the gothic imagination inherited from the eighteenth century the surrealists inaugurated the psychological century with an exploration of ghostliness through doubles puns and anamorphosis revealing through visual activation the underlying coexistence of realities as opposed as life and death *Surrealist Ghostliness* explores examples of surrealist ghostliness in film photography painting sculpture and installation art from the 1920s through the 1990s by artists from Europe and North America from the center to the periphery

of the surrealist movement Works by Man Ray Claude Cahun Brassa and Salvador Dal Lee Miller Dorothea Tanning Francesca Woodman Pierre Alechinsky and Susan Hiller illuminate the surrealist ghostliness that pervades the twentieth century arts and compellingly unifies the century s most influential yet disparate avant garde movement *Angela Carter and Surrealism* Anna Watz,2016-07-15 In 1972 Angela Carter translated Xavi re Gauthier s ground breaking feminist critique of the surrealist movement *Surr alisme et sexualit* 1971 Although the translation was never published the project at once confirmed and consolidated Carter s previous interest in surrealism representation gender and desire and aided her formulation of a new surrealist feminist aesthetic Carter s sustained engagement with surrealist aesthetics and politics as well as surrealist scholarship aptly demonstrates what is at stake for feminism at the intersection of avant garde aesthetics and the representation of women and female desire Drawing on previously unexplored archival material such as typescripts journals and letters Anna Watz s study is the first to trace the full extent to which Carter s writing was influenced by the surrealist movement and its critical heritage Watz s book is an important contribution to scholarship on Angela Carter as well as to contemporary feminist debates on surrealism and will appeal to scholars across the fields of contemporary British fiction feminism and literary and visual surrealism

Mathematics in Twentieth-Century Literature and Art Robert Tubbs,2014-07-15 Chips away at the notion of an accidental relationship between math and art and literature During the twentieth century many artists and writers turned to abstract mathematical ideas to help them realize their aesthetic ambitions Man Ray Marcel Duchamp and perhaps most famously Piet Mondrian used principles of mathematics in their work Was it mere coincidence or were these artists simply following their instincts which in turn were ruled by mathematical underpinnings such as optimal solutions for filling a space If math exists within visual art can it be found within literary pursuits In short just what is the relationship between mathematics and the creative arts In this provocative original exploration of mathematical ideas in art and literature Robert Tubbs argues that the links are much stronger than previously imagined and exceed both coincidence and commonality of purpose Not only does he argue that mathematical ideas guided the aesthetic visions of many twentieth century artists and writers Tubbs further asserts that artists and writers used math in their creative processes even though they seemed to have no affinity for mathematical thinking In the end Tubbs makes the case that art can be better appreciated when the math that inspired it is better understood An insightful tour of the great masters of the last century and an argument that challenges long held paradigms *Mathematics in Twentieth Century Literature and Art* will appeal to mathematicians humanists and artists as well as instructors teaching the connections among math literature and art

A History of the Surrealist Novel Anna Watz,2023-02-16 *A History of the Surrealist Novel* offers a rich long and elastic historiography of the surrealist novel taking into consideration an abundance of texts previously left out of critical accounts Its twenty thematically organized chapters examine surrealist prose texts written in French English Spanish German Greek and Japanese from the emergence of the surrealist movement in the 1920s and 1930s

through the post war and postmodern periods and up to the contemporary moment This approach extends received narratives regarding surrealism s geographical locations and considers its transnational movement and modes of circulation Moreover it challenges critical biases that have defined surrealism in predominantly masculine terms and which tie the movement to the interwar or early post war years This book will appeal both to scholars and students of surrealism and its legacies modernist literature and the history of the novel *Surrealist sabotage and the war on work* Abigail

Susik,2021-10-12 In *Surrealist sabotage and the war on work* art historian Abigail Susik uncovers the expansive parameters of the international surrealist movement s ongoing engagement with an aesthetics of sabotage between the 1920s and the 1970s demonstrating how surrealists unceasingly sought to transform the work of art into a form of unmanageable anti work In four case studies devoted to surrealism s transatlantic war on work Susik analyses how artworks and texts by Man Ray Andr Breton Simone Breton Andr Thirion scar Dom nguez Konrad Klapheck and the Chicago surrealists among others were pivotally impacted by the intransigent surrealist concepts of principled work refusal permanent strike and autonomous pleasure Underscoring surrealism s profound relevance for readers engaged in ongoing debates about gendered labour and the wage gap endemic over work and exploitation and the vicissitudes of knowledge work and the gig economy *Surrealist sabotage and the war on work* reveals that surrealism s creative work refusal retains immense relevance in our wired world

Reading Claude Cahun's Disavowals JenniferL. Shaw,2017-07-05 The first monograph on a Surrealist cult classic *Reading Claude Cahun s Disavowals* offers a comprehensive account of Cahun s most important published work *Aveux non avenues* *Disavowals* 1930 Jennifer L Shaw provides an encompassing interpretation of this groundbreaking work paying careful attention to the complex interrelationship between the photomontages and writings of *Aveux non avenues* This study argues that the texts and images of *Aveux non avenues* not only explore Cahun s own subjectivity they formulate a trenchant social and cultural critique Shaw explores how Cahun s work both calls into question the dominant culture of interwar France with its traditional gender roles religious conservatism and pronatalism and takes to task the era s artistic avant garde and in particular its models of desire This volume cuts across the disciplinary boundaries of interwar art studies demonstrating how one artist s personal exploration intervened in wider contemporary debates about the purpose of art the role of women in French culture and the status of homosexuality in the aftermath of World War I *Voices of Negritude in Modernist Print* Carrie Noland,2015-04-28 Carrie Noland approaches Negritude as an experimental text based poetic movement developed by diasporic authors of African descent through the means of modernist print culture Engaging primarily the works of Aim C saire and L on Gontran Damas Noland shows how the demands of print culture alter the personal voice of each author transforming an empirical subjectivity into a hybrid textual entity that she names after Theodor Adorno an aesthetic subjectivity This aesthetic subjectivity transmitted by the words on the page must be actualized performed reiterated and created anew by each reader at each occasion of reading Lyric writing and lyric reading therefore

attenuate the link between author and phenomenalized voice Yet the Negritude poem insists upon its connection to lived experience even as it emphasizes its printed form Ironically a purely formalist reading would have to ignore the ways formal and not merely thematic elements point toward the poem's own conditions of emergence Blending archival research on the historical context of Negritude with theories of the lyric voice Noland argues that Negritude poems present a challenge to both form based deconstructive theories and identity based theories of poetic representation Through close readings she reveals that the racialization of the author places pressure on a lyric regime of interpretation obliging us to reconceptualize the relation of author to text in poetries of the first person **Rain Taxi Review of Books**, 2004 **Gertrude Stein's**

Surrealist Years Ery Shin, 2020-06-23 Examines how surrealism enriches our understanding of Stein's writing through its poetics of oppositions Gertrude Stein's Surrealist Years brings to life Stein's surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti-Semitism Stein's earlier works such as Tender Buttons and Lucy Church Amiable tend to prioritize formal innovations over narrative building and overt political motifs However Ery Shin argues that Stein's later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with The Autobiography of Alice B. Toklas and continuing in later works Stein renders legible her war-torn era's jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgangers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein's return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein's art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler's Europe how outliers like Stein can be included in the surrealist project surrealism's theoretical bind in the face of WWII and the age-old question of artistic legacy

Surrealism and the Art of Crime Jonathan Paul Eburne, 2008 Corpses mark surrealism's path through the twentieth century providing material evidence of the violence in modern life Though the shifting group of poets artists and critics who made up the surrealist movement were witness to total war revolutionary violence and mass killing it was the tawdry reality of everyday crime that fascinated them Jonathan P. Eburne shows us how this focus reveals the relationship between aesthetics and politics in the thought and artwork of the surrealists and establishes their movement as a useful platform for addressing the contemporary problem of violence both individual and political In a book strikingly illustrated with surrealist artworks and their sometimes gruesome source material Eburne addresses key individual works by both better known surrealist writers and artists including Andr  Breton Louis Aragon Aim  C. Saire Jacques Lacan Georges Bataille Max Ernst and Salvador Dal  and lesser known figures such as Ren  Crevel Simone Breton Leonora Carrington Benjamin Peret and Jules

Monnerot For Eburne the art of crime denotes an array of cultural production including sensationalist journalism detective mysteries police blotters crime scene photos and documents of medical and legal opinion as well as the roman noir in particular the first crime novel of the American Chester Himes The surrealists collected and scrutinized such materials using them as the inspiration for the outpouring of political tracts pamphlets and artworks through which they sought to expose the forms of violence perpetrated in the name of the state its courts and respectable bourgeois values Concluding with the surrealists quarrel with the existentialists and their bitter condemnation of France s anticolonial wars Surrealism and the Art of Crime establishes surrealism as a vital element in the intellectual political and artistic history of the twentieth century

Beyond Given Knowledge Harri Veivo,Jean-Pierre Montier,Françoise Nicol,David Ayers,Benedikt Hjartarson,Sascha Bru,2017-12-18 The effort to go beyond given knowledge in different domains artistic scientific political metaphysical is a characteristic driving force in modernism and the avant gardes Since the late 19th century artists and writers have frequently investigated their medium and its limits pursued political and religious aims and explored hitherto unknown physical social and conceptual spaces often in ways that combine these forms of critical inquiry into one and provoke further theoretical and methodological

innovations The fifth volume of the EAM series casts light on the history and actuality of investigations quests and explorations in the European avant garde and modernism from the late 19th century to the present day The authors seek to answer questions such as How have modernism and the avant garde appropriated scientific knowledge religious dogmas and social conventions pursuing their investigation beyond the limits of given knowledge and conceptions How have modernism and avant garde created new conceptual models or representations where other discourses have allegedly failed In what ways do practises of investigation quest or exploration shape artistic work or the formal and thematic structures of artworks

Glory in a Line Phyllis Birnbaum, 2007-11-13 The first biography in English of the Japanese artist who was a central figure in the dazzling artistic milieu of 1920s Paris When we think of expatriates in Paris during the early decades of the twentieth century certain names come to mind Hemingway Picasso Modigliani and Fougita the Japanese artist whose distinctive works bringing elements of Japanese art to Western oil painting made him a major cultural figure in 1920s Montparnasse Fougita was the only Japanese artist to be considered part of the School of Paris which also counted among its members such prominent artists as Picasso and Modigliani Noteworthy too was Fougita s personal style flamboyant even for those flamboyant times He was best known for his drawings of female nudes and cats and for his special white color upon which he could draw a masterful line one that seemed to outline a woman s whole body in a single unbroken stroke With the advent of the Second World War Fougita returned to Japan where he allied himself with the ruling Japanese militarists and painted canvases in support of the war effort After Japan s defeat he was scorned for his devotion to the military cause and returned to France where he remained until his death in 1968 Acclaimed writer and translator Phyllis Birnbaum not only explores Fougita s fascinating tumultuous life but also assesses the appeal of his paintings which in their mixture of Eastern and Western traditions are memorable for their vibrancy of form and purity of line **Love and Sexuality** Sarah F.

postmodern experiments that have intended to blur the boundary between art and life Moving freely between disciplines Katarzyna Zimna links the theory and history of 20th and 21st century art with ideas developed within play game and leisure studies and the philosophical theories of Kant Gadamer and Derrida to critically engage with current discussion on the role of the artist viewers curators and their spaces of encounter She combines a consideration of the philosophical implications of play with the examination of how it is actually used in modern and postmodern art looking at Dada Surrealism Fluxus and Relational Aesthetics Focusing mainly on process based art this bold book proposes a fresh approach reaching beyond classical cultural theories of play
