Gregory Hooks

Science In The Modern World Polity Institutionalization And Globalization:

Science in the Modern World Polity Gili S. Drori, 2003 This work uses cross national and longitudinal empirical research to explain the rise nature and impact of science as an authoritative worldwide institution The authors analyze the ever increasing investment in science the diffusion of scientific discourse and the hegemony of scientific organizations

The SAGE Handbook of Organizational Institutionalism Royston Greenwood, Christine Oliver, Roy Suddaby, Kerstin Sahlin-Andersson, 2013-03-26 Institutional theory lies at the heart of organizational theory yet until now no book has successfully taken stock of this important and wide ranging theoretical perspective With insight and clarity the editors of this handbook have collected and arranged papers so readers are provided with a map of the field and pointed in the direction of new and emerging themes The academics who have contributed to this handbook are respected internationally and represent a cross section of expert organization theorists sociologists and political scientists Chapters are a rich mix of theory how to conduct institutional organizational analysis and empirical work The SAGE Handbook of Organizational Institutionalism will change how researchers teachers and advanced students think about organizational institutionalism

The Religion and Science Debate Harold W. Attridge, 2009-09-01 Eighty one years after America witnessed the Scopes trial over the teaching of evolution in public schools the debate between science and religion continues In this book scholars from a variety of disciplines sociology history science and theology provide new insights into the contemporary dialogue as well as some perspective suggestions for delineating the responsibilities of both the scientific and religious spheres Why does the tension between science and religion continue How have those tensions changed during the past one hundred years How have those tensions impacted the public debate about so called intelligent design as a scientific alternative to evolution With wit and wisdom the authors address the conflict from its philosophical roots to its manifestations within American culture In doing so they take an important step toward creating a society that reconciles scientific inquiry with the human spirit This book which marks the one hundredth anniversary of The Terry Lecture Series offers a unique perspective for anyone interested in the debate between science and religion in America

The Sociology of Development Handbook Gregory Hooks, 2016-09-06 The Sociology of Development Handbook gathers essays that reflect the range of debates in development sociology and in the interdisciplinary study and practice of development The essays address the pressing intellectual challenges of today including internal and international migration transformation of political regimes globalization changes in household and family formations gender dynamics technological change population and economic growth environmental sustainability peace and war and the production and reproduction of social and economic inequality

Global Culture: Consciousness and Connectivity Roland Robertson, Didem Buhari-Gulmez, 2017-05-15 The current discourse of globalization is overwhelmingly centred upon the interconnectedness or connectivity of the contemporary world to the great neglect of the issues of global culture and global consciousness With contemporary worldwide culture increasingly characterized by such themes as

astronomy cosmology space travel and exploration there is an increasing disjuncture between academic concern with connectivity on the one hand and culture and consciousness of the place of planet earth in the cosmos as a whole on the other This book addresses this deficiency from a variety of closely related perspectives presenting studies of religion science sport international organizations global resistance movements and migrations and developments in East Asia It brings together the latest theoretical empirical work from scholars in the US UK Australia Japan China and Israel on the significance of culture and global consciousness As such Global Culture Consciousness and Connectivity will be of great interest to scholars across and beyond the social sciences working in the areas of global studies cultural studies social theory the sociology of religion and related issues Mobilizing Regions, Mobilizing Europe Sebastian M. Buettner,2013-10-23 Regional development strategies are becoming more similar all around Europe even though regional differences are more pronounced than ever and many European regions have become more autonomous actors This thesis of a peculiar standardized diversification of sub national space in the modern European Union is the point of departure of this book Based upon the analytical premises of Stanford School Sociological Institutionalism Sebastian M B ttner studies regional mobilization in contemporary Europe from a new and innovative perspective He highlights the importance of scientific expertise and global scientific models in contemporary regional development practice and exemplifies their significance with the example of region building in Poland in the course of EU integration This new wave of regional mobilization is not just conceived as an effect of local national or European politics but as an expression of a larger conceptual shift in governing society and space This well researched and clearly argued book not only provides fresh insights into region building and regionalization in contemporary European space but also contributes to the new sociology of Europeanization It will be an illuminating read for scholars and students in Sociology European and EU studies International Relations Cultural Studies Geography Regional Science Polish Studies and related subject areas **An Age of Limits** R. Schroeder,2013-06-11 An Age of Limits outlines a new social theory for understanding contemporary society Providing an analysis of why political economic and cultural powers face constraints across the global North and beyond this bold book argues that forces which address current challenges must confront the limits of the interplay between dominant institutions **The Impact of Comparative Education Research on Institutional Theory** David P. Baker,Alexander W. Wiseman,2006-07-17 Explores how educational research from a comparative perspective has been instrumental in broadening and testing hypotheses from institutional theory This book contains theoretical discussions of the impact that comparative research has had on institutional theory and comparative scholarship that tests basic institutional assumptions and trends **The Palgrave International Handbook of Higher Education Policy and Governance** Jeroen Huisman,Harry de Boer,David D. Dill,Manuel Souto-Otero,2016-04-29 This state of the art reference collection addresses the major themes theories and key concepts related to higher education policy and governance on an international scale in one accessible volume Mapping the field and showcasing current research

and theorizations from diverse perspectives and authoritative scholars this essential guide will assist readers in navigating the myriad concepts and themes involved in higher education policy and governance research and practice Split into two sections the first explores a range of policy concepts theories and methods including governance models policy instruments institutionalism and organizational change new public management and multi level governance The second section addresses salient themes such as institutional governance funding quality employability accountability university rankings widening participation gender inequalities technology student involvement and the role of higher education in society Global in its perspective and definitive in content this one stop volume will be an indispensable reference resource for a wide range of academics students and researchers in the fields of education education policy sociology social and public policy political science and for leadership

Epistemic Communities, Constructivism, and International Environmental Politics

Peter Haas, 2015-08-20 *Epistemic Communities Constructivism and International Environmental Politics* brings together 25 years of publications by Peter M Haas The book examines how the world has changed significantly over the last 100 years discusses the need for new constructivist scholarship to understand the dynamics of world politics and highlights the role played by transnational networks of professional experts in global governance Combining an intellectual history of epistemic communities with theoretical arguments and empirical studies of global environmental conferences as well as international organizations and comparative studies of international environmental regimes this book presents a broad picture of social learning on the global scale In addition to detailing the changes in the international system since the Industrial Revolution Haas discusses the technical nature of global environmental threats Providing a critical reading of discourses about environmental security this book explores governance efforts to deal with global climate change international pollution control stratospheric ozone and European acid rain With a new general introduction and the addition of introductory pieces for each section this collection offers a retrospective overview of the author's work and is essential reading for students and scholars of environmental politics international relations and global politics

National Relations Nikolas Glover, 2011-01-01

In Stockholm in January 1945 an assembly of Swedish diplomats and businessmen initiated an organisation that was to improve the country's reputation abroad The new semi governmental Swedish Institute was charged with explaining Sweden's policy of neutrality during the war encouraging peace building and promoting foreign trade in the new international world order But how was all this to be achieved In this book historian Nikolas Glover analyses the policies funding and national narratives of the Swedish Institute He provides a historical perspective on the politics of promoting Swedish culture abroad and on how ideas of communication shaped the Institute's work and its representations of Sweden His wide ranging analysis addresses the specific conditions of small state public diplomacy the influential domestic interests involved as well as the global context that dictated the ways in which claims to national uniqueness were framed

Science-Mart Philip

Mirowski, 2011-04-29 This trenchant study analyzes the rise and decline in the quality and format of science in America since

World War II Science Mart attributes this decline to a powerful neoliberal ideology in the 1980s which saw the fruits of scientific investigation as commodities that could be monetized rather than as a public good

Annual Review of Comparative and International Education 2023 Alexander W. Wiseman, 2024-12-11 The chapters presented in the Annual Review of Comparative and International Education 2023 cover extensive perspectives from around the world on topics such as trends and directions conceptual and methodological developments research to practice regional developments and diversification of the field

Institutional Theory Ronald L. Jepperson, John W. Meyer, 2021-04-01 Over the past three decades Meyer Jepperson and colleagues have contributed to the development of one of the leading approaches in social theory by analyzing the cultural frameworks that have shaped modern organizations states and identities Bringing together key articles and new reflections this volume collects the essential theoretical ideas of sociological neoinstitutionalism It clarifies the core ideas and situates them within social theory writ large Among other topics the authors discuss the changing nature of the actors that have operated within contemporary social structure The book concludes with the evolving frameworks that have structured social activity in the post World War II period of embedded liberalism in the more recent neoliberal period and in an emergent post liberal period that appears to be a radical departure

Research Handbook on Nonprofit Governance Donnelly-Cox, Gemma, Meyer, Michael, Wijkström, Filip, 2021-12-07 This multi perspective Research Handbook provides a clear pathway through the nonprofit governance research field pushing beyond the borders of current theory to expand and deepen the analytical framework for nonprofit governance It offers an analysis of the basics including definitions organizational forms and levels of governance and takes a critical approach towards the normative and prescriptive tendencies in much of contemporary governance scholarship

Research Handbook on Intellectual Property and Technology Transfer Jacob H. Rooksby, 2020-02-28 Written by leading experts from across the world this Handbook expertly places intellectual property issues in technology transfer into their historical and political context whilst also exploring and framing the development of these intersecting domains for innovative universities in the present and the future

Handbook of Social Psychology Jan E. Stets, Karen A. Hegtvedt, Long Doan, 2025-08-31 This third edition of the highly successful handbook is presented for the first time in two volumes covering the field of social psychology more comprehensively than earlier including applying social psychology to different areas in sociology It showcases the dynamics of social psychological phenomena across the micro level Volume 1 and meso and macro levels of social reality Volume 2 The reader will see how social psychology can be leveraged at the interactive level within groups and larger units and across many aspects of society thus showing the expansiveness of social psychology in understanding social behavior social organization and social structures Volume 2 highlights the relevance of social psychological principles and processes to social categories groups and organizations at the meso level and to institutions and inequality that reflect social life at the macro level Chapters pertaining to the meso level analyze individuals memberships in social categories such as gender race

class age and sexuality Additionally meso level concerns spotlight the context of work and organizations Chapters at the macro level consider social psychologically oriented work in such institutions as the family education and religion and examine other areas such as crime and deviance the media immigration and health Together the two volumes provide the reader with theoretical tools useful in understanding the basics of individual behavior while highlighting how social psychological processes emerge in a variety of contexts The connections among micro meso and macro levels through the lens of social psychology forge new pathways to understanding the various forms of inequality plaguing the social world

Private Universities in Latin America G. Gregorutti,J. Delgado,2015-05-05 Using policy analysis and case study approaches Private Universities in Latin America examines the significant amounts of research and innovation being made available from private universities in Latin America
