Postcolonial Approaches to Latin American Children's Literature Ann González, 2018-01-31 In this volume González explores how the effects of a traumatic colonial experience are re-presented to Latin American children today almost two centuries after the dismantling of colonialism proper Central to this study is the argument that the historical constraints of colonialism neocolonialism and postcolonialism have generated certain repeating themes and literary strategies in children's literature throughout the Spanish speaking Americas From the outset of Spanish domination fundamental tensions emerged between the colonizers and native groups that still exist to this day Rather than a felicitous mixing of these two opposing groups the mestizo is caught between contrasting worldviews contending explanations of reality and different values beliefs and epistemologies that is different ways of seeing and knowing Postcolonial subjects experience these contending cultural beliefs and practices as a double bind a no win situation in which they feel pressured by mutually exclusive expectations and imperatives Latin American mestizos therefore are inevitably conflicted Despite the vastness of the geography in question and the innumerable variations in regional histories oral traditions and natural settings these contradictory demands create a pervasive dynamic that penetrates the very fabric of society showing up intentionally or not in the stories passed from generation to generation as well as in new stories written or adapted for Spanish speaking children The goal of this study therefore is to examine a variety of children's texts from the region to determine how national and hemispheric perceptions of reality identity and values are passed to the next generation This book will appeal to scholars in the fields of Latin American literary and cultural studies children's literature postcolonial studies and comparative literature

plantea tratando de resolverlas desde la indagación de los enclaves fundamentales del sector implicado y mediante el análisis sociocrítico de algunas de sus producciones literarias consideradas como sintomáticas de sus procesos identitarios tanto en la sincronía como en la diacronía. Un enfoque renovador tendiente a compensar vacíos estructurales de la historia oficial y a combatir algunos prejuicios muy arraigados en el pensamiento como por ejemplo la afirmación de la no existencia de culturas relevantes en la zona durante el período prehispánico o la atribución de un sentido nico en la dirección Norte Sur y Este Oeste al avance civilizatorio. Una meritoria contribución para el necesario trazado de un nuevo mapa cultural de América.
