La sobrecogedora *Tan triste como ella* 1963 abre el ciclo de madurez de las nouvelles de Juan Carlos Onetti que recorre los cuarenta años transcurridos hasta su último libro *Cuando ya no importe* 1993. *a caballo de La muerte y la niña* a 1973 y *Cuando entonces* 1987. Es en estas páginas que el genial escritor alcanza su plenitud creativa y afina las obsesiones que destila toda su obra. Sus personajes deambulan como barcos sin rumbo ni estela hasta perderse en la vastedad de un universo sombrío y abrumador en el que asoma el humo y las botellas vacías de un Onetti hastiado que supo intuir mejor que nadie el persistente naufragio del mundo. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics. The region's experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles. In turn Latin America's challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy, about the relationship between state and society, about the nature of citizenship, about the balance between state and market. The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field. The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship. Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage, new original research and a cutting edge examination of the central areas of inquiry in the region. *Military Politics and Democracy in the Andes* Maiah Jaskoski, 2013-08-15

Interviews with active duty and retired military officers in Ecuador and Peru shed light on the evolution of Andean civil-military relations with implications for democratization. Military Politics and Democracy in the Andes challenges conventional theories regarding military behavior in post-transition democracies. Through a deeply researched comparative analysis of the Ecuadorian and Peruvian armies, Maiah Jaskoski argues that militaries are concerned more with the predictability of their missions than with sovereignty objectives set by democratically elected leaders. Jaskoski gathers data from interviews with public officials, private sector representatives, journalists and more than 160 Peruvian and Ecuadorian officers from all branches of the military. The results are surprising. Ecuador's army, for example, fearing the uncertainty of border defense against insurgent encroachment in the north, neglected this duty thereby sacrificing the state's security goals acting against government orders and challenging democratic consolidation. Instead of defending the border, the army has opted to carry

out policing functions within Ecuador such as combating the drug trade Additionally by ignoring its duty to defend sovereignty the army is available to contract out its policing services to paying private companies that relative to the public benefit disproportionately from army security Jaskoski also looks briefly at this theory s implications for military responsiveness to government orders in democratic Bolivia Colombia and Venezuela and in newly formed democracies more broadly

**Diccionario de agricultura, zootecnia y veterinaria** Augusto Matons,1928     **The Markets for Force** Molly Dunigan,Ulrich Petersohn,2015-01-21 The Markets for Force examines and compares the markets for private military and security contractors in twelve nations Argentina Guatemala Peru Ecuador the United Kingdom the Czech Republic Ukraine Russia Afghanistan China Canada and the United States Editors Molly Dunigan and Ulrich Petersohn argue that the global market for force is actually a conglomeration of many types of markets that vary according to local politics and geostrategic context Each case study investigates the particular characteristics of the region s market how each market evolved into its current form and what consequence the privatized market may have for state military force and the provision of public safety The comparative standpoint sheds light on better known markets but also those less frequently studied such as the state owned and managed security companies in China militaries working for private sector extractive industries in Ecuador and Peru and the ways warlord forces overlap with private security companies in Afghanistan An invaluable resource for scholars and policymakers alike The Markets for Force offers both an empirical analysis of variations in private military and security companies across the globe and deeper theoretical knowledge of how such markets develop Contributors Olivia Allison Oldrich Bures Jennifer Catallo Molly Dunigan Scott Fitzsimmons Maiah Jaskoski Kristina Mani Carlos Ortiz Ulrich Petersohn Jake Sherman Christopher Spearin
