Lost And Found The Adventures Of Aniu In Alaska:

Lost and Found Teresa Walsh, Jacqui Ertischek, 2003-10-01 *Adventure* ,1922 **Hawai'i's Russian Adventure** Peter R. Mills, 2002-02-28 In the early 1800s thousands of American and European traders arrived in Hawai i to lay in supplies for the long trip east or to take on Hawaiian sandalwood which commanded a high price in China In response to this developing global economy in the Pacific Russia expanded its trading outposts as far as western Kaua i and together with Kaua i chiefs began planning the construction of Fort Elisabeth in Waimea in 1816 A year later the structure was abandoned by the Russians but as Peter Mills argues convincingly a long and significant history of the fort remains to be told even after its Russian one had ended Seeking to redress the imbalance that exists between the colonized and the colonizers in Pacific historiography Mills examines the fort and its place in the history of Kaua i under paramount chief Kaumuali i and in relation to the expanding kingdom of Kamehameha and his successors His work exposes how Hawaiians have been ignored in their own history and challenges commonly held assumptions such as Kamehameha s unification of the Islands in 1810 and the victimization of Kaumuali i by representatives of the Russian American Company Using hundreds of firsthand accounts in combination with field archaeology Mills shows that the fort was originally built and used by Hawaiians as a heiau ritual temple After the Russians departure Hawaiians continued to use the fort but in ways that reflected an ongoing transformation of cultural values provoked by contact with outsiders and the development of multiethnic communities in Waimea and other port settlements throughout the Hawaiian chain Hawai i s *Russian Adventure* is an original look at a significant chapter in the history of Hawai i It overturns many popular myths and perceptions about the fort at Waimea and about European and Hawaiian interaction in the first half of the nineteenth century while delving into some of the central issues in historical anthropology colonialism and the development of global networks **The Interior** ,1919 Issues for Jan 12 1888 Jan 1889 include monthly Magazine supplement **The English Catalogue of Books [annual]**. Sampson Low, 1905 Vols 1898 include a directory of publishers **The Chinook Indians** Robert H. Ruby, John A. Brown, 1976 The Chinook Indians who originally lived at the mouth of the Columbia River in present day Oregon and Washington were experienced traders long before the arrival of white men to that area When Captain Robert Gray in the ship *Columbia Rediviva* for which the river was named entered the Columbia in 1792 he found the Chinooks in an important position in the trade system between inland Indians and those of the Northwest Coast The system was based on a small seashell the dentalium as the principal medium of exchange The Chinooks traded in such items as sea otter furs elkskin armor which could withstand arrows seagoing canoes hollowed from the trunks of giant trees and slaves captured from other tribes Chinook women held equal status with the men in the trade and in fact the women were preferred as traders by many later ships captains who often feared and distrusted the Indian men The Chinooks welcomed white men not only for the new trade goods they brought but also for the new outlets they provided Chinook goods which reached Vancouver Island and as far

north as Alaska The trade was advantageous for the white men too for British and American ships that carried sea otter furs from the Northwest Coast to China often realized enormous profits Although the first white men in the trade were seamen land based traders set up posts on the Columbia not long after American explorers Lewis and Clark blazed the trail from the United States to the Pacific Northwest in 1805 John Jacob Astor s men founded the first successful white trading post at Fort Astoria the site of today s Astoria Oregon and the North West Company and the Hudson s Bay Company soon followed into the territory As more white men moved into the area the Chinooks began to lose their favored position as middlemen in the trade Alcohol new diseases such as smallpox influenza and venereal disease intertribal warfare and the growing number of white settlers soon led to the near extinction of the Chinooks By 1 51 when the first treaty was made between them and the United States government they were living in small fragmented bands scattered throughout the territory Today the Chinook Indians are working to revive their tribal traditions and history and to establish a new tribal economy within the white man s system **Annual Report** Arlington (Mass.),1898 **Russia and Japan in the Sea of Okhotsk** Scott C.M.

Bailey,2023-12-01 Bailey describes how the Sea of Okhotsk area became integrated into a world system of economic and cultural ties between the seventeenth and nineteenth centuries This happened primarily because of maritime explorations travel and trade which led to increased connections with both Russia and Japan Individual chapters of the book provide analyses of historical sources which describe cross cultural encounters and changes in the Sea of Okhotsk area This includes analyses of explorers and travelers who traversed the region for commerce exploration diplomacy and possible colonization Historical sources are explored from the different perspectives of Russians Japanese Indigenous peoples and international observers from Western countries Cross cultural encounters in the region among these groups led to collaboration syncretism and resistance sometimes violent and sometimes peaceful The last chapter discusses how some international travelers and foreign residents of Hokkaid described the area at the end of the nineteenth century Their perspectives confirm that Hokkaid had become a fully colonized space An essential resource for students and scholars of cross cultural studies Russian history Japanese history and Ainu and Indigenous history The English Catalogue of Books [annual]. ,1910 Vols 1898 include a directory of publishers **The English Catalogue of Books ...** Sampson Low,1902 General Catalogue of the Standard Reading Club in Conjunction with the Booklovers Library ... ,1906 **The Geographical Journal** ,1911 Includes the Proceedings of the Royal geographical society formerly pub separately Catalogue of books in the lending department of the South Audley street library London St. George, Hanover sq, publ. libr,1895 Empire of Dogs Aaron Skabelund,2011-12-15 In 1924 Professor Ueno Eizaburo of Tokyo Imperial University adopted an Akita puppy he named Hachiko Each evening Hachiko greeted Ueno on his return to Shibuya Station In May 1925 Ueno died while giving a lecture Every day for over nine years the Akita waited at Shibuya Station eventually becoming nationally and even internationally famous for his purported loyalty A year before his death in 1935 the city of Tokyo erected a statue of Hachiko outside the

station The story of Hachiko reveals much about the place of dogs in Japan's cultural imagination In the groundbreaking *Empire of Dogs* Aaron Herald Skabelund examines the history and cultural significance of dogs in nineteenth and twentieth century Japan beginning with the arrival of Western dog breeds and new modes of dog keeping which spread throughout the world with Western imperialism He highlights how dogs joined with humans to create the modern imperial world and how in turn imperialism shaped dogs bodies and their relationship with humans through its impact on dog breeding and dog keeping practices that pervade much of the world today In a book that is both enlightening and entertaining Skabelund focuses on actual and metaphorical dogs in a variety of contexts the rhetorical pairing of the Western colonial dog with native canines subsequent campaigns against indigenous canines in the imperial realm the creation maintenance and in some cases restoration of Japanese dog breeds including the Shiba Inu the mobilization of military dogs both real and fictional and the emergence of Japan as a pet superpower in the second half of the twentieth century Through this provocative account Skabelund demonstrates how animals generally and canines specifically have contributed to the creation of our shared history and how certain dogs have subtly influenced how that history is told Generously illustrated with both color and black and white images *Empire of Dogs* shows that human canine relations often expose how people especially those with power and wealth use animals to define regulate and enforce political and social boundaries between themselves and other humans especially in imperial contexts

The History of Human Marriage Edward Westermarck, 1922 [The History of human marriage v. 2](#) Edward Westermarck, 1922 *Harmsworth Natural History*, 1910 [Doubleday's Encyclopedia ...](#) Arthur Elmore Bostwick, Asa Don Dickinson, 1931 *Antarctica* David Day, 2013-06-03 Since the first sailing ships spied the Antarctic coastline in 1820 the frozen continent has captured the world's imagination David Day's brilliant biography of Antarctica describes in fascinating detail every aspect of this vast land's history two centuries of exploration scientific investigation and contentious geopolitics Drawing from archives from around the world Day provides a sweeping large scale history of Antarctica Focusing on the dynamic personalities drawn to this unconquered land the book offers an engaging collective biography of explorers and scientists battling the elements in the most hostile place on earth We see intrepid sea captains picking their way past icebergs and pushing to the edge of the shifting pack ice sanguinary sealers and whalers drawn south to exploit the Penguin El Dorado famed nineteenth century explorers like Scott and Amundson in their highly publicized race to the South Pole and aviators like Clarence Ellsworth and Richard Byrd flying over great stretches of undiscovered land Yet Antarctica is also the story of nations seeking to incorporate the Antarctic into their national narratives and to claim its frozen wastes as their own As Day shows in a place as remote as Antarctica claiming land was not just about seeing a place for the first time or raising a flag over it it was about mapping and naming and more generally knowing its geographic and natural features And ultimately after a little known decision by FDR to colonize Antarctica claiming territory meant establishing full time bases on the White Continent The end of the Second World War would see one

last scramble for polar territory but the onset of the International Geophysical Year in 1957 would launch a cooperative effort to establish scientific bases across the continent And with the Antarctic Treaty science was in the ascendant and cooperation rather than competition was the new watchword on the ice Tracing history from the first sighting of land up to the present day Antarctica is a fascinating exploration of this deeply alluring land and man's struggle to claim it *Kipling's Japan* Hugh Cortazzi, George Webb, 2013-12-17 Kipling visited Japan in 1889 and 1892 No other leading English literary figure of his day spent so long in that country or wrote so fully about it Kipling's newspaper dispatches from Japan were described by the great Japanologist Basil Han Chamberlain as the most graphic even penned by a globetrotter These vivid pen pictures together with Kipling's other writings about Japan are now collected by Sir Hugh Cortazzi and George Webb carefully edited with an introduction and Notes First published in 1988 this title is part of the Bloomsbury Academic Collections series
