MYTHS AND LEGENDS OF THE NORSE HENRY ROMANO, 2021-03-06 Once there was another Sun and another Moon a different Sun and a different Moon from the ones we see now Sol was the name of that Sun and Mani was the name of that Moon Nevertheless always behind Sol and Mani wolves went a wolf behind each The wolves caught on them at last and they devoured Sol and Mani And then the world was in darkness and cold In those times the Gods lived Odin and Thor H dur and Baldur Tyr and Heimdall Vidar and Vali and Loki the doer of a good doer of evil Moreover the beautiful Goddesses lived then Frigga Freya Nanna Iduna and Sif Nevertheless in the days when the Sun and Moon were destroyed the Gods were destroyed too all the Gods except Baldur who had died before that time Vidar and Vali the sons of Odin and Modi and Magni the sons of Thor At that time too there were men and women in the world However before the Sun and the Moon were devoured and before the Gods were destroyed terrible things happened in the world Snow fell on the four corners of the earth and kept on falling for three seasons Winds came and blew everything away Moreover the people of the world who had lived on despite the snow and the cold and the winds fought each other brother killing brother until all the people were destroyed

Subcreation:

Fictional-World Construction from J.R.R. Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26

The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as well as on the reader s acceptance of this invented fictional world The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader s immersion in the fictional world The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories Language and Linguistic Variation Physiopoeia Anthropoeia and Mythopoeia Furthermore this thesis shows that as contemporary examples of fantastic literature both Tad Williams s and Terry Pratchett s fictional worlds are successfully created through the realization of these aspects of Subcreation Apart from commenting on the success of the subcreative process this thesis also remarks upon the cultural influences both authors include in their writings While both may be considered Anglophone in a general categorization Pratchett s Discworld retains a feeling of Britishness that is not to be found in Williams s Otherland The thesis proposes several approaches to Subcreation that may be studied subsequently So for example it may be possible to determine the

success of an author's Subcreation by collecting empirical data Apart from literary works this field of studies may also include other media

Pagan Portals - Freya Morgan Daimler, 2023-08-25 Morgan Daimler has gifted us with a well crafted and engaging introduction to the Goddess Freya Truly a must read for anyone interested in or already working with this powerful and intriguing Goddess

Ceri Norman author of *A Beginner's Guide to Ogham Divination* and *Faerie Stones* The most popular of the Norse goddesses is the Vanic deity Freya found across the Norse myths and into modern mass media yet often obscured by contradictory tales and external moral coding Freya is an alluring deity of magic and fertility a being so important in the mythology that gods and giants fought over her yet she is never shown as a passive prize to be won only as a forceful being with agency and will of her own Who is this powerful goddess who has left such a profound mark across not only Norse culture but also wider Western culture

Pagan Portals Freya is a basic introduction to the Norse Goddess Freya that covers her history mythology associations and modern appearances and offers readers suggestions for how to begin connecting to Freya in their own lives

spiritual beings and develop spirit work relationships with them *Norse Revival* Stefanie von Schnurbein, 2016-01-12

Norse Revival offers a thorough investigation of Germanic Neopaganism Asatru through an international and comprehensive historical perspective It traces Germanic Neopaganism's genesis in German ultra nationalist and occultist movements around 1900 Based on ethnographic research of contemporary groups in Germany Scandinavia and North America the book examines this alternative Neopagan religion's transformations towards respectability and mainstream thought after the 1970s It asks which regressive and progressive elements of a National Romantic discourse on Norse myth have shaped Germanic Neopaganism It demonstrates how these ambiguous ideas about Nordic myth permeate general discourses on race religion gender sexuality and aesthetics Ultimately *Norse Revival* raises the question whether Norse mythology can be freed from its reactionary ideological baggage *Interfaces Between Language and Culture in Medieval England* Alaric Hall, 2010-01-01

The twelve articles in this volume promote the growing contacts between medieval linguistics and medieval cultural studies generally Articles address medieval English linguistics and the interrelation in Anglo Saxon England between Latin and vernacular language and culture *Iron Age Myth and Materiality* Lotte Hedeager, 2011-04-29

Iron Age Myth and Materiality an Archaeology of Scandinavia AD 400-1000 considers the relationship between myth and materiality in Scandinavia from the beginning of the post Roman era and the European Migrations up until the coming of Christianity It pursues an interdisciplinary interpretation of text and material culture and examines how the documentation of an oral past relates to its material embodiment While the material evidence is from the Iron Age most Old Norse texts were written down in the thirteenth century or even later With a time lag of 300 to 900 years from the archaeological evidence the textual material has until recently been ruled out as a usable source for any study of the pagan past However Hedeager argues that this is true regarding any study of a society's short term history but it should not be the crucial requirement for defining the sources relevant for studying long term structures of the *longue durée* or their potential contributions to a theoretical understanding of cultural changes and transformation In Iron Age Scandinavia we are dealing with persistent and slow changing structures of worldviews and ideologies over a wavelength of nearly a millennium Furthermore iconography can often date the arrival of new mythical themes anchoring written narratives in a much older archaeological context Old Norse myths are explored with particular attention to one of the central mythical narratives of the Old Norse canon the mythic cycle of Odin king of the Norse pantheon In addition contemporaneous historical sources from late Antiquity and the early European Middle Age the narratives of Jordanes Gregory of Tours and Paul the Deacon in particular will be explored No other study provides such a broad ranging and authoritative study of the relationship of myth to the archaeology of Scandinavia **An Ecofeminist Perspective on Ash Wednesday and Lent** Sylvia A. Sweeney, 2010

An Ecofeminist Perspective on Ash Wednesday and Lent develops a conversation between classical historical Lenten practices and contemporary Christian ecofeminism Building on David Tracy's definition of a religious classic it includes a historical

examination of the development of Lent and the Ash Wednesday rites beginning from wellsprings in the early church traditions of penance catechumenal preparation and asceticism through medieval and reformation expressions of the rite to their twentieth century Episcopal iteration in the 1979 Book of Common Prayer In the discussion of ecofeminism women's death experiences and current ecofeminist writings are used to develop an ecofeminist hermeneutic of mortality *The Anthropology of Magic* Susan Greenwood, 2020-05-28 Magic is arguably the least understood subject in anthropology today Exotic and fascinating it offers us a glimpse into another world but it also threatens to undermine the foundations of anthropology due to its supposed irrational and non scientific nature Magic has thus often been explained away by social or psychological reduction The Anthropology of Magic redresses the balance and brings magic as an aspect of consciousness into focus through the use of classic texts and cutting edge research Suitable for student and scholar alike The Anthropology of Magic updates a classical anthropological debate concerning the nature of human experience A key theme is that human beings everywhere have the potential for magical consciousness Taking a new approach to some perennial topics in anthropology such as shamanism mythology witchcraft and healing the book raises crucial theoretical and methodological issues to provide the reader with an engaging and critical understanding of the dynamics of magic Join the live discussion on Facebook [The Sacred Tree](#) Carole M. Cusack, 2011-05-25 The fundamental nature of the tree as a symbol for many communities reflects the historical reality that human beings have always interacted with and depended upon trees for their survival Trees provided one of the earliest forms of shelter along with caves and the bounty of trees nuts fruits and berries gave sustenance to gatherer hunter populations This study has concentrated on the tree as sacred and significant for a particular group of societies living in the ancient and medieval eras in the geographical confines of Europe and sharing a common Indo European inheritance but sacred trees are found throughout the world in vastly different cultures and historical periods Sacred trees feature in the religious frameworks of the Ghanaian Akan Arctic Altaic shamanic communities and in China and Japan The power of the sacred tree as a symbol is derived from the fact that trees function as homologues of both human beings and of the cosmos This study concentrates the tree as axis mundi hub or centre of the world and the tree as imago mundi picture of the world The Greeks and Romans in the ancient world and the Irish Anglo Saxons continental Germans and Scandinavians in the medieval world all understood the power of the tree and its derivative the pillar as markers of the centre Sacred trees and pillars dotted their landscapes and the territory around them derived its meaning from their presence Unfamiliar or even hostile lands could be tamed and made meaningful by the erection of a monument that replicated the sacred centre Such monuments also linked with boundaries and by extension with law and order custom and tradition The sacred tree and pillar as centre symbolized the stability of the cosmos and of society When the Pagan peoples of Europe adopted Christianity the sacred trees and pillars visible signs of the presence of the gods in the landscape were popular targets for axe wielding saints and missionaries who desired to force the conversion of the landscape as well as

the people Yet Christianity had its own tree monument the cross on which Jesus Christ was crucified and which came to signify resurrected life and the conquest of eternal death for the devout As European Pagans were converted to Christianity their tree and pillar monuments were changed into Christian forms the great standing crosses of Anglo Saxon northern England played many of the same roles as Pagan sacred trees and pillars Irish and Anglo Saxons Christians often combined the image of the Tree of Life from the Garden of Eden with Christ on the cross to produce a Christian version of the tree as imago mundi

Healing Symbols in Psychotherapy Erik D. Goodwyn,2016-03-02 Ritual scholars note that rituals have powerful psychological social and even biological effects but these findings have not yet been integrated into the practice of psychotherapy and psychiatry In Healing Symbols in Psychotherapy Erik D Goodwyn attempts to rectify this by reviewing the most pertinent work done in the area of ritual study and applying it to the practice of psychotherapy and psychiatry providing a new framework with which to approach therapy The book combines ritual study with depth psychology placebo study biogenetic structuralism and cognitive anthropology to create a model of interdisciplinary psychology Goodwyn uses examples of rituals from history folklore and cross cultural study and uncovers the universal themes embedded within them as well as their psychological functions As ritual scholars show time and again how Western culture and medicine is ritually impoverished the application of ritual themes to therapy yields many new avenues for healing The interdisciplinary model used here suggests new ways to approach problems with basic identity complicated grief anxiety

depression meaninglessness and a host of other problems encountered in clinical work The interdisciplinary approach of this accessibly written book will appeal to psychotherapists psychiatrists and Jungian analysts as well as those in training and readers with an interest in the science behind ritual *The Concept of the Goddess* Sandra Billington, Miranda Green, 2002-09-11 This volume is an up to date highly readable study of the female aspects of religion both in past and present mythologies It explores the function and nature of goddesses and their cults in many cultures **Forgotten Worlds** Patrick Chouinard, 2012-05-29 An examination of the mythological historical and archaeological evidence for lost civilizations throughout the world Explores unexplained mysteries such as the Caucasian mummies of China the pyramids of Caral in Peru and the genetically unique X woman of Siberia Examines evidence of lost ancient civilizations in Asia Europe and the Americas including extensive investigation into Atlantis Shows that Siberia and the Amazon may have been cradles of humanity before Africa Over and over again mainstream views of early history which state that the first civilizations arose around 3500 BCE are plagued by evidence of much older civilizations evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt Viewing Atlantis and its many related myths as a metaphor for a long lost global civilization Patrick Chouinard explores the mythological cultural religious and archaeological evidence for many forgotten civilizations in Europe Asia and the Americas He addresses unexplained mysteries from around the world such as Caucasian mummies found in China the pyramids of Caral in Peru the hobbit remains on Flores Island the giant heads of Easter Island the lost legacy of Lemuria the ideology and occult mysticism behind Nazi theory and the genetically unique X woman of Siberia He also examines evidence of ancient alien visits and other supernatural phenomena in the distant past Using recent archaeological findings he shows that Siberia and the Amazon may have been cradles of humanity millennia before Africa Sounding the call to continue searching ancient remote and formerly forbidden regions for lost cultures and genetic root races Chouinard offers a new chronology for the emergence of human life and civilization as well as a new mechanism for how and why societies and species change over time By finding lost peoples and their forgotten worlds we can truly begin to understand the human race and learn from its long history
