**The Dead Mother** Gregorio Kohon, 1999 *The Dead Mother* brings together original essays in honour of Andr Green Written by distinguished psychoanalysts the collection develops the theme of his most famous paper of the same title and describes the value of the dead mother to other areas of clinical interest psychic reality borderline phenomena passions and identification The concept of the dead mother describes a clinical phenomenon sometimes difficult to identify but always present in a substantial number of patients It describes a process by which the image of a living and loving mother is transformed into a distant figure a toneless practically inanimate dead parent In reality the mother remains alive but she has psychically died for the child This produces a depression in the child who carries these feelings within him into adult life as the experience of the loss of the mother s love is followed by the loss of meaning in life Nothing makes sense any more for the child but life seems to continue under the appearance of normality *The Dead Mother* is a valuable contribution to literature on psychoanalytic and psychotherapeutic approaches to grief loss and depression

Hilliard,2010 This challenging book brings to light a mythic dimension of seventeen important eighteenth and early nineteenth century narratives that revolve around the persecution of one or more important female characters and offers original reading of novels by Richardson Fielding Burney Radcliffe Godwin Austen Scott and others The myth in question which Raymond Hilliard calls the myth of persecution and reparation serves as a major vehicle for the early novel s preoccupation with the mother a mythic figure distinct from the historical mother or from the mother as she is represented in eighteenth and early nineteenth century maternal ideology Hilliard argues that the myth of persecution and reparation

derives from the topos of female sacrifice in the romance tradition and shows that this topos is central to several kinds of novels: realist Gothic, Jacobin feminist, and historical. Hilliard contends that the narrative of persecution and reparation anticipates the twentieth-century maternal myth associated with the work of Melanie Klein and other relational model psychoanalytic theorists and he thus also examines the psychosexual significance of the mother. Hilliard explores the relation of psychosexual themes to social representations and delineates a new theory of plot both tragic and comic. Plots in the early novel. Book Jacket

Gothic Feminism Diane Long Hoeveler, 2011-12-31 As British women writers in the late eighteenth and early nineteenth centuries sought to define how they experienced their era's social and economic upheaval, they helped popularize a new style of bourgeois female sensibility. Building on her earlier work in *Romantic Androgyny*, Diane Long Hoeveler now examines the Gothic novels of Charlotte Smith, Ann Radcliffe, Jane Austen, Charlotte Dacre, Byron, Mary Shelley, and the Brontës to show how these writers helped define femininity for women of the British middle class. Hoeveler argues that a female-created literary ideology now known as victim feminism arose as the Gothic novel helped create a new social role of professional victim for women adjusting to the new bourgeois order. These novels were thinly disguised efforts at propagandizing a new form of conduct for women, teaching that professional femininity—a cultivated pose of wise passiveness and controlled emotions—best prepared them for social survival. She examines how representations of both men and women in these novels moved from the purely psychosexual into social and political representations and how these writers constructed a series of ideologies that would allow their female characters and readers fictitious mastery over an oppressive social and political system. *Gothic Feminism* takes a neo-feminist approach to these women's writings, treating them not as sacred texts but as thesis-driven works that attempted to instruct women in a series of strategic poses. It offers both a new understanding of the genre and a wholly new interpretation of feminism as a literary ideology.
