J. themselves and their circumstances are not only articulated in but attained through the medium of their monologues

**Four Shakespearean Period Pieces** Margreta de Grazia, 2021-05-03 In the study of Shakespeare since the eighteenth century four key concepts have served to situate Shakespeare in history chronology periodization secularization and anachronism Yet recent theoretical work has called for their reappraisal Anachronisms previously condemned as errors in the order of time are being hailed as alternatives to that order Conversely chronology and periods its mainstays are now charged with having distorted the past they have been entrusted to represent and secularization once considered the driving force of the modern era no longer holds sway over the past or the present In light of this reappraisal can Shakespeare studies continue unshaken This is the question *Four Shakespearean Period Pieces* takes

up devoting a chapter to each term on the rise of anachronism the chronologizing of the canon the staging of plays in period and the use of Shakespeare in modernity's secularizing project To read these chapters is to come away newly alert to how these fraught concepts have served to regulate the canon's afterlife Margreta de Grazia does not entirely abandon them but deftly works around and against them to offer fresh insights on the reading editing and staging of the author at the heart of our literary canon

Material Thinking Paul Carter, 2014-05-27 Material Thinking is a ground breaking book for artists and for those who study or teach in the arts Author and artist Paul Carter provides an intimate first hand account of how ideas are turned into works and how the material thinking these artworks embody produces new understandings about ourselves our histories and the culture we inhabit Taking as his subject several artistic collaborations which resulted in performances exhibitions or videos Carter explores how each unfolded In the course of this analysis he constructs a philosophy of how the practice and theory of making art are interconnected a philosophy powerful enough to provide an intellectual underpinning for the new and still developing field of creative research Here is startling practical erudition Prodigious book learning is laced with real understanding of what it means to make art to infuse sullen matter with something rousing delicate and vital

Ross Gibson Research Professor of New Media Digital Culture UTS For twenty years I have campaigned for and conducted research in the medium of architecture itself research that is not about architecture but of it if Carter begins by drawing the same distinction but his ambition is greater he seeks to explore and define research in the zones where creative mediums shade into each other To work in a zone is to collaborate with practitioners who are centred on their medium of practice Carter posits a new role for the critic not outside looking in not about practice but inside of and pushing practitioners towards the liminal and thus toward the innovative
