By examining the works of figures such as Rabindranath Tagore, Bibhutibhushan Bandyopadhyay, Jibanananda Das, Shakti Chattopadhyay, Satyajit Ray, and others, the narrative delves into how their stories, songs, art, and films deeply influenced Bengali life and thought. Embracing themes of forest and garden, grass and root, weeds and magical plants, these thinkers, including Jagadish Chandra Bose with his scientific experiments, derived their worldviews, poetics, and politics from the

intricate world of plants The work not only explores Bose's scientific research and philosophy but also delves into religious rituals that fostered a profound connection with the natural world Through a nuanced examination of the affective relationship between individuals and the plant world the narrative uncovers a subterranean invocation of plant philosophy in both actions and words Moreover it highlights the political possibilities beyond the confines of the nation state that emanated from such profound thinking As the book unfolds it weaves a rich tapestry of living practices and artistic expressions rooted in plant philosophy By contemplating the sap and flow of these influences it prompts readers to reflect on what contemporary consciousness can glean from these thinkers The Enchanted Garden Louise M. Brandson, Rhiann Hosking, 2019-02-11
