author Joel Gunderson explores how the international game has become so integral to the growth of the NBA. It's not as former commissioner David Stern described at the 1985 NBA Draft: America's Game. No longer does Team USA expect to steamroll through the Olympics. With stars such as Giannis Antetokounmpo (Greece), Luka Dončić (Slovenia), Joel Embiid (Cameroon), Kristaps Porziņģis (Latvia) and many more, the game of basketball has become a universal language. With almost forty different countries represented in the National Basketball Association today, the evolution of the sport has transcended across international waters. Teams no longer shy away from players born abroad but instead welcome them with open arms. And for those who come over not knowing the language, unfamiliar with the American lifestyle, they are now arriving with fluency in the most important language: basketball.
