Magic Of The Wilderness:

Magic of the Wilderness Max Albert Wyss, 1973 **Proceedings of the 2023 5th International Conference on Literature, Art and Human Development (ICLAHD 2023)** Elisabetta Marino, Yixiang Wang, Bootheina Majoul, Hsuan Lee, 2023-12-29 This is an open access book The 5th International Conference on Literature Art and Human Development ICLAHD 2023 was held on October 20 22 2023 in Chengdu China Literature is an art that reflects the social life and expresses the author's thoughts and feelings by shaping images with language as the means Art is a social ideology that uses images to reflect reality but is more typical than reality It includes literature painting sculpture architecture music and so on Literature is one of the forms of expression belonging to art Literature and art are difficult to separate by a clear boundary but also for people to create more infinite imagination space ICLAHD 2023 is to bring together innovative academics and industrial experts in the field of Literature Art and Human Development research to a common forum The primary goal of the conference is to promote research and developmental activities in Literature Art and Human Development research and another goal is to promote scientific information interchange between researchers developers engineers students and practitioners working all around the world The conference will be held every year to make it an ideal platform for people to share views and experiences in Literature Art and Human Development research and related areas **Trembling Earth** Megan Kate Nelson, 2005 This innovative history of the Okefenokee Swamp reveals it as a place where harsh realities clashed with optimism shaping the borderland culture of southern Georgia and northern Florida for over two hundred years From the formation of the Georgia colony in 1732 to the end of the Great Depression the Okefenokee Swamp was a site of conflict between divergent local communities Coining the term ecolocalism to describe how local cultures form out of ecosystems and in relation to other communities Megan Kate Nelson offers a new view of the Okefenokee its inhabitants and its rich and telling record of thwarted ambitions unintended consequences and unresolved questions The Okefenokee is simultaneously terrestrial and aquatic beautiful and terrifying fertile and barren This peculiar ecology created discord as human groups attempted to overlay firm lines of race gender and class on an area of inherent ambiguity and blurred margins Rice planters slaves fugitive slaves Seminoles surveyors timber barons Swampers and scientists came to the swamp with dreams of wealth freedom and status that conflicted in varied and complex ways Ecolocalism emerged out of these conflicts between communities within the Okefenokee and other borderland swamps Nelson narrates the fluctuations disconnections and confrontations embedded in the muck of the swamp and the mire of its disorderly history and she reminds us that it is out of such places of intermingling and uncertainty that cultures are forged The Courthouse and the Depot Wilber W. Caldwell, 2001 Their songs insist that the arrival of the railroad and the appearance of the tiny depot often created such hope that it inspired the construction of the architectural extravaganzas that were the courthouses of the era In these buildings the distorted myth of the Old South collided head on with the equally deformed myth of the New South **Mobility and**

Place Jørgen Ole Bærenholdt, Brynhild Granås, 2016-04-15 The Northern peripheries of Europe which are covered by this book are associated with remoteness the frontier isolated communities colonialism and resource extraction Recently huge projects in petroleum and hydropower have been located there and the region has become better known as an attractive tourist destination Although these spaces are perceived as being marginal they are inhabited and linked into globalization and international agendas This book examines how people live in such remote spaces in an emerging global world of connectivity interdependency mobility and non linear dynamics The various case studies examine a wide range of experiences ranging from tourists and local settlers to those who migrate for labour in old or new industries or to pursue the hybrid urban rural life of the periphery In this book mobility and place come together The analyses demonstrate how mobility and place mutually constitute each other and how specific relationships between the two aspects are crucial in the making of societies The authors study attempts to reinvent places together with connections and the opening of new scapes in order to sustain businesses municipalities and people s livelihood

Managing the Magic of Old Places Jeremy Wells, 2025-10-14 From 1849 to the early 1980s the development of US historic preservation policy was shaped by fewer than one hundred elite White men from Europe and America This orthodox preservation doctrine has too long silenced the vibrant experiential relationships between everyday people and their heritage Managing the Magic of Old Places Crafting Public Policies for People Centered Historic Preservation offers a radical rethinking of how historic preservation is approached in the United States Author Jeremy C

Wells argues for a revolutionary shift in federal preservation policy one that embraces community based participatory practice and draws from environmental psychology to tap into the intangible emotional connections people have with old places Wells highlights the experiential values that laypeople often ascribe to historic environments which are frequently dismissed by expert driven policies He contends that if historic preservation policy continues to ignore these aspects the field will lose relevance as the gap between professionals and the public widens Drawing from interdisciplinary research in the social sciences particularly phenomenology and environmental psychology Wells s vision of public preservation policy centers the lived experiences of communities reinvigorating the field and ensuring that the preservation of historic places resonates with a wider more inclusive audience Wells positions his work within the growing field of critical heritage studies yet his focus on the psychological and emotional aspects of preservation distinguishes it as a unique contribution By placing the needs and experiences of the public at the heart of preservation efforts Wells critiques the historical foundations of US preservation policy while offering a bold agenda for reform
