Magic, Science and Religion, and Other Essays Bronislaw Malinowski (Ethnologue, Polen, Grossbritannien, USA), 1954 **Magic, Science and Religion** Bronislaw Malinowski, 2015-02-16 2015 Reprint of 1954 Edition Full facsimile of the original edition Not reproduced with Optical Recognition Software In his handling of science magic and religion Malinowski essentially accepted the traditional Western conception of a dual reality the reality of the natural world grounded in observation and rational procedures that lead to mastery and supernatural reality grounded in emotional needs that give rise to faith Unlike Frazer for example Malinowski derived science not from magic but from man's capacity to organize knowledge as demonstrated by Trobriand technical skills in gardening shipbuilding etc In contrast he treated magic which coexisted with these skills as an organized response to a sense of limitation and impotence in the face of danger difficulty and

frustration Again he differentiated between magic and religion in defining magical systems as essentially pragmatic in their aims and religious systems as self fulfilling rituals organized for example around life crises

RUDOLF BULTMANN Adriano da Silva Carvalho,2024-11-13 The work of theologian Rudolf Bultmann is often judged without due consideration of the historical and personal circumstances in which it occurred It is forgotten that theology is always carried out in a specific context Thus this book aims to do justice to this theologian by recognizing the relevance of his hermeneutical method It will be demonstrated that demythologization is a powerful exegetical apologetic operation because at the same time that it points to the mythological layer that covers the text of the New Testament it emancipates it from myth The next step will be to show that by recognizing a mythological envelope covering the text of the New Testament Bultmann intended to prove that the mythological vision itself had a fundamentally existential purpose This is because mythological language does not present an objective image of the world as it is on the contrary it seeks to communicate the understanding that man has of himself in the world in which he lives Therefore the myth should be interpreted not cosmologically but anthropologically or better still existentially It is therefore from this perspective that Bultmann seeks to highlight the relevance of the message of the New Testament

Daughters of Hecate Kimberly B. Stratton, Dayna S. Kalleres, 2014-10-01 Daughters of Hecate unites for the first time research on the problem of gender and magic in three ancient Mediterranean societies early Judaism Christianity and Graeco Roman culture The book illuminates the gendering of ancient magic by approaching the topic from three distinct disciplinary perspectives literary stereotyping the social application of magic discourse and material culture The authors probe the foundations of processes and motivations behind gendered stereotypes beginning with Western culture's earliest associations of women and magic in the Bible and Homer's Odyssey Daughters of Hecate provides a nuanced exploration of the topic while avoiding reductive approaches In fact the essays in this volume uncover complexities and counter discourses that challenge rather than reaffirm many gendered stereotypes taken for granted and reified by most modern scholarship By combining critical theoretical methods with research into literary and material evidence Daughters of Hecate interrogates a false association that has persisted from antiquity to early modern witch hunts to the present day
