**White Magic, Black Magic in the European Renaissance** Paola Zambelli, 2007-07-30 This book explores philosophical theories which in the Renaissance provided an interpretation of nature of its laws and exceptions and lastly of man's capacity to dominate the cosmos by way of natural magic or by magical ceremonies It does not concentrate on the Hermetic and Neoplatonic philosophers Ficino Pico Della Porta or on the relationship between magic and the scientific revolution but rather upon the interference of the ideas and practices of learned magicians with popular rites and also with witchcraft a most important question for social and religious history New definitions of magic put forward by certain unorthodox and wandering scholastics Trithemius Agrippa Paracelsus Bruno will interest readers of Renaissance and Reformation texts and history **Magic, White and Black** Franz Hartmann, 1895 **Magic** Franz Hartmann, 2010-09

Thank you for checking out this book by Theophania Publishing We appreciate your business and look forward to serving you soon We have thousands of titles available and we invite you to search for us by name contact us via our website or download our most recent catalogues This book was originally written for the purpose of disenchanting certain credulous inquirers who fancied that the exercise of spiritual powers could be taught by teaching them certain incantations and formulas It was to prove that spiritual powers must be developed before they can be exercised and to explain the conditions necessary for their

development Since the appearance of the previous edition a little additional knowledge gained by the experiences of my own inner life has enabled me to make certain corrections to sift out much of what was irrelevant and to remodel a great deal of what was incorrectly expressed Moreover in this edition an attempt has been made to answer the numerous questions which have been addressed to me by the readers of Magic The most serious objection which has been made against this book has been on account of its title but the causes which induced me to select such a title were suggested by the purpose for which the book was intended nor would I at present be able to find one more appropriate for it for Magic means that divine art or exercise of spiritual power by which the awakened spirit in man controls the invisible living elements in the soul substance of the universe but above all those in his own soul which are the ones nearest to him **Magic, White and Black** Franz
