Magic, Divination, and Witchcraft Among the Barotse of Northern Rhodesia Barrie Reynolds, 1963 **The Scottish Witch-Hunt in Context** Julian Goodare, 2002-09-21 This book is a collection of essays on Scottish witchcraft and witch hunting which covers the whole period of the Scottish witch hunt from the mid 16th century to the early 18th It particularly emphasizes the later stages since scholars are now as keen to explain why witch hunting declined as why it occurred There are studies of particular witchcraft panics including a reassessment of the role of King James VI The book thus covers a wide range of topics concerned with Scottish witch hunting and also places it in the context of other topics gender relations folklore magic and healing and moral regulation by church and state **Magic, Witchcraft, and Ghosts in the Greek and Roman Worlds** Daniel Ogden, 2002 In a culture where the supernatural possessed an immediacy now strange to us magic was of great importance both in the literary mythic tradition and in ritual practice In this book Daniel Ogden presents 300 texts in new translations along with brief but explicit commentaries Authors include the well known Sophocles Herodotus Plato Aristotle Virgil Pliny and the less familiar and extend across the whole of Graeco Roman antiquity

African Religions & Philosophy John S. Mbiti, 1990 African Religions and Philosophy is a systematic study of the attitudes of mind and belief that have evolved in the many societies of Africa In this second edition Dr Mbiti has updated his material to include the involvement of women in religion and the potential unity to be found in what was once thought to be a mass of quite separate religions Mbiti adds a new dimension to the understanding of the history thinking and life throughout the African continent Religion is approached from an African point of view but is as accessible to readers who belong to non African societies as it is to those who have grown up in African nations Since its first publication this book has become acknowledged as the standard work in the field of study and it is essential reading for anyone concerned with African religion history philosophy anthropology or general African studies *Annals of Ireland by the Four Masters as translated into English by Owen Connellan* Michael O'Clery, 2003 The second volume of the 2 book set for The Annals of Ireland by the Four Masters as translated by Owen Connellan This is the volume that contains the large fold out map at the back of the book

Africanizing Anthropology Lyn Schumaker, 2001-07-12 An innovative cultural study of a major site of British anthropology done with methods from the history of science detailing the development of methods practices and work culture in the colonial context **The Power of the Occult in Modern Africa** James Kiernan, 2006 The occult is a framework of ideas and related practices that is drawn upon as a common resource to provide an understanding of how an apparently random world really works Based mainly on experiential research in a range of African societies the essays in this volume examine the relevance of the occult to a variety of social concepts and contexts These studies stress three features of the occult in modern Africa 1 as an explanatory and tactical device it is resilient 2 it is malleable with a capacity to absorb and assimilate new elements 3 it is flexible and adaptable to emerging situations and novel circumstances Of interest to specialists in the

fields of religion social science and African studies this book will benefit the general reader interested in the occult and its relevance to modernity and globalisation *Divining the Woman of Endor* J. Kabamba Kiboko, 2017-02-23 An examination of the language of divination in the Hebrew Bible particularly in 1 Samuel 28 3 25 the oft called Witch of Endor passage Kiboko contends that much of the vocabulary of divination in this passage and beyond has been mistranslated in authorized English and other translations used in Africa and in scholarly writings Kiboko argues that the woman of Endor is not a witch The woman of Endor is rather a diviner much like other ancient Near Eastern and modern African diviners She resists an inner biblical conquest theology and a monologic authoritarian view of divination to assist King Saul by various means including invoking the spirit of a departed person Samuel Kiboko carries out a Hebrew word study shaped by the theories of Mikhail M Bakhtin regarding the utterance heteroglossia and dialogism in order to understand the designative connotative emotive and associative meanings of the many divinatory terms in the Hebrew Bible She then examines 1 Samuel 28 and a number of prior translations thereof using the ideological framework of African feminist postcolonial biblical interpreters and translation theories to uncover the hidden ideology or transcript of these translations Finally using African contextual cultural hermeneutics and cross cultural translation theory Kiboko offers new English French and Kisanga translations of this passage that are both faithful to the original text and more appropriate to an inculturated liberation African Christian hermeneutic theology and praxis

Olupona, 2014-02-14 What are African religions African Religions A Very Short Introduction answers this question by examining primarily indigenous religious traditions on the African continent as well as exploring Christianity and Islam It focuses on the diversity of ethnic groups languages cultures and worldviews emphasizing the continent's regional diversity Olupona examines a wide range of African religious traditions on their own terms and in their social cultural and political contexts For example the book moves beyond ethnographic descriptions and interpretations of core beliefs and practices to look at how African religion has engaged issues of socioeconomic development and power relations Olupona examines the myths and sacred stories about the origins of the universe that define ethnic groups and national identities throughout Africa He also discusses spiritual agents in the African cosmos such as God spirits and ancestors In addition to myths and deities Olupona focuses on the people central to African religions including medicine men and women rainmakers witches magicians and divine kings and how they serve as authority figures and intermediaries between the social world and the cosmic realm African Religions A Very Short Introduction discusses a wide variety of religious practices including music and dance calendrical rituals and festivals celebrations for the gods birthdays and rituals accompanying stages of life such as birth puberty marriage elderhood and death In addition to exploring indigenous religions Olupona examines the ways Islam and Christianity as outside traditions encountered indigenous African religion He shows how these incoming faith traditions altered the face and the future of indigenous African religions as well as how indigenous religions shaped two world religions in Africa and the diaspora

Olupona draws on archaeological and historical sources as well as ethnographic materials based on fieldwork He shows that African religions are not static traditions but have responded to changes within their local communities and to fluxes caused by outside influences and spread with diaspora and migration Magic in the Literature of the Neronian Period

Konstantinos Arampapaslis, 2024-04-22 Neronian representations of magic a practice prevalent in the everyday life of the period and a central topic in its literary production are characterized by unprecedented accuracy and detail The similarities of witchcraft depictions in Seneca's Medea Lucan's book 6 and Petronius Satyricon with spells of the PGM the defixiones as well as with Pliny's quasi magical recipes underscore realism as the distinctive trait of Neronian magic scenes which has often been considered the authors means to differentiate themselves from their Augustan predecessors However such high degree realism is not merely an ornamental feature but transforms into a tool that influences the reader's response toward magic according to each author's worldview and aims The cross generic examination of the motif of magic in the major Neronian authors shows how realism forms a link between reader contemporary experience and text that encourages more active participation on the part of the reader At the same time images of destruction the horrific and the ridiculous further enhance the negative view of magic as an ineffective Lucan Petronius or destructive force Seneca simultaneously eliciting the reader's critical response *The Judicial Process Among the Barotse of Northern Rhodesia* Max Gluckman, 1973

Witchcraft Craig Hawkins, 1996-06-01 This introduction to contemporary witchcraft and neopaganism shows you what witches themselves say they believe what the Bible says about witchcraft and philosophical holes in the worldview of witches

The Anthropology of Religion, Magic, and Witchcraft -- Pearson eText Rebecca L Stein, Philip Stein, 2015-08-07 This book emphasizes the major concepts of both anthropology and the anthropology of religion and examines religious expression from a cross cultural perspective while incorporating key theoretical concepts It is aimed at students encountering anthropology for the first time *The Problem of Money* Bernhard Bierlich, 2007 Based on long term medical anthropological research in northern Ghana the author analyses issues of health and healing of gender and of the control and use of money in a changing rural African setting He describes the culture of medical pluralism so typical for neo colonial states and people's choices of traditional local medicine plants and sacrifices Islamic medicine charms and various written solutions and modern therapy biomedicine in particular western pharmaceuticals He concludes that the rural urban divide is a fiction that demarcations between these areas are frequently blurred linked by a postcolonial capitalist discourse of local markets regional economies and national structures which frequently emerge in local African settings but often originate in global and multinational markets *The A to Z of Witchcraft* Michael D. Bailey, 2009-09-28 A great deal has been written about the history of witchcraft but much of what has been written is unreliable exaggerated or inaccurate This problem is especially acute in regard to modern witchcraft or Wicca and its supposed connections to historical witchcraft in medieval and early modern Europe The A to Z of Witchcraft provides a reliable reference source for both academics and general

readers interested in the actual historical development of witchcraft in the western world The focus of the dictionary is on Western Europe during the late medieval and early modern periods when the specific idea of diabolical witchcraft developed and when the so called great witch hunts occurred Entries are also provided that deal with magic and witchcraft in the earlier Christian period and classical antiquity as well as with the lingering belief in witchcraft in the modern world and with the development of the modern neo pagan religion of witchcraft also known as Wicca For comparative purposes some entries have been provided that deal with aspects and systems of magic found in other parts of the world that seem to bear some relation to the idea of witchcraft as it developed in Christian Europe The regions dealt with are mainly Africa along with such New World practices as Voodoo and Santeria Entries in the dictionary cover important people in the history of witchcraft from the medieval inquisitors and early modern magistrates who developed the stereotype of the historical witch to the modern individuals who have developed the religion of Wicca Also included are legal terms and concepts important to the prosecution of the supposed crime of witchcraft and religious and theological concepts pertaining to the demonic elements that came to be associated with witchcraft as well as more popular beliefs and aspects of common folklore and mythology that became attached to the developing idea of witchcraft Geographic entries are also included discussing the scope of witch hunting in various regions

Demonology and Witch-Hunting in Early Modern Europe Julian Goodare, Rita Voltmer, Liv Helene Willumsen, 2020-08-11 Demonology the intellectual study of demons and their powers contributed to the prosecution of thousands of witches But how exactly did intellectual ideas relate to prosecutions Recent scholarship has shown that some of the demonologists concerns remained at an abstract intellectual level while some of the judges concerns reflected popular culture This book brings demonology and witch hunting back together while placing both topics in their specific regional cultures The book s chapters each written by a leading scholar cover most regions of Europe from Scandinavia and Britain through to Germany France and Switzerland and Italy and Spain By focusing on various intellectual levels of demonology from sophisticated demonological thought to the development of specific demonological ideas and ideas within the witch trial environment the book offers a thorough examination of the relationship between demonology and witch hunting Demonology and Witch Hunting in Early Modern Europe is essential reading for all students and researchers of the history of demonology witch hunting and early modern Europe
