Producing and Directing the Short Film and Video David K. Irving, Peter W. Rea, 2012-11-12 Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director and explains how their separate energies must combine to create a successful short film or video from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

Video Shooter Barry Braverman, 2015-02-11 Tired of all the Digital Filmmaking guidebooks that give you only the nuts and bolts of how to use a camera, *Video Shooter 2e* takes that how-to knowledge and takes it a step further by showing you how to craft a story in your video. Barry Braverman is a highly experienced shooter whose name is gold in the field. This book covers everything from framing a shot to lighting to the type of camera and tripod one should use and perhaps most importantly, how to translate the use of all this equipment and techniques into a story. Humorous and opinionated, the author provides anecdotes and full-color illustrations that help you to learn the tricks of the trade. He gets right to the point of what you need to know to get good shots and on a budget. New to this edition: more up-to-date techniques involving HD technology, more coverage on the multi-skillset required of today's filmmakers who are asked to act simultaneously as Director, Director of Photography, Cinematographer, Sound Recordist, etc. Website including craft tips, equipment review blogs, and a teacher's corner to support use of the book in film studies. Digital media class includes student work completed in class using the text.
