In the Desert of Desire

William L. Fox,2007-08-01 Las Vegas says William Fox is a pay as you play paradise that succeeds in satisfying our fantasies of wealth and the excesses of pleasure and consumption that go with it In this context Fox examines how Las Vegas s culture of spectacle has obscured the boundaries between high art and entertainment extravaganza nature and fantasy for profit and nonprofit enterprises His purview ranges from casino art galleries including Steve Wynn s private collection and a branch of the famed Guggenheim Museum to the underfunded Las Vegas Art Museum from spectacular casino animal collections like those of magicians Siegfried and Roy and Mandalay Bay s Shark Reef exhibit to the city s lack of support for a viable public zoo from the environmental and psychological impact of lavish water displays in the arid desert to the artistic ambiguities intrinsic to Las Vegas s floating world of showgirls lapdancers and ballet divas That Las Vegas represents one of the world s most opulent displays of private material wealth in all its forms while providing miserly funding for local public amenities like museums and zoos is no accident Fox maintains Nor is it unintentional that the city s most important collections of art and exotic fauna are presented in the context of casino entertainment part of the feast of sensation and excitement that seduces millions of visitors each year Instead this phenomenon shows how our insatiable modern appetite for extravagance and spectacle has diminished the power of unembellished nature and the arts to teach and inspire us and demonstrates the way our society privileges private benefit over public good Given that Las Vegas has been a harbinger of national cultural trends Fox s commentary offers prescient insight into the increasing commercialization of nature and culture across America

Las Vegas in the Rearview Mirror Martino Stierli,2013 An illustrated reevaluation of the seminal architectural manifesto

Learning from Las Vegas It explores the significance of this controversial publication by situating it in the artistic architectural and urbanist discourse of the 1960s and 70s and by evaluating the book s enduring influence of visual studies and architectural research *Relearning from Las Vegas* Aron Vinegar,Michael J. Golec,2009 Evaluates for the first time one of the foundational works in architecture criticism Immediately on its publication in 1972 *Learning from Las Vegas* by Robert Venturi Denise Scott Brown and Steven Izenour was hailed as a transformative work in the history and theory of architecture liberating those in architecture who were trying to find a way out of the straitjacket of architectural orthodoxies Resonating far beyond the professional and institutional boundaries of the field the book contributed to a thorough rethinking of modernism and was subsequently taken up as an early manifestation and progenitor of postmodernism Flickering Light Christoph Ribbat,2013-07-15 Without neon Las Vegas might still be a sleepy desert town in Nevada and Times Square merely another busy intersection in New York City Transformed by the installation of these brightly colored signs these destinations are now world famous representing the vibrant heart of popular culture But for some neon lighting represents the worst of commercialism Energized by the conflicting love and hatred people have for neon *Flickering Light* explores its

technological and intellectual history from the discovery of the noble gas in late nineteenth century London to its fading popularity today Christoph Ribbat follows writers artists and musicians from cultural critic Theodor Adorno British rock band the Verve and artist Tracey Emin to Vladimir Nabokov Langston Hughes and American country singers through the neon cities in Europe America and Asia demonstrating how they turned these blinking lights and letters into metaphors of the modern era He examines how gifted craftsmen carefully sculpted neon advertisements introducing elegance to modern metropolises during neon s heyday between the wars followed by its subsequent popularity in Las Vegas during the 1950s and 60s Ribbat ends with a melancholy discussion of neon s decline describing how these glowing signs and installations came to be seen as dated and characteristic of run down neighborhoods From elaborate neon lighting displays to neglected diner signs with unlit letters Flickering Light tells the engrossing story of how a glowing tube of gas took over the world and faded almost as quickly as it arrived

Electrographic Architecture Carolyn L. Kane, 2023-08-01 Bridging histories of technology media studies and aesthetics Electrographic Architecture forges a critical narrative of the ways in which illuminated light and color have played key roles in the formation of America's white imaginary Carolyn L Kane charts the rise of the country's urban advertisements light empires and neoclassical buildings in the early twentieth century the midcentury construction of polychromatic electrographic spectacles and their eclipse by informatically intense invisible algorithms at the dawn of the new millennium Drawing on archival research interviews and visual analysis Electrographic Architecture shows how the development of America's electrographic surround runs parallel to a new paradigm of power property and possession

Harper's, 2002 **Dreaming of Italy** Giovanna Franci, Federico Zignani, 2005 In *Dreaming of Italy* Giovanna Franci compares three Las Vegas Italian themed resorts Caesars Palace Bellagio and The Venetian to their Italian counterparts the ancient Forum of the Caesars the breathtaking Lake Como resort town of Bellagio and eternal Venice jewel of the Adriatic Franci not only examines architectural format and decorative details but considers how the mystique of these Italian sites has

been transplanted to the Nevada desert In the process she addresses the compelling phenomena of modern mass tourism and postmodern travelers to whom the distinction between the real and the fake is often far less important than the appeal of a destination that allows a visitor to make a virtual Grand Tour within the confines of a single city Francis' perceptive commentary offers unique insights into the trends and intentions behind recent development in Las Vegas She shows how the builders of these three casinos use architectural language to unite the themes and functions of American consumer culture with the romantic mythology of some of the world's most fantastic oases of pleasure In this context Las Vegas emerges as far more than a popular tourist icon It is rather the first urban spectacle of the postmodern world a chameleon like city continuously reinventing itself to offer visitors an unflagging array of experiences sensations and hedonistic delights Federico Zignani's dazzling photographs bring to life the physical details and idyllic ambiance of the lavish Las Vegas resorts and their Italian inspirations
