Tantra, Magic, and Vernacular Religions in Monsoon Asia Andrea Acri, Paolo E. Rosati, 2022-11-03 This book explores the cross and trans cultural dialectic between Tantra and intersecting magical and shamanic practices associated with vernacular religions across Monsoon Asia With a chronological frame going from the mediaeval Indic period up to the present a wide geographical framework and through the dialogue between various disciplines it presents a coherent enquiry shedding light on practices and practitioners that have been frequently alienated in the elitist discourse of mainstream Indic religions and equally overlooked by modern scholarship The book addresses three desiderata in the field of Tantric Studies it fills a gap in the historical modelling of Tantra it extends the geographical parameters of Tantra to the vast yet culturally interlinked socio geographical construct of Monsoon Asia it explores Tantra as an interface between the Sanskritic elite and the folk the vernacular the magical and the shamanic thereby revisiting the intellectual and historically fallacious divide between cosmopolitan Sanskritic and vernacular local The book offers a highly innovative contribution to the field of Tantric Studies and more generally South and Southeast Asian religions by breaking traditional disciplinary boundaries Its variety of disciplinary approaches makes it attractive to both the textual diachronic and ethnographic synchronic dimensions It will be of interest to specialist and non specialist academic readers including scholars and students of South Asian religions mainly Hinduism and Buddhism Tantric traditions and Southeast Asian religions as well as Asian and global folk religion shamanism and magic

Power and Magic Clinton Arnold, 2001-12-17 Power and Magic is one of those few books which literally cannot be ignored by any serious bible student In fact it makes the classical commentaries on Ephesians that I am familiar with virtually obsolete Clinton Arnold has done us all a great favor by throwing vital new light on our understanding of what really motivated the Apostle Paul to write one of his most important epistles Peter Wagner Fuller Theological Seminary This scholarly book is a valuable contribution to understanding the spiritual world we live in Clinton Arnold helps us to

understand Paul's message to the early church and consequently to the church at the end of twentieth century Neil Anderson

 la Perrière ,Peter A. Jackson,2022-03-31 In dramatic contrast to the reported growing influence of doctrinal and
 fundamentalist forms of religion in some parts of Southeast Asia the predominantly Buddhist societies of the region are
 witnessing an upsurge of spirit possession cults and diverse forms of magical ritual This is found in many social strata
 including the urban poor rising middle classes and elite groups and across the different political systems of Myanmar
 Thailand Cambodia and Vietnam This volume reveals both the central historical place of spirit possession rituals in the
 Buddhist cultures of mainland Southeast Asia and their important contemporary roles to enhance prosperity and protection
 This book examines the increasing prominence of spirit mediumship and divination across the region by exploring the
 interplay of neoliberal capitalism visual media the network cultures of the Internet and the politics of cultural heritage and
 identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity
 that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the
 assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of
 inherently modern conditions Asia's Environmental Movements in Comparative Perspective Alvin Y. So,Lily Xiao Hong

 Bailey,2017-07-28 Magic The Basics is a concise and engaging introduction to magic in world history and contemporary

societies Presenting magic as a global phenomenon which has manifested in all human cultures this book takes a thematic approach which explores the historical social and cultural aspects of magic Key features include attempts to define magic either in universal or more particular terms and to contrast it with other broad and potentially fluid categories such as religion and science an examination of different forms of magical practice and the purposes for which magic has been used debates about magic s effectiveness its reality and its morality an exploration of magic s association with certain social factors such as gender ethnicity and education among others Offering a global perspective of magic from antiquity through to the modern era and including a glossary of key terms suggestions for further reading and case studies throughout Magic The Basics is essential reading for anyone seeking to learn more about the academic study of magic Asia and the Secular Pascal Bourdeaux,Eddy Dufourmont,André Laliberté,Rémy Madinier,2022-09-20 This volume looks at the secular state in the context of contemporary Asia and investigates whether there existed before modernity antecedents to the condition of secularity understood as the differentiation of the sphere of the religious from other spheres of social life The chapters presented in this book examine this issue in national contexts by looking at the historical formation of lexicons that defined the secular the secular state and secularism This approach requires paying attention to modern vernacular languages and their precedents in written traditions with often a very long tradition This book presents three interpretive frameworks multiple modernities variety of secularisms and typologies of post colonial secular states *Routledge Handbook of Religions in Asia* Bryan S. develop their identity as a new people in Christ and to appeal to them to live a new kind of life His warnings in Colossians 2 function as oppositional rhetoric contrasting the religious practices of the Lycus Valley with this new belief Paul's warnings are therefore broadly representative of the ancient world while at the same time focused especially on two threads of historical referents Judaism and pagan religions Development of the above argument demonstrates that the challenge of reconstructing a singular opponent arises not only from the limitations of textual and historical evidence but also from the assumptions and methodologies inherent in historical approaches to the text By modifying these assumptions and adjusting the methodology Copenhaver can show how Paul's letter takes on a new relationship to its historical context **Asia's**
