Magic Theatre Collection Magic Theatre (San Francisco, Calif.), John Lion, 1979 Production notes cartons 22 49 The Theatre of Sam Shepard Stephen J. Bottoms, 1998 This comprehensive analysis traces Sam Shepard's career from his experimental one act plays of the 1960s to the 1994 play *Simpatico* *Curse of the Starving Class* *Buried Child* *True West* *Fool for Love* and *A Lie of the Mind* are all examined in depth Concentrating on his playwriting this book charts Shepard's various developments and shifts of direction and the changing contexts in which his work appeared Engaging informative and insightful *The Theatre of Sam Shepard* is the definitive source on the works of this innovative and original writer Magic Albert Allis Hopkins, 1901 **Magic**, 1910 **Critical Music Historiography: Probing Canons, Ideologies and Institutions** Vesa Kurkela, Markus Mantere, 2016-03-09 During the past two decades there has emerged a growing need to reconsider the objects axioms and perspectives of writing music history A certain suspicion towards Francois Lyotard's grand narratives as a sign of what he diagnosed as our postmodern condition has become more or less an established and unquestioned point of departure among historians This suspicion at its most extreme has led to a radical conclusion of the end of history in the work of postmodern scholars such as Jean Baudrillard and Francis Fukuyama The contributors to *Critical Music Historiography* take a step back and argue that the radical view of the impossibility of history as well as the unavoidable ideology of any history are counter productive points of departure for historical scholarship It is argued that metanarratives in history are still possible and welcome even if their limitations are acknowledged Foucault Lyotard and others should be taken into account but systematized viewpoints and methods for a more critical and multi faceted re evaluation of the past through research are needed As to the metanarratives of music history they must avoid the pitfalls of evolutionism hagiography and teleology all hallmarks of traditional historiography In this volume the contributors put these methods and principles into practice The chapters tackle under researched and non conventional domains of music history as well as rethinking older historiographical concepts such as orientalism and nationalism and consequently introduce new concepts such as occidentalism and transnationalism The volume is a challenging collection of work that stakes out a unique territory for itself among the growing body of work on critical music history **CliffsNotes on Hesse's Steppenwolf & Siddhartha** Carolyn R Welch, 2007-05-08 This CliffsNotes guide includes everything you've come to expect from the trusted experts at CliffsNotes including analysis of the most widely read literary works *The 3rd Alternative* Stephen R. Covey, Breck England, 2011-10-04 Outlines a breakthrough approach to conflict resolution and creative problem solving that draws on the techniques of thinkers from a broad range of disciplines to explain how to incorporate diverse viewpoints for win win solutions **George Rochberg** Joan DeVee Dixon, 1992 This is the first and only scholarly book to date on George Rochberg b 1918 the pre eminent post WWII American composer and essayist It was compiled with his assistance and gathers into one volume previously scattered and hard to find material by and about the composer Included are traditional

Shanahan,2024-01-25 This volume assesses the work of Meredith Monk Richard Foreman and Robert Wilson three artists who have revolutionized the craft of directing and the art of theatre in both related and unique ways Though their early artistic backgrounds differ ranging from architecture music and dance to writing they are similar in that none of them began their career as a director per se or received formal training as such They each assumed the director s role based on the demands of their complex artistic visions which combine art forms but resist synthesis finding expression in the differences and tensions between the forms The essays in this volume explore how these auteur directors combine text movement film sound and music installation and visual arts to achieve their visions employing multi perceptual modes to evoke full and rich theatrical experiences The Great North American Stage Directors series provides an authoritative account of the art of directing in North America by examining the work of twenty four major practitioners from the late 19th century to the present Each of the eight volumes examines three directors and offers an overview of their practices theoretical ideas and contributions to modern theatre The studies chart the life and work of each director placing his or her achievement in the context of other important theatre practitioners and broader social history Written by a team of leading experts the series presents the genealogy of directing in North America while simultaneously chronicling crucial trends and championing contemporary interpretation
