Explore Poetry! Andi Diehn, 2015-04-20 Poems can be silly serious or fun just like kids Whether it s the sing song rhythm of a limerick the serendipitous magic of a found poem the deceptive simplicity of a haiku or the easy familiarity of an acrostic poem children are charmed by poetry And what s more fun than reading poetry Writing it In Explore Poetry With 25 Great Projects children have fun learning about different forms of poetry while delving into different literary techniques such as personification metaphor and alliteration all of which are discussed in a simple and accessible way Activities include creative writing exercises designed to reinforce language arts skills plus art projects that encourage children to visualize concepts and definitions Short biographies of important poets reinforce the concept of poetry as an important part of society Explore Poetry meets Common Core State Standards for language arts Guided Reading Levels and Lexile measurements indicate grade level and text complexity Informational and inspiring Explore Poetry fits seamlessly into the poetry curriculum of grades 2 to 4 and serves as an enrichment resource all during the school year especially April Poetry Month 1st Words Magnetic Poetry, 2012      **UbiComp 2004: Ubiquitous Computing** Nigel Davies, Elizabeth Mynatt, Itiro Siio, 2004-08-30 This book constitutes the refereed proceedings of the 6th International Conference on Ubiquitous Computing UbiComp 2004 held in Nottingham UK in September 2004 The 26 revised full papers presented were carefully reviewed and selected from 145 submissions The papers address all current issues in ubiquitous computing ranging from algorithmic and systems design and analysis issues to applications in various contexts      *Everyday Writing Center* Anne Ellen Geller, Michele Eodice, Frankie Condon, Meg Carroll, Elizabeth H. Boquet, 2007-04-01 The *Everyday Writing Center* challenges some of the most comfortable traditions in its field and it does so with a commitment and persuasiveness that one seldom sees in scholarly discussion The book at its core is an argument for a new writing center consciousness one that makes the most of the writing center s unique and uniquely fluid identity Writing center specialists live with a liminality that has been acknowledged but not fully explored in the literature Their disciplinary identity is with the English department but their mission is cross disciplinary their research is pedagogical but they often report to central administration Their education is in humanities but their administrative role demands constant number crunching This fluid identity explains why Trickster an icon of spontaneity shape shifting and the creative potential of chaos has come to be a favorite cultural figure for the authors of this book Adapting Lewis Hyde and others these authors use Trickster to develop a theme of ordinary disruptions the everyday as a source of provocative learning moments that can liberate both student writers and writing center staff At the same time the authors parlay Etienne Wenger s concept of community of practice into an ethos for a dynamic learner centered pedagogy that is especially well suited to the peculiar teaching situation of the writing center Through Trickster they question not only accepted approaches to writing center pedagogy but conventional approaches to race time leadership and collaboration as well They encourage their field to exploit the creative potential in ordinary events that are normally seen as disruptive or

defeating and they challenge traditions in the field that tend to isolate a writing center director from the department and campus Yet all is not random for the authors anchor this high risk high yield approach in their commitment to a version of Wenger s community of practice Conceiving of themselves their colleagues student writers and student tutors as co learners engaged together in a dynamic life of learning the authors find a way to ground the excess and randomness of the everyday while advancing an ethic of mutual respect and self challenge Committed to testing a region beyond the edge of convention the authors of The Everyday Writing Center constantly push themselves and their field toward deeper more significant research and more reflective dynamic teaching The Shadow of the First Word: A Paxlingua Novel Erin Vasquez,
