Rene Magritte René Magritte,1977 **René Magritte** Harry Torczyner,1982 **Origins of Pictures** Klaus Sachs-Hombach,Jörg R. J. Schirra,2014-10-29 Anyone talking about pictures by necessity refers to those using pictures It is therefore essentially the competence of using pictures that has to be considered Such competence is not common among higher developed mammals at least as far as we know today This fact raises the question whether and to what extent that ability has to be conceived as a strictly anthropological one In an interdisciplinary approach the first international conference of the Society for Interdisciplinary Image Science GiB titled Origins of Pictures has taken a closer look at the role of pictures for the conditio humana The primary goal of the conference was to present empirical findings of the origins of picture uses considering in particular research in paleo anthropology archeology cultural anthropology and developmental psychology Furthermore those findings were to be related to philosophical considerations concerning the conditions of the conceptual formation of picture competence Votiv & Totem Peter Otto,Rob Smolders,2006 **Architectural Tourism** Jan Specht,2014-05-19 Since the early times of travelling architecture does constitute an important force of attraction and a vital element in marketing Until today destinations try to increase their market positions by means of the development and restoration of the built environment However architecture is characterised by an enduring presence with impacts on visitors and residents alike Hence on a sustainable basis it needs to chime with place and situation Where modesty might be suitable for one destination spectacular architecture could be a transformation catalyst or unique selling proposition for another Destination developers have to be aware of the local requirements as well as the reciprocal relationship between the modern practice of tourism and the built environment To address the complexity of architectural tourism throughout the book this topic is subject of a controversial discussion and approached with a contextual and interdisciplinary view **Branded Spaces** Stephan Sonnenburg,Laura Baker,2013-02-26 Sweeping transformation of brands has led to a warranted need to conquer space for brand performances Branded spaces emplace agents like consumers or other stakeholders to have an experience that is in multisensual association with a brand In a fast changing world branded spaces are becoming lighthouses for brands for their image and for their relationship to agents Additionally the editors and contributors often use a story like framework to explore how branded spaces are approached as well as to what degree they afford success Management branding marketing sociology psychology and philosophy are some of the disciplines that deal with branded spaces To address the complexity and the multidisciplinary challenge of branded spaces this topic is approached via different categories places and possibilities facts and figures senses and sensualities stories and situations as well as critiques and consequences *Mission Revisited* Pieter N.
