Magubanes South Africa:

The Making of a Racist State Bernard Magubane, 1996 How did the Union of South Africa come to be dominated by a white minority That is the obvious but haunting question addressed in this remarkable historical survey which documents and analyses the chain of events that led up to the passing in 1909 of the South African Act by the British Parliament

Magubane's South Africa Peter Magubane, 1978 Fotografisk billedv rk *Bringing the Empire Home* Zine Magubane, 2004 Zine Magubane tracks colonial images of blackness from South Africa to England and back again to reveal the often overlooked links among ideologies of race class and gender The South African Tradition of Racial Capitalism Zachary Levenson, Marcel Paret, 2024-06-28 This book documents the emergence and development of the theory of racial capitalism in apartheid South Africa It interrogates the specificity of this theory in the South African context and draws lessons for its global applicability Racism and capitalism have a long history of entanglement Nowhere is this more evident than in South Africa where colonial and apartheid regimes used explicit systems of racial hierarchy to shore up profit It is therefore no surprise that South Africa has represented a key site for thinking about the role that racism plays in shaping state policy labor markets patterns of capital accumulation and working class struggle Illuminating these dynamics this volume develops a distinctive South African tradition of thought about the relationship between racism and capitalism The South African Tradition of Racial Capitalism contributes to a burgeoning literature on the concept of racial capitalism the origins of which many commentators trace back to apartheid South Africa It pays particular attention to the crucial role of anti apartheid activists as theorists whose important insights remain relevant for scholars and activists around the globe This book was originally published as a special issue of Ethnic and Racial Studies **History from South Africa** Joshua Brown, 1991 More starkly than any other contemporary social conflict the crisis in South Africa highlights the complexities and conflicts in race gender class and nation These original articles most of which were written by South African authors are from a special issue of the Radical History Review published in Spring 1990 that mapped the development of interpretations of the South African past that depart radically from the official history The articles range from the politics of black movements in the nineteenth and twentieth centuries to studies of film television and theater as reflections of modern social conflict History from South Africa is presented in two main sections discussions of the historiography of South Africa from the viewpoint of those rewriting it with a radical outlook and investigations into popular history and popular culture the production and reception of history in the public realm In addition two photo essays dramatize this history visually maps and a chronology complete the presentation The book provides a fresh look at major issues in South African social and labor history and popular culture and focuses on the role of historians in creating and interacting with a popular movement of resistance and social change **Magubane's South Africa** Peter Magubane, 1978-01-01 A South African photojournalist records in pictures and text the experiences of the black man living under apartheid from the time of the treason trials of the

1950s to the Soweto riots of 1977 **South Africa and the International Media, 1972-1979** James Sanders, 2012-10-12 This book studies the Anglo American media's representation of South Africa in the 1970s the international media is shown to have been under continuous pressure from both the South African Dept of Information and the anti apartheid movement

investigates women's political activism and conflict in the struggle against apartheid in South Africa using play texts alongside interviews with female playwrights and women who worked within the theatre to examine issues around domestic violence racial abuse and women in detention without trial **Waste as a Critique**, 2025-02-11 Waste as a Critique reveals how waste in its manifold variety provides an innovative starting point for interrogating 21st century society Drawing on growing interdisciplinary concerns for discards it contextualizes waste in cultural symbolic historical spatial and political forms The contributions presented demonstrate the potential for waste as a revelatory lens through which the social world may be critically re-examined and assessed This collection informs a novel critical waste based epistemology from which to challenge ingrained assumptions categorical inconsistencies and unconsidered outcomes in social practice and theory This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations South Africa Bernard Magubane, 1989 Those of us who care about Africa owe a great debt to Ben Magubane No other thinker has given us as much insight into the struggle in South Africa Here again Magubane demonstrates why his work is required reading for anyone seeking to understand the complexities of apartheid These are the words not of a detached academic but of a political

savant whose commitment shines from every page **Military Marxism** Adam Mayer,2024-12-16 Adam Mayer's *Military Marxism: Africa's Contribution to Revolutionary Theory* 1957-2023 explores African Marxist theory and the intellectual merits of Afro Marxist schools of thought to show how they have developed and impacted sub-Saharan Africa from the Cold War to the present. He also discusses the efficacy of the movements influenced by Marxism and how they are contested today. Through in-depth research, Mayer answers the following questions: Who were the African Marxist intellectuals? What happened to these intellectuals in the 1990s in NGO-administered deindustrialized Africa? How are these theories inspiring popular rebellions and radical anti-Western military coups today? This book explores how Military Marxism through its own rich and variegated African theory has continued to inform and guide the practice of various political movements today.

The Social and Political Thought of Archie Mafeje Bongani Nyoka,2020-08-01 This comprehensive treatment of Archie Mafeje as a thinker and researcher analyses his overall scholarship and his role as a theoretician of liberation and revolutionary theory. Social scientist Archie Mafeje, who was born in the Eastern Cape but lived most of his scholarly life in exile, was one of Africa's most prominent intellectuals. This ground-breaking work is the first of its kind to consider the entire body of Mafeje's oeuvre and offers a much-needed engagement with his ideas. The most inclusive and critical treatment to date of Mafeje as a thinker and researcher, the book analyses his overall scholarship and his role as a theoretician of liberation and revolution. Author Bongani Nyoka's main argument is that Mafeje's superb scholarship developed out of his experience as an oppressed black person and his early political education, which merged with his university training to turn him into a formidable cutting-edge intellectual force. There are three main parts to the book: Part I evaluates Mafeje's critique of the social sciences; part II focuses on his work on land and agrarian issues in sub-Saharan Africa; and part III deals with his work on revolutionary theory and politics. The book engages in the act of knowledge decolonisation, making a unique contribution to South Africa's sociological, historical, and political studies. *Roots & Culture* Eddie Chambers,2016-12-18 How did a distinct and powerful Black British identity emerge? In the 1950s, when many Caribbean migrants came to Britain, there was no such recognised entity as Black Britain. Yet by the 1980s, the cultural landscape had radically changed, and a remarkable array of creative practices, such as theatre, poetry, literature, music, and the visual arts, gave voice to striking new articulations of Black British identity. This new book chronicles the extraordinary blend of social, political, and cultural influences from the mid-1950s to the late 1970s that gave rise to new heights of Black British artistic expression in the 1980s. Eddie Chambers relates how and why, during these decades, West Indians became Afro Caribbeans, and how, in turn, Afro Caribbeans became Black British, and the centrality of the arts to this important narrative. The British Empire, migration, Rastafari, the Anti-Apartheid struggle, reggae music, dub poetry, the ascendance of the West Indies cricket team, and the coming of Margaret Thatcher: all of these factors and others have had a part to play in the compelling story of how the African Diaspora transformed itself to give rise to Black Britain. **Democracy and Governance Review** Yvonne G.

Muthien, Meshack M. Khosa, Bernard Magubane, 2000 Authoritarian regimes of various sorts have crumbled worldwide to give way to liberal constitutional democracies Prerequisites for the consolidation of the new democracies are regular free and fair elections granting political parties legitimate authority and citizens protection by the rule of law *Mortevivum*

Kimberly Juanita Brown, 2024-02-06 A powerful examination of the unsettling history of photography and its fraught relationship to global antiblackness Since photography's invention black life has been presented as fraught short agonizingly filled with violence and indifferent to intervention living death mortevivum in a series of still frames that refuse a complex humanity In *Mortevivum* Kimberly Juanita Brown shows us how the visual logic of documentary photography and the cultural legacy of empire have come together to produce the understanding that blackness and suffering and death are inextricable Brown traces this idea from the earliest images of the enslaved to the latest newspaper photographs of black bodies from the United States and South Africa to Haiti and Rwanda documenting the enduring pernicious connection between photography and a global history of antiblackness Photography's history inextricably linked to colonialism and white supremacy is a catalog of othering surveillance and the violence of objectification In the genocide in Rwanda for instance photographs after the fact tell viewers that blackness comes with a corresponding violence that no human intervention can abate In Haiti the first black republic in the Western Hemisphere photographic evidence of its sovereign failure suggests that the formerly enslaved cannot overthrow their masters and survive to tell the tale And in South Africa and the United States a loop of racial violence reminds black subjects of their lower class status mandated via the state Illustrating the global nature of antiblackness that pervades photographic archives of the present and the past *Mortevivum* reveals how we live in a repetition of imagery signaling who lives and who dies on a gelatin silver print on a page in a book on the cover of newspaper and in the memory of millions The URL for this publication is <https://seeingmortevivum.org> **Johannesburg Portraits**

Mike Alfred, 2003 Tells the story of Johannesburg's geography its economic political and social history and its vibrant personality through the lives of prominent Johannesburg citizens **Social Work's Histories of Complicity and Resistance**

Vasilios Ioakimidis, Aaron Wyllie, 2023-06-14 Social work is often presented as a benevolent and politically neutral profession avoiding discussion about its sometimes troubling political histories This book rethinks social work's legacy and history of both political resistance and complicity with oppressive and punitive practices Using a comparative approach with international case studies the book uncovers the role of social workers in politically tense episodes of recent history including the anti racist struggle in the US and the impact of colonialism in Australia New Zealand and Canada As the de colonisation of curricula and the Black Lives Matter movement gain momentum this fascinating book skilfully navigates social work's collective political past while considering its future *State*, 1981 *Dictionary of African Biography*
