The Munich Crisis, 1938 Erik Goldstein,Igor Lukes,2012-10-12 Most of the works on the crises of the 1930s and especially the Munich Agreement in 1938 were written when it was virtually impossible to gain access to the relevant archive collections on both sides of the Iron Curtain This text studies the Czechoslovak German crisis and its impact from previously neglected perspectives and celebrates the post Cold War openness by bringing in new evidence from hitherto inaccessible archives

Poland and the Western Powers 1938-1938 Anna M. Cienciala,1968-12-15 This study has two objectives The first is to explain the nature and historical roots of the problems facing Polish foreign policy in 1938 39 and the manner in which they were approached by the men who shaped and directed Polish diplomacy The second is to illustrate the political interdependence in these years of Eastern and Western Europe This interdependence hinged on the German problem The attitude of France and Britain towards Poland and Eastern Europe as a whole was primarily a reflection of their policy towards Germany at the same time this policy was the decisive factor in the individual reactions of Germany s eastern neighbours to the threat of resurgent German power As far as Poland was

concerned she not only had to strive to avert the danger of German revisionism the realization of which would have made her a vassal of Berlin but she also had to consider the possibility of Soviet expansion at her expense This study is however primarily concerned with Polish attempts to obtain security with regard to Germany and in the period in question this was the main objective of Polish diplomacy

Between States Holly Case, 2009-05-05 Winner of the 2010 George Louis Beer Prize of the American Historical Association The struggle between Hungary and Romania for control of Transylvania seems at first sight a side show in the story of the Nazi New Order and the Second World War These allies of the Third Reich spent much of the war arguing bitterly over Transylvania's future and Germany and Italy were drawn into their dispute to prevent it from spiraling into a regional war But precisely as a result of this interaction the story of the Transylvanian Question offers a new way into the history of how state leaders and national elites have interpreted what Europe means Tucked into the folds of the Transylvanian Question's bizarre genealogy is a secret that no one ever tried to keep but that has remained a secret nonetheless small states matter The perspective of small states puts the struggle for mastery among its Great Powers into a new perspective

Jews, Nazis and the Cinema of Hungary David Frey, 2017-02-28 Between 1929 and 1942 Hungary's motion picture industry experienced meteoric growth It leapt into Europe's top echelon trailing only Nazi Germany and Italy in feature output Yet by 1944 Hungary's cinema was in shambles internal and external forces having destroyed its unification experiments and productive capacity This original cultural and political history examines the birth unexpected ascendance and wartime collapse of Hungary's early sound cinema by placing it within a complex international nexus Detailing the interplay of Hungarian cultural and political elites Jewish film professionals and financiers Nazi officials and global film moguls David Frey demonstrates how the

transnational process of forging an identity designed to define a national culture proved particularly contentious and surprisingly contradictory in the heyday of racial nationalism and antisemitism

The Hungarians Paul Lendvai, 2004-08-08 The Hungarians is the most comprehensive clear sighted and absorbing history ever of a legendarily proud and passionate but lonely people Much of Europe once knew them as child devouring cannibals and bloodthirsty Huns But it wasn't long before the Hungarians became steadfast defenders of the Christian West and fought heroic freedom struggles against the Tatars 1241 the Turks 16 18th centuries and among others the Russians 1848 49 and 1956 Paul Lendvai tells the fascinating story of how the Hungarians despite a string of catastrophes and their linguistic and cultural isolation have survived as a nation state for more than 1 000 years Lendvai who fled Hungary in 1957 traces Hungarian politics culture economics and emotions from the Magyars dramatic entry into the Carpathian Basin in 896 to the brink of the post Cold War era Hungarians are ever pondering what being Hungarian means and where they came from Yet argues Lendvai Hungarian national identity is not only about ancestry or language but also an emotional sense of belonging Hungary's famous poet patriot Sándor Petöfi was of Slovak descent and Franz Liszt felt deeply Hungarian though he spoke only a few words of Hungarian Through colorful anecdotes of heroes and traitors victors and victims geniuses and imposters based in part on original archival research Lendvai conveys the multifaceted interplay on the grand stage of Hungarian history of progressivism and economic modernization versus intolerance and narrow minded nationalism He movingly describes the national trauma inflicted by the transfer of the historic Hungarian heartland of Transylvania to Romania under the terms of the Treaty of Trianon in 1920 a trauma that the

passing of years has by no means lessened The horrors of Nazi and Soviet Communist domination were no less appalling as Lendvai's restrained account makes clear but are now part of history An unforgettable blend of eminent readability vibrant humor and meticulous scholarship The Hungarians is a book without taboos or prejudices that at the same time offers an authoritative key to understanding how and why this isolated corner of Europe produced such a galaxy of great scientists artists and entrepreneurs
