assigned to the Bengal Renaissance as being the representative of the contemporary intellectual movement in the country. Strongly grounded in primary research, this volume brings forth many new facts and facets into the scholarly discourse on topics such as the idea of Drain and the rise of Indian nationalism, so far seen as a predominantly political process divorced from its cultural dimensions. It re-examines the view that cultural consciousness preceded political agitation as a separate sphere of activity and suggests that both were integral stages of anti-colonialism in the country. The author maintains that rationalism and nationalism were closely connected as a means and end continuum. He also provides a new and substantially different understanding of the 19th-century intellectuals Mahatma Jotirao Phule and Pandita Ramabai among others. Lucid, accessible, and thought-provoking, this book will interest scholars and researchers of modern Indian history, Indian political thought, sociology, philosophy, and Marathi literature.
