Daughters Ursula Stuart Mason,2020-01-24 A comprehensive history of the Women's Royal Naval Service of Great Britain in the twentieth century The Women's Royal Naval Service was formed in 1917 when the call was for volunteers to release a man for sea service At the peak there was over 5 000 women serving in Britain and overseas but efforts to maintain the service in peace time were unsuccessful It was to be 1939 when the Second World War threatened before the Wrens were reformed Theirs was a different and altogether more demanding role which involved the carrying out of some highly secret and responsible duties and many more of them served outside Britain By 1945 there were over 75 000 officers and ratings and when the War ended and those who wished were demobilized a permanent Service was set up providing a career for women alongside men of the Royal Navy This is their story often told in their own words which mirrors the changing place of women in our society in a century of tremendous social progress Features a forward by HRH The Princess Royal The Silent Day Max Arthur,2014-05-22 On 6 June 1944 Britain woke up to a profound silence Overnight 160 000 Allied troops had

vanished and an eerie emptiness settled over the country. The majority of those men would never return. This is the story of that extraordinary 24 hours. Using a wealth of first person testimonies, renowned historian Max Arthur recounts a remarkable new oral history of D Day, beginning with the two years leading up to the silent day which saw the UK transformed by the arrival of thousands of American and Canadian troops. We also hear the views of the American troops who quickly formed strong views of both the British military and civilian populations. Then on that June morning many Britain people woke up to discover that vast areas of the country which had throbbed with life only the day before were now empty and silent. Civilian workers found coffee pots still warm on the stove but not a soul to greet them. Many women and children felt bewildered and betrayed. Then throughout that day and the days that followed the whole population gathered around wireless sets waiting for news. There are powerful testimonies from families of who lost loved ones on the beaches of Normandy and dramatic personal accounts from young widows who had never had the chance to say goodbye. **THE SILENT DAY** is an original and evocative portrait of a key event in world history and a poignant reminder of the human cost of D Day. **Stars to Steer By**

Julia Jones, 2025-05-08 The extraordinary stories of the fearless women who set their sights on the sea in an all male world paving the way for the female sailing superstars of today. Gender issues are stark at sea. Historically a ship's crew is all male and although vessels are referred to as she, women's contributions to sailing have been largely ignored if not actively opposed. Today's sailing legends such as Tracy Edwards and Ellen MacArthur compete with men on equal terms but they stand on the shoulders of many women before them who had to challenge preconceptions, prejudice and even the law in their wish to sail. Spanning the 19th century to today, Julia Jones dives into the lives of an array of incredible and unconventional women we meet: single handed sailors, wealthy explorers, long suffering wives and penniless chancers with a thirst for adventure. Each had to face down barriers of official exclusion, family imposed restriction, social disapproval and often a resulting lack of self belief. In the 21st century British women wear Admiral's uniforms and break global yachting records yet their journey to professional sailing remains challenging and the public face of sailing remains mostly male, evident in the lack of female Commodores in prestigious yacht clubs. Even as sailing becomes more accessible, the remarkable contributions within these stories are a precious source of inspiration to all women facing their own challenges today. **Normandy '44** James

Holland, 2019-06-04 A history of World War II's Operation Overlord from the campaign's planning to its execution as Allied forces battled to take France back from Germany. D Day, June 6, 1944, and the seventy six days of bitter fighting in Normandy that followed the Allied landing have become the defining episode of World War II in the west, the object of books, films, television series and documentaries. Yet as familiar as it is, as James Holland makes clear in his definitive history, many parts of the Overlord campaign as it was known are still shrouded in myth and assumed knowledge. Drawing freshly on widespread archives and on the testimonies of eye witnesses, Holland relates the extraordinary planning that made Allied victory in France possible, indeed the story of how hundreds of thousands of men and mountains of materiel were transported across
