Naked Hollywood Money And Power In The Movies Today:

Naked Hollywood Nicolas Kent, 1991 How Hollywood Works Janet Wasko, 2003-11-25 This is a book about the US motion picture industry its structure and policies its operations and practices It looks at the processes that are involved in turning raw materials and labor into feature films It describes the process of film production distribution exhibition and retail a process that involves different markets where materials labor and products are bought and sold In other words this is a book about how Hollywood works as an industry How Hollywood Works offers an up to date survey of the policies and structure of the US film industry looks at the relationship between the film industry and other media industries examines the role of the major studios and the other players including law firms talent agents and trade unions and guilds provides access to hard to find statistical information on the industry While many books describe the film production and marketing process they usually do so from an industry perspective and few look at Hollywood critically from within a more general economic political and social context By offering just such a critique Janet Wasko s text provides a timely and essential analysis of how Hollywood works for all students of film and media Patterns of Bias in Hollywood Movies John W. Cones, 2012 It s pretty broadly recognized that Hollywood movies contain patterns of bias but it s not just people of color or women who are hurt by this Many groups within America s multicultural society have complained over the years about negative and stereotypical portrayals of their own group members in motion pictures produced or released through the Hollywood based studios Yet as an expert on the U S film industry points out such complaints have had little impact on consistent patterns of bias in movies This book takes a broader look at the nature of negative and stereotypical movie portrayals and tracks patterns of such one sided depictions over a longer period time As a result the patterns of bias and the source the problem become more clear The problem appears be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry This work grew out of the observed frustration of film industry critics who have pointed out examples of bias and stereotyping in specific movies over the years only to be rebuffed by the simplistic studio arguments that such films reflect the real world and that moviegoers vote with their pocket books It can be shown that there is a consistent pattern to the choices Hollywood studio executives make with respect to the movies produced and released and the specific content of those movies and it becomes obvious that Hollywood is selectively portraying reality Movie goers only have limited options among all of the possibilities that could be portrayed on the silver screen This book differs from other studies touching on bias in motion pictures Most such books focus on the treatment of a single ethnic religious cultural racial or other readily identifiable interest group but this study attempts to provide an

overview and to identify patterns over time When the patterns of bias in motion picture content are sufficiently demonstrated and documented it becomes easier to identify the source of the bias and to explain why such bias exists **Hollywood**

Bloodshed James Kendrick,2009-03-30 In *Hollywood Bloodshed* James Kendrick presents a fascinating look into the political and ideological instabilities of the 1980s as studied through the lens of cinema violence Kendrick uses in depth case studies to reveal how dramatic changes in the film industry and its treatment of cinematic bloodshed during the Reagan era reflected shifting social tides as Hollywood struggled to find a balance between the lucrative necessity of screen violence and the rising surge of conservatism As public opinion shifted toward the right and increasing emphasis was placed on issues such as higher military spending family values and money culture film executives were faced with an epic dilemma the violent aspects of cinema that had been the studios bread and butter were now almost universally rejected by mainstream audiences Far from eliminating screen bloodshed altogether studios found new ways of packaging violence that would allow them to continue to attract audiences without risking public outcry ushering in a period of major transition in the film industry Studios began to shy away from the revolutionary directors of the 1970s many of whom had risen to fame through ideologically challenging films characterized by a more disturbing brand of violence while simultaneously clearing the way for a new era in film The 1980s would see the ascent of entertainment conglomerates and powerful producers and the meteoric rise of the blockbuster a film with no less violence than its earlier counterparts but with action oriented thrills rather than more troubling images of brutality Kendrick analyzes these and other radical cinematic changes born of the conservative social climate of the 1980s including the disavowal of horror films in the effort to present a more acceptable public image the creation of the PG 13 rating to designate the gray area of movie violence between PG and R ratings and the complexity of marketing the violence of war movies for audience pleasure The result is a riveting study of an often overlooked yet nevertheless fascinating time in cinema history While many volumes have focused on the violent films of the New American Cinema directors of the 1970s or the rise of icons such as Woo Tarantino and Rodriguez in the 1990s Kendrick s *Hollywood Bloodshed* bridges a major gap in film studies This comprehensive volume offers much needed perspective on a decade that altered the history of Hollywood and American culture forever **Sports Cinema 100 Movies**

Randy Williams,2006-10 This in depth companion guide celebrates movies centered on sports oriented stories characters events or backdrops complete with more than 200 black and white movie stills **Hollywood** Thomas Schatz,2004

Hollywood as a concept applies variously to a particular film style a factory based mode of film production a cartel of powerful media institutions and a national and increasingly global way of seeing It is a complex social cultural and industrial phenomenon and is arguably the single most important site of cultural production over the past century This collection brings together journal articles published essays book chapters and excerpts which explore Hollywood as a social economic industrial aesthetic and political force and as a complex historical entity **Hollywood's Film Wars with France** Jens

Ulff-Møller,2001 It is based on hitherto unstudied documents from these institutions While European film production was at a standstill after World War I Hollywood companies flooded the European market with hundreds of films at very low prices

BOOK JACKET Blood, Guns, and Testosterone Barna William Donovan,2009-11-02 Since the early days of film the representation of masculinity has changed considerably In the beginning men instinctively knew right from wrong They rode to the rescue and saved the day in the nick of time to the admiration and gratitude of society But over the decades heroes have evolved from being larger than life and infallible to being cynical washed up unwanted outsiders Violent content in these films also evolved from fistfights and gunplay to brutal attacks and nuclear explosions repeatedly ramping up in frequency intensity and graphic depictions But there is more to a violent film genre than violence and Blood Guns and Testosterone Action Films Audiences and a Thirst for Violence brings an entirely new understanding to the nature of such entertainment In this book Barna William Donovan examines masculinity and violence in action and adventure films and discusses how the most ardent fans of the genre incorporate this controversial form of entertainment into their lives Donovan argues that far from becoming violent the fans of the action film look at the genre as an artistic rumination on the nature of violence good and evil and the ever changing definitions of manhood At their very best or most interesting at least these films may even reflect on the nature of violence on human nature on aggression and how a self reflexive moral society can deal with violence And since so much of the violence of the world has always been perpetrated by men action films more often than not are contemplations of the complicated meaning of manhood In addition to fans of the genre Blood Guns and Testosterone will appeal to scholars of film history popular culture gender studies and audience research **The Star**

System Paul McDonald,2001-06-13 Looks at the development and changing organization of the star system in the American film industry Tracing the popularity of star performers from the early cinema of attractions to the Internet universe Paul McDonald explores the ways in which Hollywood has made and sold its stars Through focusing on particular historical periods case studies of Mary Pickford Bette Davis James Cagney Julia Roberts Tom Cruise and Will Smith illustrate the key conditions influencing the star system in silent cinema the studio era and the New Hollywood The Feature Film

Distribution Deal John W. Cones,1997 John W Cones whose real goal is to stimulate a long term film industry reform movement shows how the financial control of the film industry in the hands of the major studios and distributors actually translates into creative control of the industry Cones discusses the pros and cons of the debate relating to the industry s so called net profit problem and the way in which the distribution deal plays an integral part in that problem He then breaks down five major film finance distribution scenarios explaining various distribution deals and suggesting ways of negotiating distribution Critically examining the specific terms of the distribution deal itself Cones covers gross receipts exclusions distributor fees and distribution expenses He also investigates the various forms of interest issues of production costs matters of creative control and general contractual provisions For handy reference Cones includes an extensive checklist for

negotiating any feature film distribution deal The list deals with distribution fees distribution expenses interest production costs creative control issues general contractual provisions distributor commitments and the limits of negotiating His nine appendixes present a Motion Picture Industry Overview Profit Participation Audit Firms ADI Top 50 Market Rankings an AFMA Member List 1992 1993 a Production Financing Distribution Agreement a Negative Pickup Distribution Agreement a Distribution Rights Acquisition Agreement a Distribution Agreement Rent a Distributor Deal and a Foreign Distribution Agreement Cones wrote this book for independent producers executive and associate producers and their representatives directors actors screenwriters members of talent guilds distributors and entertainment antitrust and securities attorneys Securities issuers and dealers investment bankers and money finders investors and financiers of every sort also will be interested In addition Cones suggests and hopes that the book will interest Congress their research staff government regulators at the Internal Revenue Service the Securities and Exchange Commission the Federal Trade Commission and law enforcement officials such as the Los Angeles District Attorney and the U S Justice Department *The Cinema of Steven Spielberg* Nigel Morris,2007 Detailed textual analysis of films from Spielberg s entire career reveal that alongside conventional commercial appeal his movies function as a self reflexive they invite divergent readings and self conscious spectatorship which contradict assumptions about their ideological tendencies *The New American Cinema* Jon Lewis,1998 Deliberately eclectic and panoramic THE NEW AMERICAN CINEMA brings together thirteen leading film scholars who present a range of theoretical critical and historical perspectives on a rich and pivotal time in American cinema that from the mid 1960s to the present With its range of topics and breadth of critical approaches this anthology illuminates the volatile mix of industrial process and artistic inspiration that comprises American moviemaking 46 photos **Motion Picture Biographies** John Cones,2015-04-01 Hollywood movies are famous for promoting negative stereotypes of all kinds especially against minorities women Southerners and Christians To what extent are biographical films selected for production according to certain biases conscious or unconscious among the Hollywood elite An expert on the U S film industry gives readers brief synopses of Hollywood biopics produced and or released from 1912 through 1994 This survey provides the basis for discussion and analysis Tracking these one sided depictions over a longer period of time the patterns of bias and the source of the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their own cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power in Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry **The Movies** Gerald Mast,Bruce F. Kawin,1996 *The Films of Martin Scorsese, 1963-77* L. Grist,2000-05-11 A study of Martin Scorsese s early career from his student short films to New York New York As well as

discussing the films in detail they are considered in relation both to the issue of film authorship and a period of American cinema marked by crisis and change Looking at both Scorsese s film making and the debates surrounding film authorship this book is also about American film making in the sixties and seventies about in short authorship and context
