Nirvana And Other Buddhist Felicities

Frank Reynolds, Jason A. Carbine

Nirvana And Other Buddhist Felicities:

Nirvana and Other Buddhist Felicities Steven Collins,1998-05-13 This book presents an answer to the question what is nirvana Part I distinguishes between systematic and narrative thought in the Pali texts of Theravada Buddhism in South and Southeast Asia arguing that nirvana produces closure in both and setting nirvana in the wider category of Buddhist Felicities Part II explores other Buddhist utopias both eu topias good places and ou topias no places and relates Buddhist utopianism to studies of European and American utopian writing The book ends with a close reading of the Vessantara Jataka which highlights the conflict between the ascetic quest for closure and ultimate felicity and the ongoing demands of ordinary life and society Steven Collins discusses these issues in relation to textuality world history and ideology in premodern civilizations aiming to contribute to an alternate vision of Buddhist history which can hold both the inside and the outside of texts together

Nirvana and Other Buddhist Felicities Steven Collins,2006-11-02 This book presents a new answer to the question what is nirvana Part One distinguishes between systematic and narrative thought in the Pali texts of Theravada Buddhism looking at the place of nirvana in both Part Two explores other Buddhist utopias and relates Buddhist utopianism to studies of European and American utopian writing Steven Collins discusses these issues in relation to textuality world history and ideology in premodern civilizations aiming to contribute to a new vision of Buddhist history that integrates the inside and the outside of texts

Nirvana Steven Collins,2010-03-25 The idea of nirvana Pali nibb na is alluring but elusive for non specialists and specialists alike Offering his own interpretation of key texts Steven Collins explains the idea in a new accessible way as a concept as an image metaphor and as an element in the process of narrating both linear and cyclical time Exploring nirvana from literary and philosophical perspectives he argues that it has a specific role to provide the sense of an ending in both the systematic and the narrative thought of the Pali imaginaire Translations from a number of texts including some dealing with past and future Buddhas enable the reader to access source material directly This book will be essential reading for students of Buddhism but will also have much to teach anyone concerned with Asia and its religions or indeed anyone with an interest in the ideas of eternal life or timelessness

Buddhism, Virtue and Environment David E. Cooper,Simon P. James,2017-07-05 Buddhism one increasingly hears is an eco friendly religion It is often said that this is because it promotes an ecological view of things one stressing the essential unity of human beings and the natural world Buddhism Virtue and Environment presents a different view While agreeing that Buddhism is in many important respects in tune with environmental concerns Cooper and James argue that what makes it green is its view of human life The true connection between the religion and environmental thought is to be found in Buddhist accounts of the virtues those traits such as compassion equanimity and humility that characterise the life of a spiritually enlightened individual Central chapters of this book examine these virtues and their implications for environmental attitudes and practice Buddhism Virtue and Environment will be of interest not only to students and teachers of Buddhism and environmental ethics but to those more

generally engaged with moral philosophy Written in a clear and accessible style this book presents an original conception of Buddhist environmental thought The authors also contribute to the wider debate on the place of ethics in Buddhist teachings and practices and to debates within virtue ethics on the relations between human well being and environmental concern

Surviving Nirvana Sonya S. Lee, 2010-03-01 The Buddha's nirvana marks the end of the life of a great spiritual figure and the beginning of Buddhism as a world religion *Surviving Nirvana* is the first book in the English language to examine how this historic moment was represented and received in the visual culture of China of which the nirvana image has been a part for over 1 500 years Mining a selection of well documented and well preserved examples from the sixth to twelfth centuries Sonya Lee offers a reassessment of medieval Chinese Buddhism by focusing on practices of devotion and image making that were inspired by the Buddha's complete extinction The nirvana image comprised of a reclining Buddha and a mourning audience was central to defining the local meanings of the nirvana moment in different times and places The motif's many guises whether on a stone carved stele inside a pagoda crypt or as a painted mural in a cave temple were the product of social interactions religious institutions and artistic practices prevalent in a given historical context They were also cogent responses to the fundamental anxiety about the absence of the Buddha and the prospect of one's salvation By reinventing the nirvana image to address its own needs each community of patrons makers and viewers sought to recast the Buddha's death into an allegory of survival that was charged with local pride and contemporary relevance Thoroughly researched this study engages methods and debates from the fields of art history religion archaeology architecture and East Asian history that are relevant to scholars and students alike The many examples analyzed in the book offer well defined local contexts to discuss broader historical and theoretical issues concerning representation patronage religion and politics family values and vision Sonya S Lee is assistant professor of art history and East Asian languages and cultures at University of Southern California

Buddhist Environmental Humanism Anthony Le Duc, 2025-03-11 Since the emergence of the field of religious environmentalism Buddhism has been a key resource in shaping a religious environmental ethics This book contributes to the global dialogue on religion and ecology by introducing the concept of Buddhist environmental humanism as a framework for understanding Buddhism's response to the contemporary ecological crisis The author argues that through a humanistic lens Buddhist environmentalism offers a deeper understanding of how Buddhism addresses the pressing challenges facing humanity while also properly ascribing agency and responsibility to humans within the broader community of beings Central to this proposal is a recognition of the essential human role within the ecological crisis while carefully avoiding the pitfalls of anthropocentrism and human chauvinism

Wisdom as a Way of Life Steven Collins, 2020-07-07 This wide ranging and powerful book argues that Theravada Buddhism provides ways of thinking about the self that can reinvigorate the humanities and offer broader insights into how to learn and how to act Steven Collins argues that Buddhist philosophy should be approached in the spirit of its historical teachers and visionaries who saw themselves not as preservers of an archaic body of

rules but as part of a timeless effort to understand what it means to lead a worthy life He contends that Buddhism should be studied philosophically literarily and ethically using its own vocabulary and rhetorical tools Approached in this manner Buddhist notions of the self help us rethink contemporary ideas of self care and the promotion of human flourishing Collins details the insights of Buddhist texts and practices that promote the ideal of active and engaged learning offering an expansive and lyrical reflection on Theravada approaches to meditation asceticism and physical training He explores views of monastic life and contemplative practices as complementing and reinforcing textual learning and argues that the Buddhist tenet that the study of philosophy and ethics involves both rigorous reading and an ascetic lifestyle has striking resonance with modern and postmodern ideas A bold reappraisal of the history of Buddhist literature and practice *Wisdom as a Way of Life* offers students and scholars across the disciplines a nuanced understanding of the significance of Buddhist ways of knowing for the world today

Buddhist Tourism in Asia Courtney Bruntz, Brooke Schedneck, 2020-03-31 This innovative collaborative work the first to focus on Buddhist tourism explores how Buddhists government organizations business corporations and individuals in Asia participate in reimaginings of Buddhism through tourism Contributors from religious studies anthropology and art history examine sacred places and religious monuments as they have been shaped and reshaped by socioeconomic and cultural trends in the region Following an introduction that offers the first theoretical understanding of tourism from a Buddhist studies perspective early chapters discuss the ways Buddhists and non Buddhists imagine concepts and places related to the religion Case studies highlight Buddhist peace in India Buddhist heavens and hells in Singapore Thai temple space and the future Buddha Maitreya in China Buddhist tourism's connections to the state market and new technologies are explored in chapters on Indian package tours for pilgrims thematic Buddhist tourism in Cambodia the technological innovations of Buddhist temples in China and the promotion of pilgrimage sites in Japan Contributors then situate the financial concerns of Chinese temples speed dating in temples in Japan and the diffuse and pervasive nature of Buddhism for tourism promotion in Ladakh India How have tourist routes groups sites and practices associated with Buddhism come to be possible and what are the effects In what ways do travelers derive meaning from Buddhist places How do Buddhist sites fortify national cultural or religious identities The comparative research in South Southeast and East Asia presented here draws attention to the intertwining of the sacred and the financial and how local and national sites are situated within global networks Together these findings generate a compelling comparative investigation of Buddhist spaces identities and practices

The Life of Buddhism Frank Reynolds, Jason A. Carbine, 2000 Bringing together 15 essays by international Buddhist scholars this book offers a distinctive portrayal of the life of Buddhism The contributors focus on a range of religious practices across the Buddhist world from New York to Tibet

Readings of the Lotus Sutra Stephen F. Teiser, Jacqueline Ilyse Stone, 2009 Specialists in Buddhist philosophy art and history of religion outline the major ideas and controversies surrounding the Lotus Sutra They also treat its use in ritual performance ascetic practice visual representations

and social action *Buddhisms in Asia* Nicholas S. Brasovan, Micheline M. Soong, 2019-09-01 A guide to Buddhism's rich variety of traditions and cultural expressions for educators who would like to include Buddhism in their undergraduate courses Over its long history Buddhism has never been a simple monolithic phenomenon but rather a complex living tradition or better a family of traditions continually shaped by and shaping a vast array of social economic political literary and aesthetic contexts across East Asia South Asia and Southeast Asia Written by undergraduate educators *Buddhisms in Asia* offers a guide to Buddhism's rich variety of traditions and cultural expressions for educators who would like to include Buddhism in their undergraduate courses It introduces fundamental yet often underrepresented Buddhist texts concepts and material in their historical contexts presents the major ecologies of Buddhist belief practice and cultural expression and provides methodological insights regarding how best to infuse Buddhist content into undergraduate courses in the humanities and social sciences The text aims to represent Buddhism by approaching the subject from a broad range of disciplinary perspectives including art history anthropology history literature philosophy religious studies and pedagogy I teach an introductory course on Buddhism on a regular basis and every single chapter of this book gave me ideas for materials I could incorporate new modules I might develop and or better ways I might organize and present existing content to students I think that the book will be particularly useful to educators in Asian studies who are not themselves specialized in areas of Buddhism or religion The collection gives them the information on Buddhist philosophy doctrine and practice that they would need to better incorporate the role of Buddhism into classes on Asian culture history society and politics Leah Kalmanson coeditor of *Buddhist Responses to Globalization* **Buddhist Funeral Cultures of Southeast Asia and China** Paul Williams, Patrice Ladwig, 2012-04-26 The centrality of death rituals has rarely been documented in anthropologically informed studies of Buddhism Bringing together a range of perspectives including ethnographic textual historical and theoretically informed accounts this edited volume presents the diversity of the Buddhist funeral cultures of mainland Southeast Asia and China While the contributions show that the ideas and ritual practices related to death are continuously transformed in local contexts through political and social changes they also highlight the continuities of funeral cultures The studies are based on long term fieldwork and covering material from Theravada Buddhism in Burma Laos Thailand Cambodia and various regions of Chinese Buddhism both on the mainland and in the Southeast Asian diasporas Topics such as bad death the feeding of ghosts pollution through death and the ritual regeneration of life show how Buddhist cultures deal with death as a universal phenomenon of human culture **Rabindranath Tagore, Amartya Sen, and the Early Indian Classical Period** Neal Leavitt, 2022-10-31 Rabindranath Tagore 1861-1941 and Amartya Sen 1933 defend a distinctive form of foreign policy internationalism in their writings Instead of increasing the economic and military power of democratic states relative to their authoritarian competitors Tagore and Sen focus on the need to diminish the capacity for violence in all states regardless of regime type In Sen's view a program of nuclear disarmament a coordinated reduction in global military

spending and a coordinated reduction in the global arms trade should be woven into international law This book argues that the distance between Tagore and Sen s foreign policy recommendations and the policies pursued by the leading states in the international system is better understood when it is viewed in terms of the early Indian classical period In particular the idea that violent actions lead to violent responses and are therefore both immoral and imprudent is prominently expressed in the early Buddhist Discourses and the Ashokan inscriptions as well as the writings of Tagore and Sen The ethical standard of the obligations of power articulated by Tagore and Sen provides a better foundation for thinking about human security than the social contract tradition

Sri Lanka at the Crossroads of History Zoltán Biedermann, Alan Strathern, 2017-06-07 The peoples of Sri Lanka have participated in far flung trading networks religious formations and Asian and European empires for millennia This interdisciplinary volume sets out to draw Sri Lanka into the field of Asian and Global History by showing how the latest wave of scholarship has explored the island as a crossroads a place defined by its openness to movement across the Indian Ocean Experts in the history archaeology literature and art of the island from c 500 BCE to c 1850 CE use Lankan material to explore a number of pressing scholarly debates They address these matters from their varied disciplinary perspectives and diverse array of sources critically assessing concepts such as ethnicity cosmopolitanism and localisation and elucidating the subtle ways in which the foreign may be resisted and embraced at the same time The individual chapters and the volume as a whole are a welcome addition to the history and historiography of Sri Lanka as well as studies of the Indian Ocean region kingship colonialism imperialism and early modernity

The Moral Democracy Michał Lubina, 2019-03-12 Aung San Suu Kyi spoke passionately about non violence she wrote involved articles about compatibility of democracy with Buddhism and she won the hearts and minds of so many with her call for the freedom from fear It seemed for more than two decades that Suu Kyi was a perfect non Western propagator of democracy human rights rule of law Yet a deeper analysis reveals that Suu Kyi intellectually indeed has been a democrat all along but a Burmese democrat Suu Kyi understands democracy in a Buddhist way and she reasons about politics using Buddhist ideas idioms and concepts This Buddhist dominance of her political thought had several consequences the most important one being that her approach to politics has first and foremost been a moral one her vision of democracy and of politics in general is a moral vision It is something I propose to call the moral democracy The same reason that made her famous and admired worldwide now contributed to her fall from grace For too many outside Burma Myanmar it is impossible to understand how Suu Kyi yesterday s global personification of good and morality can now silently endorse crimes against humanity conducted in her country and accept forced relocation of 700 thousand people A cynic would quote Bertrand Russell s words we have two kinds of morality side by side one which we preach but do not practice and another which we practice but seldom preach and add a commentary that it applies especially to politicians One however may offer a more favourable explanation that Suu Kyi represents a tragic clash of ideas including moral ideas with political reality Whatever the case it was morality that made her famous it was the

same moralistic attitude that contributed to her removal from international Olympus and it is this moral understanding of politics that is the hallmark of her political thought which is here to stay for longer as political ideas last longer than changing political circumstances and fashions

From the Preface The dramatic fall from grace of Burma's human rights icon Aung San Suu Kyi shocked the world Micha Lubina's magisterial account of Aung San Suu Kyi's political education demystifies the behavior in power of this otherwise enigmatic leader This is the indispensable book for anyone who wants to understand the mind of one of the world's most controversial women Prof Salvatore Babones University of Sydney Dr Micha Lubina known in Poland for portraying Aung San Suu Kyi not as a human rights activist but as a realist politician in the very footsteps of her father now comes out with his research to the international audience Following the example of Mahbubani's *Can Asian Think* Lubina shows the intellectual and philosophical tradition of Myanmar through the case study of Suu Kyi's political thought It's a unique undertaking that presents Suu Kyi from an unexpected angle as a theoretician and political thinker or sage Both the scope of research done and the material presented are very impressive and rather unique even on international scene Prof Bogdan G ralczyk University of Warsaw Former Ambassador to Myanmar This book is a well documented and well constructed multilayered complex analytical work based on very rich research interviews with Suu Kyi and personal observations of the Author who displays unquestioned analytical skills As such the book represents a pioneer work in Burmese studies Prof Agnieszka Kuszewska Jagiellonian University in Cracow None of the numerous books and articles that I have read about Daw Aung San Suu Kyi dissects her political thoughts and background as thoroughly as the book written by Dr Micha Lubina He shows the political construction of her character her struggle her idealism her sources of inspiration and her weaknesses It is a necessary publication to read in order to understand historical and contemporary policymaking in today's Burma Dr Marion Sabri University of Rouen Normandy

Postcolonial Public Theology Paul S Chung, 2017-07-27 Postcolonial Public Theology is a tour de force a study in theological reflection in conversation with the most compelling intellectual discourses of our time that offers prophetic challenge to the hegemony of economic globalisation While evolutionary science searches for an ethically responsible practice of rationality and inter religious engagement forces Christians to grapple with the realities of cultural hybridity Postcolonial Public Theology makes the case for public theology to turn toward postcolonial imagination demonstrating a fresh rethinking of the public and global issues that continue to emerge in the aftermath of colonialism Paul S Chung provides students and scholars with a fascinating framework for imagining a polycentric Christianity as well as for discussing the continuing importance of Christian theology in the public arena

Religious Studies Gregory D. Alles, 2010-03-01 Drawing on recent developments in the comparative study of religion this book explores the trends of the past sixty years from a global perspective Each of the ten chapters covers the study of religion in a different region of the world from Europe and the Americas to Asia and the Far East Topics covered include local background to the study of religions formation of religious studies in the region important thinkers and writings

institutions interregional diversity and interregional connections emerging issues This book is a major contribution to the field of religious studies and a valuable reference for scholars researchers and graduate students **The Routledge**

Companion to Philosophy of Religion Chad V. Meister,Paul Copan,2013 The Routledge Companion to Philosophy of Religion Second Edition contains nine new entries and is an indispensable guide and reference source to the major themes movements and topics in philosophy of religion **Routledge Companion to Philosophy of Religion** Chad Meister,Paul Copan,2010-02-25 The Routledge Companion to Philosophy of Religion is an indispensable guide and reference source to the major themes movements debates and topics in philosophy of religion A team of renowned international contributors provide sixty five accessible entries organized into nine clear parts philosophical issues in world religions key figures in philosophy of religion religious diversity the theistic conception of God arguments for the existence of God arguments against the existence of God philosophical theology christian theism recent topics in philosophy of religion Covering key world religions including Hinduism Buddhism and Islam and key figures such as Augustine Aquinas and Kierkegaard the book explores the central topics in theism such as the ontological cosmological and teleological arguments for God s existence Three final parts consider Catholicism Protestantism Eastern orthodoxy and current debates including phenomenology reformed epistemology religious experience and religion and science This is essential reading for anyone interested in philosophy religion and related disciplines **The Routledge International Handbook of Existential Human Science** Huon Wardle,Nigel Rapport,Albert Piette,2023-08-01 This volume is the first handbook to explore existentialism as epistemology and method

Transdisciplinary in scope it considers the nature of human subjectivity and how human experience ought to be studied examining the connections that exist between the individual s imagining of the world and their everyday practice within it With attention to the question of whether humans are ultimately alone in their self knowledge or whether what they know of themselves is constructed in common with others it enables the reader to recognize core questions that frame the methods and orientation of an existential inquiry In addition to historical exposition it offers a variety of chapters from around the world that explore the diverse global spaces for and different types of existential focus and discussion thus questioning the view that the existential problem may be singularly a matter for the post enlightenment West The fullest and most comprehensive survey to date of what human beings can and should make of themselves The Routledge International Handbook of Existential Human Science will appeal to scholars across the humanities and social sciences with interests in anthropology sociology philosophy and research methods

Right here, we have countless books **Nirvana And Other Buddhist Felicities** and collections to check out. We additionally meet the expense of variant types and moreover type of the books to browse. The normal book, fiction, history, novel, scientific research, as with ease as various supplementary sorts of books are readily understandable here.
