Huntington, 2012-09-06 Between 1974 and 1990 more than thirty countries in southern Europe Latin America East Asia and Eastern Europe shifted from authoritarian to democratic systems of government This global democratic revolution is probably the most important political trend in the late twentieth century In *The Third Wave* Samuel P Huntington analyzes the causes and nature of these democratic transitions evaluates the prospects for stability of the new democracies and explores the possibility of more countries becoming democratic The recent transitions he argues are the third major wave of democratization in the modern world Each of the two previous waves was followed by a reverse wave in which some countries shifted back to authoritarian government Using concrete examples empirical evidence and insightful analysis Huntington provides neither a theory nor a history of the third wave but an explanation of why and how it occurred Factors responsible for the democratic trend include the legitimacy dilemmas of authoritarian regimes economic and social development the changed role of the Catholic Church the impact of the United States the European Community and the Soviet Union and the snowballing phenomenon change in one country stimulating change in others Five key elite groups within and outside the nondemocratic regime played roles in shaping the various ways democratization occurred Compromise was key to all democratizations and elections and nonviolent tactics also were central New democracies must deal with the torturer problem and the praetorian problem and attempt to develop democratic values and processes Disillusionment with democracy Huntington argues is necessary to consolidating democracy He concludes the book with an analysis of the political economic and cultural factors that will decide whether or not the third wave continues Several Guidelines for Democratizers offer specific practical suggestions for initiating and carrying out reform Huntington s emphasis on practical application makes this book a valuable tool for anyone engaged in the democratization process At this volatile time in history Huntington s assessment of the processes of democratization is indispensable to understanding the future of democracy in the world *Rethinking in Political Development* Somjee, 2023-07-24 **Growth, Distribution and Political Change** Malcolm Falkus, Kwan S. Schraeder, 2002 In recent years debates within academic and policymaking circles have gradually shifted from a Cold War focus on whether democracy constitutes the best form of governance to the question of whether and to what degree international actors should be actively involved in democracy promotion This book offers the first comprehensive analysis of international efforts to promote democracy during the post World War II period with an emphasis on developments since 1989 The authors assess the efforts of major industrialized democracies multilateral actors and NGOs They find that the success of these endeavors is constrained by several realities ranging from the often significant gap between the rhetoric and the reality of actual policies to the dilemma that occurs when

communist regimes in Eastern Europe is only the latest and most dramatic element in a process that began in the mid 1970s and still seems to be gaining momentum in such areas as sub-Saharan Africa. From Soldiers to Citizens João Gomes Porto, Chris Alden, 2016-04-22 Demilitarization of conflict and society is crucial to building sustainable peace in countries emerging from the scourge of civil war. As longstanding conflicts come to an end, processes which facilitate the potentially volatile transition from formal peace to social peace are critically important. At the heart of the exercise is the necessity of transforming the culture and the instruments of war: demilitarization including disarming, demobilizing, and reintegrating DDR former combatants into society. This volume represents the first in depth and comprehensive discussion of reintegration of former combatants in war to peace transitions. In addition to a systematic reflection and review of existing literature on DDR, the authors devised and applied a field research methodology to studying the reintegration of former combatants in Angola with potentially significant implications on the design and implementation of DDR programmes. The volume is written for academics, students, and practitioners focusing on war to peace transitions and post conflict issues.

Radicalism in the Contemporary Age grew out of the recognition of this need. A study in three volumes.
