Osmanische Bibliographie mit besonderer Berücksichtigung der Türkei in Europa Hans-Jürgen Kornrumpf, 2023-10-09

**A Modern History of the Islamic World** Reinhard Schulze, 2002-03 Considering the Islamic world from Morocco to Indonesia Somalia and Bosnia Schulze Islamic studies U of Berne charts their histories during the 20th century Rather than taking each one in turn he narrates chronologically the political changes throughout the world where Islam is the dominant cultural force He begins with the impact of colonialism and ends with struggle between Islamic culture and civil society in the 1990s He includes several maps Annotation copyrighted by Book News Inc Portland OR Islam in the World Today Werner Ende, Udo Steinbach, 2011-12-15 Considered the most authoritative single volume reference work on Islam in the contemporary world the German language *Der Islam in der Gegenwart* currently in its fifth edition offers a wealth of authoritative information on the religious political social and cultural life of Islamic nations and of Islamic immigrant communities elsewhere Now Cornell University Press is making this invaluable resource accessible to English language readers More current than the latest German edition on which it is based *Islam in the World Today* covers a comprehensive array of topics in concise essays by some of the world's leading experts on Islam including the history of Islam from the earliest years through the twentieth century with particular attention to Sunni and Shi'i Islam and Islamic revival movements during the last three centuries data on the advance of Islam along with current population statistics Muslim ideas on modern economics on social order and on attempts to modernize Islamic law shari'a and apply it in contemporary Muslim societies Islam in diaspora especially the situation in Europe and America secularism democracy and human rights and women in Islam Twenty four essays are each devoted to a specific Muslim country or a country with significant Muslim minorities spanning Asia Africa the Middle East and the former Soviet Union Additional essays illuminate Islamic culture exploring local traditions the languages and dialects of Muslim peoples and art architecture and literature Detailed bibliographies and indexes ensure the book's usefulness as a reference work *Approaching Ottoman History* Suraiya Faruqi, 1999-12-09 Suraiya Faruqi's scholarly contribution to the field of Ottoman history has been prodigious Her latest book represents a summation of that scholarship an introduction to the state of the art in Ottoman history In a compelling exploration of the ways that primary and secondary sources can be used to interpret history the author reaches out to students and researchers in the field and in related disciplines to familiarise them with these documents By considering both archival and narrative sources she explains why they were prepared encouraging her readers to adopt a critical approach to their findings and disabusing them of the notion that everything recorded in official documents is necessarily true While the book is essentially a guide to a complex discipline for those about to embark upon their research the experienced Ottomanist will find much that is original and provocative in its sophisticated interpretation of the field *The A to Z of the Ottoman Empire* Selcuk Aksin Somel, 2010 The Ottoman Empire was the last great Muslim political entity emerging in the later Middle Ages and continuing

its existence until the early 20th century and the creation of the modern state of Turkey The A to Z of the Ottoman Empire is an in depth treatise covering the political social and economic history of the Ottoman Empire the last member of the lineage of the Near Eastern and Mediterranean empires and the only one that reached the modern times both in terms of internal structure and world history Key Features o Historical maps o A detailed chronology o A list of Ottoman sultans and grand viziers o A dictionary consisting of 781 entries o An analytical bibliography o Details where original Turkish documents can be located

**French Trade in Istanbul in the Eighteenth Century** Edhem Eldem,2023-08-28 This work deals with French trade in Istanbul in the eighteenth century using French and Ottoman sources and integrating the political and social dimensions of the question It also sheds light on the financial dimension of trade particularly that of bills of exchange and monetary trade linking Istanbul to other Ottoman cities and to European financial centers Finally it tackles the issue of western economic penetration arguing that despite some signs of domination French control over the market was efficiently opposed by local actors that economic integration with the West was often realized on equal terms and that much of the domination witnessed toward the end of the century was in fact the result of French diplomatic leverage and of the gradual estrangement of non Muslim traders from the Ottoman commonwealth

The authors have asked of the documents of the Dead Sea Library found at Qumran a simple question how does each participate in a single Judaic religious system They propose a reading of the Scrolls from the hypothesis that all of them in one way or another rest upon one authoritative Judaism Their analysis of the Dead Sea Scrolls describes how diverse writings hold together to make a single coherent statement to stand for a religious system possessed of integrity and wisdom This account of the world view of Judaism covers principal questions addressed to any Judaic religious system the doctrine of God the Torah and matters of history wisdom and mysticism When it comes to the way of life they include the evidence of the material culture of the community as well as practical matters of religious conduct How the community's world view comes to realization is suggested by its treatment of the calendar by its provision of laws that concern women by questions of cultic and secular purity by its piety and forms of worship and views of Temple sacrifice and the like Finally with the community's definition of Israel and of itself in relationship to Israel inclusive of Israelites excluded from this Israel an account is gained of the theory of who and what is Israel that animates the particular Judaism represented in these writings

**The Ocean of the Soul** Hellmut Ritter, 2003 The Ocean of the Soul is one of the great works of the German Orientalist Hellmut Ritter 1892-1971 It presents a comprehensive analysis of the writings of the mystical Persian poet Farid al-Din Attar who is thought to have died at an advanced age in April 1221 when the Mongols destroyed his home city of Nishapur in the north east of Iran The book which resulted from decades of investigation of literary and historical sources was first published in 1955 and has since remained unsurpassed not only as the definitive study of Attar's world of ideas but as an indispensable guide to understanding pre-modern Islamic literature in general Quoting at length from Attar and other Islamic sources Ritter sketches an extraordinarily vivid portrait of the Islamic attitude toward life characteristic developments in pious and ascetic circles and in conclusion various dominant mystical currents of thought and feeling Special attention is given to a wide range of views on love love in all its manifestations including homosexuality and the commonplace self-adoration of good looking youths Ritter's approach is throughout based on precise philological interpretation of primary sources several of which he has himself made available in critical editions      Handbook of Ugaritic Studies Wilfred Watson, Nicolas Wyatt, 2016-02-15

Over the past seven decades the scores of publications on Ugarit in Northern Syria 15th to 11th centuries BCE are so scattered that a good overall view of the subject is virtually impossible Wilfred Watson and Nicolas Wyatt the editors of the present Handbook in the series Handbook of Oriental Studies have brought together and made accessible this accumulated knowledge on the archives from Ugarit called the foremost literary discovery of the twentieth century by Cyrus Gordon In 16 chapters a careful selection of specialists in the field deal with all important aspects of Ugarit such as the discovery and decipherment of a previously unknown script alphabetic cuneiform used to write both the local language

Ugaritic and Hurrian and its grammar vocabulary and style documents in other languages including Akkadian and Hittite as well as the literature and letters culture economy social life religion history and iconography of the ancient kingdom of Ugarit A chapter on computer analysis of these documents concludes the work This first such wide ranging survey which includes recent scholarship an extensive up to date bibliography illustrations and maps will be of particular use to those studying the history religion cultures and languages of the ancient Near East and also of the Bible and to all those interested in the background to Greek and Phoenician cultures

*Judaism in Late Antiquity 4. Death, Life-After-Death, Resurrection and The World-to-Come in the Judaisms of Antiquity* Alan Avery-Peck, Jacob Neusner, 2015-11-02 Thirteen foremost scholars describe the views of death life after death resurrection and the world to come set forth in the literary evidence for late antique Judaism The volume covers the view of Scripture as a whole as against other Israelite writings distinct parts of Scripture such as Psalms and the Wisdom literature apocalyptic and the non apocalyptic pseudepigraphic literature Philo Josephus the Dead Sea Scrolls earliest Christianity the Gospels in particular the Rabbinic sources the Palestinian Targums to the Pentateuch and out of material culture the inscriptional evidence The result is both to highlight the range of available perspectives on this important issue and to illuminate a central problem in the study of Judaism in late antiquity phrased neatly as One Judaism or many Here we place on display indicative components of Judaism in their full diversity leaving it for readers to determine whether the notion of a single coherent religion falls under the weight of a mass of documentary contradictions or whether an inner harmony shines forth from a repertoire of largely shared and only superficially diverse data

**Handbuch der Orientalistik** John O. Hunwick, 1994 *Judaism in Late Antiquity* Jacob Neusner, Alan Jeffery Avery-Peck, 1995 In two volumes leading American Israeli and European specialists in the history literature theology and archaeology of Judaism offer factual answers to the two questions that study of any religion in ancient times must raise The first is what are the sources written and in material culture that inform us about that religion The second is how do we understand those sources in the reconstruction of the history of various Judaic systems in antiquity The historical relationship of Judaism with nascent Christianity in New Testament times is also treated
